ENGLAND IS EXCITED.

Sir Donald Smith is Besieged by Inquirers in London

ALL OF WHOM WANT TO GO TO KLONDIKE.

But Hardened Men Only With Capital Are Encouraged to Leave.

Solid London Capitalists Are Interesting Themselves in the Canadian Mining Territories and Are Investigating With a View to Organizing Companies—The High Commissioner Issues a Pamphlet to Help on Canada's Gold Boom—Fifteen Hundred Booked Already for the Yukon Country from Seattle—Mr. Ogilvie's Latest Letter—All About the Boom.

London, July 22.—Sir Donald Alexander Smith, the Canadian High Commissioner in London, has been besieged for several days past by inquirers who desire to go to the Yukon mining districts. Most of the applicants for information are young men without money who are employed on farms and in factories. Would-be emigrants of this class are urged to stay at home, but hardened men with a capital of \$100 or more are encouraged to leave for the gold fields.

Several London capitalists are interesting themselves in the Canadian mining territory and are making investigations with a view of organizing mining companies. Experts have been despatched to inspect the region.

Sir Donald Smith has issued a pamphlet containing much information concerning the new gold fields. This is probably due to the monetary considerations.

Various steamship companies report that few persons have left England for the new gold fields this far. This is probably due to the monetary considerations.

Dewind's Warning.
London, July 23.—The Times publishes a long letter from Harry Dewind, the newspaper correspondent who some time since undertook to travel by land from New York to Paris, describing the dangers and difficulties in the way of reaching the Yukon gold fields. He urges the Canadian Government to construct a wagon road over White Pass and warns Englishmen to wait until something of the kind is done and not to be deceived by allurements of unscrupulous agents. He says there is no doubt that there is gold there, but that the wealth of India will not compensate for the existing risks.

The Portland Leaves.

Seattle, Wash., July 22.—To-day at noon the steamship Portland of the N. A. T. and P. Company left Seattle for St. Michael's with her passengers and accommodations taxed to the limit and with a full cargo of provisions. On the Portland was the second party of fortune-hunters to leave for the Klondike since the news of the big finds was brought in by the Portland last Sunday. On board are S. P. Weston of the Post-Intelligencer, who will take with him a dozen carrier pigeons to send news from the Klondike to the Post-Intelligencer and the Associated Press. At St. Michael's the Portland's passengers and freight will be transferred to river steamers for the 2500 mile trip to Dawson.

Next Friday the Pacific Coast Steamship Company's steamer Queen will leave Seattle for Juneau and Dyea. She will have a full list of passengers, who will go into the Klondike overland. On Sunday the Mexico will sail from the same port, where accommodations are crowded. The steamer Islander goes from Victoria to Dyea and Skagway Bay, and the company's representatives here say she will have all she can carry. A deal has about been closed for the purchase of the steamers Eliza Anderson and W. J. Mervin, sound boats, which will be run on the route. A special meeting of the City Council was called to-day to consider the matter.

Message by Carrier Pigeon Mr. Chamberlain Explains the Terms of the Contract.

CROSSED OVER ON JULY 15 TWO STEAMERS TO BE READY IN 1899

According to the Wording of the Despatch On the Wing of the Bird.

Contractors Have Agreed to Make Substantial Deposits With the Canadian Finance Minister as a Guarantee and to Secure the Performance of the Contract—Editors in India to Be Punished for Printing Seditious Language—Crop Prospects Good in the Bombay Presidency—Cholera Prevalent There—A Sorry Show Made by the United States at the Brussels Exhibition.

London, July 22.—In the House of Commons to-day Mr. Chamberlain, Secretary of State for the Colonies, replying to a question as to the present position of the projected fast mail service to Canada, said that by the terms of the contract two steamers must be ready to begin the service on or before May 31, 1899, and the other two not later than May 1, 1900.

Mr. Chamberlain said also that the contractors had agreed to deposit with the Canadian Minister of Finance, within sixty days of the date of the signing of the contract, a notification of their acceptance of its conditions, the sum of £10,000 and a guarantee satisfactory to the Minister of Finance for an additional £10,000, as security for the performance of the contract. The sixty-day period, he said, had not expired.

FROM BOMBAY AND SIMLA.

Editors to be Prosecuted for Seditious Deaths From Cholera.

Bombay, July 22.—The Government has decided to prosecute some of the editors of the newspapers in the Poona district which have been most conspicuous in the publication of seditious articles against British rule. The articles chiefly complained of are those that have been published in the Poona district, and the Government has decided to prosecute some of the editors of the newspapers in the Poona district which have been most conspicuous in the publication of seditious articles against British rule.

There has been during the last ten days an alarming increase of deaths from cholera in the Bombay Presidency. Some recrudescence of the bubonic plague.

On the other hand, as a result of the plentiful rainfall, the crop prospects throughout the Presidency are improving.

Simla, July 22.—The Vice-regal Legislative Council to-day adopted the bill introduced by Mr. Chalmers on July 8, repealing the Cantonment Act of 1884, which itself had repealed a similar act of 1859.

