- \* The appropriate division number and compatibility group are to be placed in this location, e.g. 1.1 D.
- \*\* The appropriate compatibility group is to be placed in this location, e.g. G.  
For goods of class 1 in division 1.4 compatibility group S, each package may alternatively be marked **1.4S**.

Explosive subsidiary risk label for self reactive flammable solids (class 4.1) and organic peroxides which possess explosive properties (class 5.2).

## PLACARDS

FOR  
CLASS 7

ALTERNATIVE 1  
(RED WITH WHITE BOX)

ALTERNATIVE 2

*Samples of display of the UN number on placards or the orange panels for cargo transport units.*

## MARK

MARINE POLLUTANT mark for harmful substances (environmentally hazardous substances) according to Annex III of MARPOL 1973/78, as amended. The mark should be in a contrasting colour to the packaging, or, when used as a sticker, coloured black and white. For packages the triangular shaped mark should have sides of at least 100mm except in the

case of packages which, because of their size, can only bear smaller marks. For cargo transport units this dimension should be not less than 250mm (Amendment No. 25-89 to the IMDG Code entering into force not later than 1 January 1991).
