ONE CENT

TO THE TERRIFIC GAS EXPLOSION

Had Just Moved Into 365 Euclid Avenue—Match Was Lighted to Hunt the Leak, When the Explosion Followed.

Both Women Were in Flames When a Neighbor, Washing a Buggy, Turned the Hose on Them—Miss Bayes Now Lies in a Critical Condition.

Miss Mary Bayes is lying in St. Michael's Hospital at the point of death, suffering from terrible injuries sustained by an explosion of gas, and Mrs. John Whitehead is confined to her home at 205 Euclid-avenue, suffering from severe burns received at the same time.

A Remarkable Escape. Both women had a remarkable escape from instant death, and it was only by the presence of mind of a neighbor that they were saved. The house at Euclid-avenue is situated just below College-street, and is a semi-detached brick structure, adjoining the premises of Mr. Thomas J. Linton, who conducts a milk business. Until Saturday afternoon the house was occupied by Mr. George L. Bailey, a shipper in the Metallic Roofing Company, who moved out about 2 o'clock and went to reside in another locality.

A Quick Change. He had no sooner removed his effects, when Mrs. Whitehead moved into the house. The members of the Whitehead family first fitted up the rooms upstairs, and when this was partly done it was 7 o'clock. After having supper in the kitchen, Miss Bayes went into the dining room, which is separated from the parlor by folding doors, and found the room full of gas. The folding doors being open at the time, the gas had filled both apartments, and as the doors and windows were closed all avenue of escape was cut off. Miss Bayes called Mrs. Whitehead and the two women commenced a search for the leakage.

Looking for the Leakage. As it was growing dark and some light was required to aid them in their search, Mrs. Whitehead procured the gas fixture, and screwed it onto the pipe protruding from the ceiling. In doing this she did not notice that the cap was off the pipe, which accounted for the escape of the gas. Before attempting to light the gas Miss Bayes decided to try again and find the leakage. With this purpose in view, she stood on a table, and with a lighted match placed it near the pipe.

Terrific Explosion Followed. Immediately the gas in the room ignited, and there was a flash, followed by a loud explosion. Miss Bayes was thrown from the table on which she was standing onto the floor, and Mrs. Whitehead was also knocked down. Although the blaze only continued for a few seconds, it was sufficient to set fire to the clothes of the two women as they lay on the floor.

Turned the Hose on the Burning Women. At the time of the explosion Mr. Linton

was busy in his back yard washing a wagon. When he heard the crash he hurried to the rear window of the dining-room, and seeing the clothes of the women on fire, brought the hose he was using into the room and poured water onto them until the flames were extinguished. In the meantime the other inmates of the house had rushed into the rear room and were also throwing water on the women.

A Physician Summoned. They were both picked up and carried into the kitchen and Dr. C. A. McKee of 203 College-street and Dr. Bentley were hastily summoned. Miss Bayes was in a serious condition, and it was evident that she was internally injured. Despite her suffering she pluckily bore up and retained her senses. The physicians on their arrival temporarily dressed Miss Bayes' injuries, and an hour later she was removed in the ambulance to the hospital.

Mrs. Whitehead, after she was attended to by the physician, was able to go about the house. Her injuries consist of severe burns to her hands and wrists, and her face and shoulders are also badly burned.

All Windows Smashed. The extent of the explosion may be imagined when it smashed every window in the house with the exception of the one in the lavatory. The glass in the window of the parlor was thrown onto the street, and several passers-by at the time were struck by small pieces. The glass in the rear window of the dining-room was scattering in all directions, and one piece struck and cut the hand of a little son of Mr. Linton, who was playing in the yard in the rear of his home.

Plaster Fell Down. The plaster on the ceiling and walls was broken and large pieces fell to the floor. An iron grating in the floor was lifted out of place. The fire did slight damage to the house, the table and a bureau, the only pieces of furniture in the room being scorched.

Some person in an alarm for fire and all the fire-fighting apparatus and men in the section responded, but their services were not required.

The fire which is about 45 years of age, and before coming to Toronto lived at Bolton, Ont.

Miss Bayes is 24 years of age, and boarded at Mrs. Whitehead's home. Her home is also in Bolton.