The object of this action is to restore to the Governor-General-in-Council power to make rules for checking the spread of certain contagious diseases in cantonments, and to give him the same control in respect to those diseases that he possesses in the case of other cantonments.

The Hon. W. Mackworth Young, Lieut. Governor of the Punjab, in course of the debate on Mr. Chalmers' bill, said that the repeal of the Cantonment Act of 1884 had proved very disastrous to the troops in cantonments, and the experience had shown that it was not wise to raise the standard of equality.

London, July 22.—The use of kerosene as a stimulant for the hair is becoming common in Europe, and already several persons have either lost their lives or been seriously injured by its use.

The latest victim is Mrs. Samuelson, a daughter-in-law of Sir Bernard Samuelson, a well-known engineer, who was burned to death in a hair dressing shop in Conduit-street.

A man named Kopf, an operator in the shop, testified at the coroner's inquest that after he had used the oil on the head of Mrs. Samuelson he was twisting her hair to dry it. Suddenly there was a flash, and he and Mrs. Samuelson were wrapped in flame. He declared that the fire must have been of spontaneous origin, as there was no gas other than flame in the room. The gasometer was very hot and the sun was shining into the room through a skylight.

American Make a Sorry Show.

Brussels, July 22.—The finest showing at a exhibition here is made by France. Great Britain being a good second, and Germany, third, but the exhibit of the United States is a very poor one. There is an amazing display of cheap and shabby furniture, labeled as made in America. There is a display of agricultural implements and bicycles. In fact the whole exhibit is a sorry show.

Japan Doesn't Want War.

London, July 22.—The Paris correspondent of The Daily Mail says: "The Japanese Minister here denies that the relations between Japan and the United States are strained. He says: 'We wish especially to avoid war with the United States. If we had wanted war we would have resisted Russia when she

interfered with our war with China; but we decided that it was best to strengthen our army and navy and develop our resources.'

Capt. Botcheff on Trial.

Philippopolis, July 22.—The trial of Captain Botcheff, ex-adjutant of camp to Prince Ferdinand of Bulgaria, and his accomplices in the murder of his mistress, Anna Salomon, a beautiful singer, is in progress. Botcheff denies his guilt, but his accomplices have confessed and have produced a letter alleged to have been written by Botcheff, in which he declared that Prince Ferdinand wished the girl to be got rid of because of scandalous scenes at court, of which she had been the cause. Sixty-four witnesses will be examined.

Lady Brassey Badly Hurt.

Melbourne, July 22.—Lady Thomas Brassey, wife of the Governor of Victoria, has met with a serious accident. While out driving to-day her horse, a spirited one, took fright and ran away. Lady Brassey was thrown out and severely injured, two of her ribs being broken.

In February last Baron Brassey was thrown from his horse and badly hurt.

Bank of England Statement.

London, July 22.—The weekly statement of the Bank of England shows the following changes as compared with the previous week: Total reserve, increased £237,000; circulation, decreased £125,000; bullion, increased £111,000; other securities, increased £47,000; other deposits, increased £701,000; public deposits, increased £17,000; notes, increased £224,000; government securities unchanged. The proportion of the Bank of England's reserve to liabilities, which in the week ending July 18, is now 55.59 per cent. The Bank of England's rate of discount remains unchanged at 2 per cent.

Discount Rate Cut Down.

Bombay, July 22.—The Bank of Bombay has reduced its rate of discount from 6 per cent. to 5 per cent.

THURSDAY GETTING OUT.

It Now Appears That the Evacuation of Thessaly Has Begun—Peace Preliminaries Discussed.

Athens, July 23.—The Turkish military authorities have ordered the surrender of the Volo-Larissa Railway to the Greek Republic officials within 30 days. It is stated that the evacuation of Thessaly has already commenced. Eight regiments of Turkish troops from Donkovo passed yesterday on route for Ellasson. Several officers have started for Salonika. Nuhem Pasha, commander in chief of the Turkish troops in Thessaly, is expected to arrive at Volo shortly to superintend the evacuation.

General Smolents, commanding the Greek forces at Arta, has been summoned to Athens.

Peace Preliminaries Discussed.

Constantinople, July 22.—At the sitting of the Peace Conference to-day, the strategic position proposed by the military attaché of the troops was agreed upon, and the preliminaries of peace between Turkey and Greece were then discussed.

HUBBELL NOT YET FOUND

The Ottawa Broker is Said to Have Plunged Heavily in Wheat—Lost Money on Toronto Sunday Car Vote.

Ottawa, July 22.—The talk in the city to-day is the Hubbell defalcation, which is turning out to be more extraordinary than was even at first anticipated.

Ald. Rogers refused to discuss the matter, but remarked that every dollar owing by the firm would be paid.

Hubbell is said to have lost heavily on wheat speculation, and it is reported dropped in Toronto. The Dominion press are trying to locate him, but it is thought he is across the line.

Fatal Fire Near Montreal.

