"Button, Button, Who Makes the Button?"

Ordinarily, a button is looked upon as an article of minor importance. But sometimes a great deal depends upon just one button. Its importance is not fully realized until it has been lost.

Canada spends about a million and a quarter dollars every year for buttons-yes, just buttons.

And-more than two-thirds of these buttons are imported, more than \$800,000 is sent to foreign countries which could just as well be kept here.

If these buttons were produced in Canada, fourteen factories, employing over nine hundred Canadians, would be kept busy to turn them out.

There is no reason why these buttons can't be "Made in Canada" just as well as anywhere else: in fact, some \$400,000 worth are every year-the other \$800,000 worth will be, if you will only "play the game" and---

Say "Made in Canada."

THE REAL TEST

There is no surer test of the real success of the management of a Life Company than the feeling of its clients, the policyholders, towards it.

How the Canada Life Stands the Test

The Company is constantly receiving letters expressing gratification for increasing policy dividends, appreciation of generous treatment by the management. or grateful thanks for prompt payment of claims.

In Illustration

A CHICAGO BANK PRESIDENT lately wrote: "This dividend is particularly gratifying . . . and reflects great credit on the management of your good Company.'

SIR WILLIAM WHYTE'S EXECUTOR wrote: "I have to thank you very cordially for the promptitude with which you settled our claim."

A PHILADELPHIA POLICYHOLDER says: "Your methods seem to make a friend of a policyholder, and I assure you that after dealing with your company fifteen years or more, I feel enthusiastic of your worth and kind

These letters are not exceptional; they are typical of those being received nearly every day.

PREMIER REFUSES

Nothing to Say Regarding Action re German Pro-

ESTIMATES NOT PASSED

Cabinet Can Exercise Check on Board of Governors if It Sees Fit.

In regard to the trouble arising in Toronto University over the treatment of the German professors, the Ontario Government has nothing to say. This was the statement of Premier Hearst last evening when the matter was brought to his attention for a pronouncement of policy. He did not wish to express any opinion on the matter in any shape or form.

The discussion of the case of the German professors culminating in the action of the board of governors which finally granted them "leave of absence," on full pay, has naturally appeared before the cabinet. Whether or not it has been brought to their attention in an official way, is a matter on which Mr. Hearst does not wish to speak. He claims that it is an affair for the board to deal with.

As a matter of fact, the estimates of the university, amounting to a sum in the neighborhood of \$70,000, are understood to have not yet received the customary approval of the cabinet. This in no way has any relation to the present situation, but the exigencies of government business have held it aside until a convenient season. The claim is being made by several who have taken the university affair seriously and favor the absolute dismissal of the three men involved, that in this right of approving estimates, the government retains their most serious and powerful check on the governing board.

When approval is granted to uni-

and powerful check on the governing board.

When approval is granted to university estimates the usual procedure is for the legislature, at the following session, to make up the deficit involved by an increased grant. This has been the custom of the past and approval is accepted in the understanding that the government will stand behind when necessary. This is one of the government matters which will receive attention at the approaching session, if not before.

Altho it is understood that no protests of any kind have been sent to the government in reference to the controversy, it is intimated in certain quarters that Sir Edmund Osler, in making his resignation, forwarded a letter setting forth his position and the reasons for his action.

All the ministers of the cabinet remain silent, contending that it is a subject for the board of governors to handle of trans.

APPLICATIONS FOR WORK CONTINUE TO BE FILED

a large number of men continue to register every day, very few calls for men are being received. The officials of the bureau are kept busy looking for employment for them. Up to the present time little difficulty has been experienced in placing at least a few men every day, but even that is gradually falling off. The officers in charge of the bureau are anxious that the manufacturers and employers of labor should keep them in mind and call up the bureau when they are in need of men. A large number of the registrations to date are from married men with families. They are receiving

The Reason For The Closing Of The Semi-ready Store In Toronto

Twenty years ago we started a small organization in Canada to tailor clothes to the trying-on stage, ready to be fitted and finished in a few hours. We called our line "Semi-ready Tailoring," and we coats. Our first difficulty was that the Merchants said there was no demand for high-class and consequently higher-priced clothes. We met that difficulty by a campaign of publicity, and by the opening of a chain of stores, and we quickly proved that there was a demand, and that the merchants had not sensed that demand, nor would they wish to with all coing wall. wish to with all going well. You know the most conservative and placid individual is he who can say that "all's well with me."

Rather than accept passively the verdict of the merchant, we adopted active or militant methods, and for years fought sturdily

for recognition—and gained it.

Today the best Merchants want Semi-ready Tailoring to sell. There is no need for demonstration stores to prove up.

A manufacturer has no right to be in the retail trade.

We retire gracefully—victorious—but nevertheless evacuate

A long term lease of store and building of-fered cheap. Apply to Mr. W. G. Hay.

In the general sessions yesterday. Charles Grimwood, Albert Kent and Weilington Buly were clarged with breaking and entering the house of W. G. Harris, 170 Grenadier road, on W. G. Harris, 170 Grenadier road, on Oct. 30, and stealing 21 doors, three-drawers and a number of other articles. The prisoners admitted taking the doors, but it was claimed by Grimwood, who had built the house for Harris, that as a sum of \$509 was owed him, he had a right to take the doors as part payment of the debt.
Judge Coatsworth found the men
guilty. He let Kent and Buly off on suspended sentence, and remanded Grimwood for a week for sentence.

John Dennis, a mechanic, is suing America is Only Place Where Frank Carrol, trainer of the Toronto Help Can Be Had for Refugees.

The opportunity for Ontario citizens was on the fence of his own yard, which overlocks the grounds, and was watching a game when Carrol came and ordered him off, at the same time smashing him on the jaw with his fist, breaking his teeth. Defendant admitted ejecting Dennis, who he claimed was standing on the bleachers and refused to leave when requested. A number of witnesses for the defence stated that Carrol used no more force than was necessary to eject Dennis. When counsel had addressed he jury Judge Denton asked for a sealed verdict to be presented today.

The opportunity for Ontario citizens to send relief to the suffering Belgians still stands open. Hope of assistance for these people is gradually being narrowed to persons living on the american continent, and the necessity of drawing heavily on their generosity is imminent. This was the substance of a letter received yesterday by Premier Hearst from the prime minister of Nova Scotia. The premier endorsed the spirit of the letter. It is stated in the letter that to supply the actual necessities of the premier devices the spirit of the letter. Thus seven million residents in Belgium \$0,000 tons of foodstuffs monthly will be extended to all parts of Canada, and those in charge have little fear of the business man's home.