ROBERTS' QUICK MOVEMENTS GIVE BOERS NO CHANCE AT ALL

British Forces Are Pursuing the Enemy on All Sides—Gen. Hamilton Now Occupies Winburg—What the Field Marshal's Bulletin Says.

Canadian Mounted Infantry, Under Gen. Hutton, Turned the Boer Right and Pushed Across the Vet Under a Heavy Shell and Musketry Fire—British Losses Believed to be Light.

London, May 7.—(4.10 a.m.)—Lord Roberts is making better progress than anyone had dared to hope, and is meeting with success at all points.

The only news of the actual occupation of Winburg is the incidental reference to it in the despatch from Vet River, describing Gen. Pole-Carew's operations, but as the latest news of Gen. Hamilton's operations, dated Sunday morning, was that he was then preparing to force the difficult passage over Little Vet, on the Bloemfontein-Winburg road, there need be no doubt that the news of the occupation is accurate. The Boers, following their customary practice, had evacuated their positions on the Vet River during Saturday night. As Lord Roberts, advancing along the railway, and General Hamilton 20 miles to the east, threatened the two wings of the Boer force, it would not be surprising to hear that they had also evacuated Winburg.

Can't Join Main Army. General Hamilton's advance will prevent the Boer forces in the direction of Thabanchu joining their main army near Winburg. General Rundle on Saturday arrived in pursuit of the Boers, seven miles north of Thabanchu, compelling the Boers to retire in an easterly direction.

Capture of Brandfort. A Boer account of the capture of Brandfort says: The federal forces, although weak in numbers, offered strong resistance, but they were forced by the overwhelming force opposed to them to evacuate the town.

No Relief of Mafeking. The idea that the relief of Mafeking is in sight, however, appears to have been premature. The British speedily engaged the Boers, who endeavored to relieve Mafeking, but were repulsed on either side of the Vet River in conjunction with Lord Roberts' army. From Lorenzo Marques some various rumors that Col. Plumer has been reinforced and is again advancing toward Mafeking. Another report says that Mafeking has been relieved and Gen. Lomax, with 3000 Boers, captured at Fourteen Streets.

Women at Work. Women have been placed in the Government offices in the Transvaal, in order to relieve the burghers for active service. Two New South Wales Lancers, who escaped from Waterfall prison have arrived at Delagoa Bay after a dangerous journey.

The Volksraad will meet in Pretoria today. Probably the sitting will be memorable. The Johannesburg shell factory has resumed work with Austria, Italian and Greek workmen.

Roberts Reports Fighting. How Gen. Hutton's Men in a Dashing Manner Pushed Across the Vet River.

London, May 6.—3 p.m.—The War Office has published the following despatch from Lord Roberts, dated Vet River, Saturday, May 5, 7.15 p.m.: "I marched here to-day with Pole-Carew's division. Headquarters and Wavell's brigade of the seventh division are two miles in the rear. Maxwell's brigade of the same division is the same distance to our right.

Canadians in It Again. "The enemy are in considerable strength on the opposite bank of the river. Our guns engaged theirs for some three hours without our being able to force a passage of the river, but shortly before dusk the mounted infantry under Gen. Hutton turned the enemy's right, and in a very dashing manner pushed across the river, under heavy shell and musketry fire.

"We are now bivouacking for the night within three miles of the Vet River. Our casualties, I hope, are not numerous.

Hamilton Prevents a Junction. "Hamilton was in action yesterday and succeeded in preventing a junction of two Boer forces by a well-executed movement by some of the Household Cavalry, the Twelfth Lancers and Kitchener's Horse, who charged a body of the enemy and inflicted serious loss. The enemy fled, leaving their dead on the field and their wounded to be attended to by our doctors.

Highlanders Dislodge Boers. "Macdonald's Highland Brigade dislodged the enemy on the right flank under cover of the naval guns, in which operation the Black Watch distinguished themselves and were very skillfully led.

"Hamilton was advancing this morning to a difficult drift over the Kleinvet River.

Barton Heavily Engaged. "Hunter reports that Barton's brigade was heavily engaged this morning, two miles north of Rooiband. The enemy's position was quite four miles long and strongly held. He states that our men marched magnificently and carried ridge after ridge in grand style.

Casualties Later. "Casualties in this force, in Hamilton's and Hunter's will be reported as soon as possible.