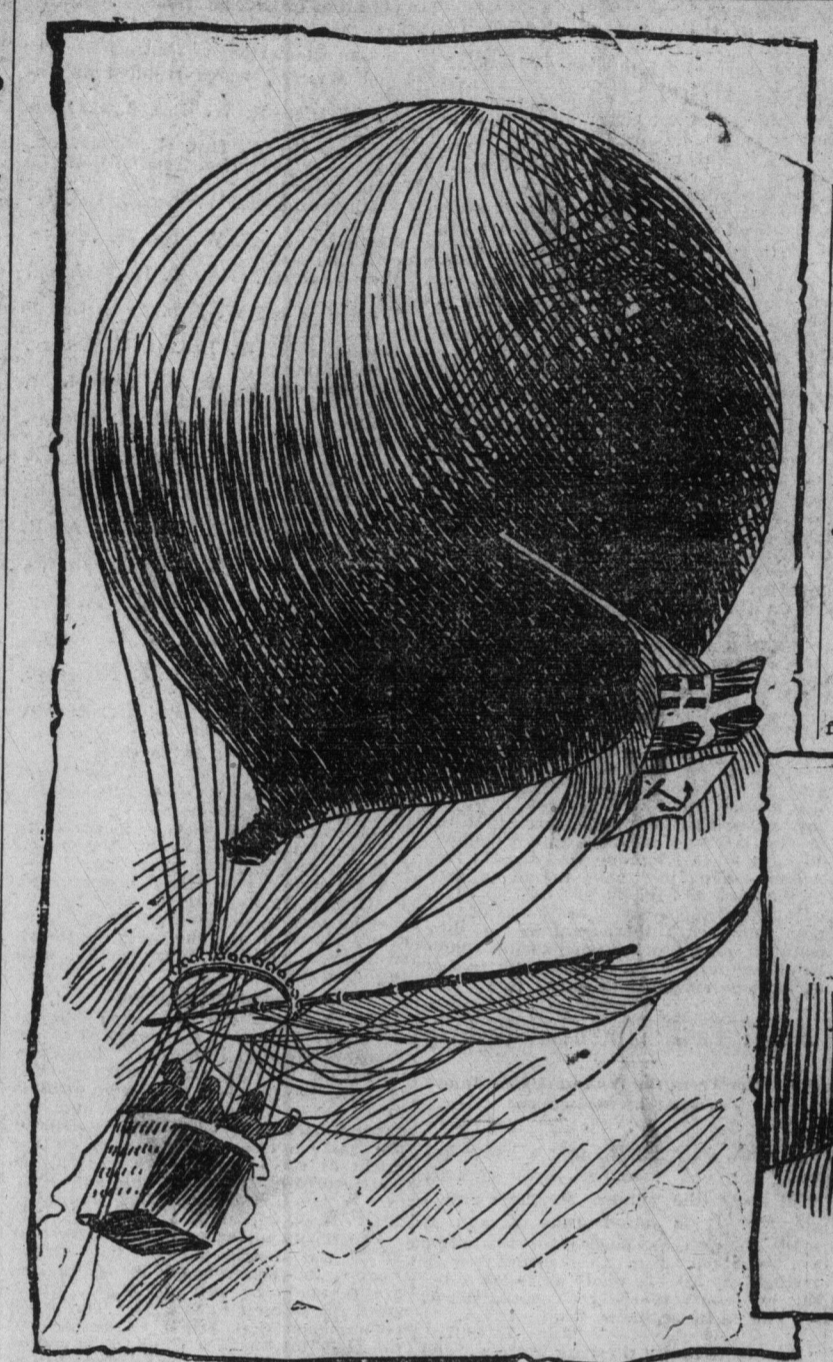

Montreal, July 22.—To-night at Mount Royal, near the residence of Mr. Bruce, a well-known citizen of Montreal, a fire from a lamp explosion and an infant child was burned to death. Mrs. Bruce was also badly burned in trying to rescue the child. The house was consumed.

"JACK" M'LEAN PASSED BY

Mr. Thomas Vance of Toronto Declares That He Saw the Fugitive in Jordan on Wednesday.

From evidence received at The World office last night, it would appear that "Jack" McLean, the fugitive burglar and ex-convict, who escaped from the Toronto police, is making his way to the United States border in spite of every effort to recapture him. Mr. Thomas Vance, a Toronto commission merchant, was in Jordan on Wednesday night at 8 o'clock, when a stranger, whom he declared to be McLean, came to his house and asked for a drink of water. McLean, but when he had gone to the kitchen, he saw a man who he recognized as McLean, and he saw him go to the kitchen. McLean, but when he had gone to the kitchen, he saw a man who he recognized as McLean, and he saw him go to the kitchen.

At the adjourned inquest on the body of Maggie Gammage, the 18-year-old daughter of Silas Gammage, last evening the jury, after an absence of an hour, returned the following verdict:

"That the said Maggie Gammage came to her death on the 8th day of July, 1897, by strychnine, self-administered, and we believe William Ryan the seducer of the said Maggie Gammage, and further, we find that the drugist, Mr. Sterritt, is deserving of severe censure for the careless manner in which he sold strychnine to the deceased."
