J108(G79)

Proposal Abstract J108(G79)

1. **Arms Control Problem:**
Nuclear weapons - fissionable materials "cutoff"
2. **Verification Type:**
Remote sensors
3. **Source:**
Union of Soviet Socialist Republics. CD/PV.38, 3 July 1979.

4. **Summary:**

Observance of commitments to cease production and eliminate nuclear weapons calls for extremely effective verification. This can be based on the use of national means of verification supplemented by well-thought out international procedures. Since measures aimed at halting the production of nuclear weapons and eliminating them will be complex and consists of a number of stages, the form and conditions of such verification must correspond to the objective extent and scope of the measures implemented in each stage.