"Captain Miller, who was taken prisoner near Thabanchu, has been sent to Rundle's camp by the enemy with a severe wound in the abdomen.

"Brabant reports that one sergeant and three men were captured on May 2 while on patrol, and that one of them, who had been brutally ill-treated and left for dead by the Boers, was found the following day.

Lieut. Lilly Wounded. "Lieut. Lilly, Victoria Mounted Rifles, reported missing, was found at Brandfort dangerously wounded and has been most carefully attended by the Netherlands ambulance.

TERRIBLY HOT ENCOUNTER. How Gen. Hutton's Gallant Maxims Forced the Boers to Leave the River Bed. Vet River, Sunday, May 6.—Yesterday the British, after a long march, encountered the Boers holding the river at 1 o'clock p.m. The British soon had two batteries in action and later they added two naval 50-pounders; two 4.7 and 5.4-inch siege guns.

The Boers appear to be fighting with much less spirit. It is reported that they are commanded by Gen. Lucas Meyer. The bridge over the Vet River is completely destroyed.

Explosives Found. The British discovered yesterday at every hundred yards along the railroad concealed small packets of high explosives. The Boers had destroyed three bridges over spruits between here and Brandfort, but in every case it was possible to make a detour.

Boers Lost Their Spirit. Gen. Hutton, Saturday, May 6.—Yesterday the British discovered yesterday at every hundred yards along the railroad concealed small packets of high explosives. The Boers had destroyed three bridges over spruits between here and Brandfort, but in every case it was possible to make a detour.

Boers at Warrenton Attacked. Paget's Brigade Fought From 9 a.m. Till 5 p.m. in Close Quarters—Boers Retreated.

Warrenton, Sunday, May 6.—Yesterday General Barton drove from 2000 to 3000 Boers from hilly positions at Rooiband, where they awaited them. They retreated after stiff fighting, leaving a number of dead on the field. The British casualties were slight.

Gen. Barton is still pursuing. Windsorton and Klipdam have been evacuated.

Attacking Boer Position. Gen. Paget's Brigade is attacking the Boer position at Warrenton.

The engagement yesterday was severe and lasted from 9 in the morning until 5 in the afternoon. Most of the British infantry were obliged to engage the Boers at close quarters and the Boers only retired when their retreat was nearly cut off.

British Lost 5 Killed, 25 Wounded. The British took a batch of prisoners, including the Swedish ambulance, which they allowed to return.

Boers Left 13 Dead. To-day Gen. Paget made a strong demonstration against the Boer position east of the bridge, thereby preventing Boer reinforcements going to assist in checking Gen. Barton's advance.

Rundle Pursuing the Boers. Thabanchu, Saturday, May 5.—General Rundle, who has been pursuing the Boers with the 17th Brigade, two batteries and contingents of the Yeomanry and mounted infantry, succeeded in reaching them with his artillery and forced them to leave their positions. The Yeomanry are making a long detour in pursuit. The result is not yet known here.

Boers are losing heart. Vain Effort to Silence the British New Gun at Warrenton on Saturday.

Warrenton, May 5.—The Boers to-day vainly attempted to reach the British new gun with their artillery, but some of the shells from the big gun effectually silenced them.

Native report that the Boers are admitting Christians, many of them admitting that the situation is hopeless, and apparently are trekking from Klipdam and Windsorton westward.

The Vaal River Crossed. Evening's the Vaal River has been successfully crossed at Windsorton by Barton's Brigade, with whom is General Hunter, commanding the division.

The Boers have evacuated Windsorton and Klipdam. They are trekking northward and are fighting for all they are worth. Barton is hanging on to their rear and shelling them vigorously. Judging

A DETERMINED ATTACK ON THE BRITISH FORCE AT COOMASSIE

Gold Coast Colony Trouble Has Changed for the Worse—Rebel Force of 10,000 Besieging the Garrison in the Fort.

London, May 6.—The Colonial Office has received the following despatch from Sir Frederick Mitchell Hodgson, Governor and Commander-in-Chief of the Gold Coast Colony, dated Coomassie, April 27: "The situation, I regret to inform you, has changed for the worse. On April 23, a force was sent to clear the rebel forces to the eastward. Four members of the constabulary were killed and a large number of the rebels were killed or wounded.

"On April 25 the Ashantees surrounded the town in great force, probably 10,000, and made a determined attack. The Hausas were obliged to evacuate the cantonment and to concentrate around the fort. The engagement lasted four hours. Twenty of our native allies and two Hausas were killed.

"The present occupants of the fort number 358, inclusive of 18 Europeans, six of whom are missionaries. It is necessary that further reinforcements be sent to the Gold Coast."

THE BESIEGERS ROUTED. A Later Despatch From Governor Hodgson Shows the Position Has Improved. London, May 6.—Sir Frederick Hodgson, under date of April 30, telegraphed: "Yesterday a serious attack was made on

HEAD-TO-HEAD CONTACT TO SAVE LIFE BY DEPUTY CHIEF OF POLICE

Sensational Blaze on West Queen Street Late on Sunday Afternoon—Inmates Upstairs Had Been Cut Off by Flames.

The Deputy Chief Searches the Burning Building and Rescues an Aged Woman and Her Grandchild From a Horrible Death.

By prompt action, and at great risk to their own lives, Deputy Chief Noble and Fireman William Davidson of the Westland-street section last evening rescued an aged woman and a little child in an unprecedented condition from a building in which a fire was raging. The fire occurred about 5 o'clock in a three-story brick building at 781 West Queen-street, occupied by N. H. Billings, dealer in tents and tarpaulins.

It was discovered first by Mr. Billings, who was conversing with his wife and two children in the dining room, which is situated on the first floor.

Stairway Cut Off. He seized his children, and, followed by his wife, they ran to the stairway, and, finding escape by this way cut off by the flames, they hurried to the windows, frightened and panic-stricken, they called for help, and immediately a large crowd gathered in front of the store. With great presence of mind, Mr. Billings then dropped his wife and two children and rushed to the outside of the store, where he was standing on the sidewalk.

Others in the Burning Building. By this time Mr. Billings was almost exhausted, and it was only with the greatest difficulty that he was able to crawl out of the window himself. On reaching the sidewalk he told the firemen, who had arrived in the meantime, that there was an aged woman and child still in the building. Mr. P. J. Mulneen, proprietor of the Claremont House, saw the woman come to the window on the top flat in the rear, and notified the firemen.

Bravery of Noble. A ladder was hurriedly put up to the opening, and Deputy Chief Noble was the first to go up, followed by Fireman William Davidson. The deputy went thru the smoke and flames, and found the woman lying on the floor. He picked her up and handed her to Davidson, who carried her safely down the ladder. Some persons in the crowd then shouted that there was a boy in one of the rooms, and the deputy returned to the burning building.

Found the Boy Alive. After a search, which lasted several minutes, Deputy Chief Noble found the boy, more dead than alive, lying on the end of a bed. He handed him out to Fireman Davidson on the ladder, and at the same time shouted for someone to go for a physician. The woman and child, who had such narrow escapes from death, were Mrs. Deacon and Fred Billings, mother-in-law and son, respectively, of Mr. Billings.

Both Sons Revived. Once out into the open air, and with the assistance of Dr. Watson of Euclid-avenue, they soon revived, and were carried into the homes of neighbors.

The fire completely destroyed the contents of the building, and the premises were badly scorched. The building is owned by E. E. Henry, great-grandfather of the late Sir Wilfrid Laurier. The loss, which is placed at \$2000, is fully covered by insurance.

Deputy Chief Noble and Fireman Davidson were cheered by the onlookers for their bravery, and the credit they received was well deserved.

SIR WILFRID MAY MAKE A TEST OF THE FEELING IN MANITOBA

On His Settlement of the School Question There—It is Said That He Will Run Against Mr. LaRiviere in Provencher.

Montreal, May 6.—(Special.)—It is understood here to-day that Mr. LaRiviere, M.P. for Provencher, Manitoba, has received important news from friends in his constituency. It is said that Sir Wilfrid Laurier, while running in his old division of Quebec, will also accept the Liberal candidature in the County of Provencher against Mr. LaRiviere. Some of the Conservative newspapers have been declaring that the Manitoba school question has not been settled to the satisfaction of the Catholic minority, and it is now said that the Prime Minister will take this occasion of testing the matter once and for all. If Sir Wilfrid should be able to secure election in the

most pronounced French and Catholic county in the Province of Manitoba, he will be truly in a position to say that the Liberal Government has settled the school question wisely and well, and that the settlement has been approved of by the County of Provencher.

On the other hand, Mr. LaRiviere, the present member for the division, who was elected by a very large majority at the last election, declares that he is by no means alarmed even if so respectable an antagonist as Sir Wilfrid Laurier should attempt to contest the seat in question. The present member had a majority of several hundreds in June, 1898, and he believes he can easily defeat the Prime Minister.

NEW ZEALAND SENDS \$25,000. Sister O'Halloran Did Not Forget the Ottawa-Hull Fire Sufferers, Who Will Be Rich.

Ottawa, May 6.—(Special.)—The Premier of New Zealand has called to Sir Wilfrid Laurier that the New Zealand Government has voted \$25,000 to the Ottawa-Hull fire sufferers. The generosity of Canada's progressive little sister colony is very favorably commented on here.

Will Mr. Starr Get the Call? Rev. J. E. Starr of Stansfeld, Quebec, who has been mentioned as an antagonist to Rev. Morgan Wood, pastor of Bond-street Congregational Church, preached in that church at both services yesterday from the texts, I Cor., ii, 9, and Isaiah lvi, 13. His sermons were applauded by the large congregations present, which included many of Rev. Mr. Starr's flock when he was pastor of Wesley-street Methodist Church. A prominent member of the church, after the evening service, said that Rev. Mr. Starr would in all probability receive the call. Rev. Dr. Moffat of Buffalo will occupy the pulpit next Sunday.

The Popular Sailor. There never has been in the history of fashion such a favorite as that article, the sailor suit. It came in some years back and still retains its popularity. The style, which is now in vogue, is the sailor suit, which is made of blue serge, and is very comfortable and easy to wear. It is very popular among the young men of the city, and is also worn by many of the older men.

Liberal Convention for Selkirk. A Liberal convention is called for Selkirk on May 22, at Stonewall. Mr. Macdonald, M.L.A., is announced as president, and it is reported will seek re-election. The constituency is all torn up by division among the Liberals. Mr. W. G. Clegh, ex-M.L.A., and who has an influential following, has been looked to generally as the leader of the anti-Macdonald faction.

Two More Smallpox Victims Dead. There have been two more deaths from smallpox at quarantine, Deering and Newell Lynch. The others are reported dead. The Local Legislature meets to-morrow.

MORE GREAT PULP AND PAPER MILLS ARE DESTROYED BY FIRE

Big Plant of the Laurentide Company at Grande Mere, Que., Is a Total Wreck—Assistance From Montreal—Loss \$400,000.

Grande Mere, Que., May 6.—A big fire is raging here at the Laurentide Paper and Pulp Mills. The pulp mills, saw mill and pump mills are destroyed, also the head gears. Assistance has been asked from Quebec, in case it is necessary. At 11 o'clock the fire was under control.

Started at 8 o'clock. Fire broke out here at about 8 o'clock this evening in the large pulp and saw mills of the Laurentide Pulp Mills Company. In a short time the immense structures were a total wreck, involving a loss of about \$400,000. The water supply was not sufficient to be of any avail.

Assistance was sent from Montreal, and a special train with fire engines was immediately despatched, but had not arrived at midnight.

At that hour the fire was well under control, and unless the wind changes, will not spread. This conflagration will be a bad blow to Grande Mere, both to a large number of employes and to the company.

Case of Inconvenience. Owing to the fire in Hull, which destroyed the Eddy Company's establishment, the Laurentide Company undertook to supply a number of newspapers, and this will bring about a great inconvenience to the papers depending on this source for their supply. Insurance cannot be stated to-night.

Enigmas From Montreal. Montreal, May 6.—(Special.)—Word was received here to-night that the pulp and paper mills at Grande Mere had caught fire, and assistance was asked for. A special train at once left with two fire engines and 10 men, and up to midnight no further details had been received.

Husband on Strike—Wife Dead. Mrs. Varley, wife of Mr. John E. Varley, one of the striking teamsters, died suddenly on Saturday night at her late residence, 12 Mulnd-street. Early in the day Mrs. Varley was absent from home and on her return she was found in her usual good health. On being taken ill, a physician was summoned, but despite his treatment, she died three hours later. Mrs. Varley was 35 years of age, and, besides a husband, leaves six children, the youngest will take place this afternoon.
