Manufactured in Canada by The Berliner Gram-o-phone Co., Of Canada, Limited, Montreal. Emanuel Blout, General Manager.

DOING HIS BEST TO CLEAN STREETS

Commissioner has Several Excuses for Present Dust Nuisance.

The street commissioner is fully alive to the dusty and dirty condition of the streets, and says he is doing all in his power to mitigate the evil. All of his watering carts are out, as well as a force of "white-wings." Summer has arrived so quickly on the heels of winter that the department has been unable to keep up with the work.

It has also been held back by the inaction of the board of control in delaying the vote of the money necessary for initiating the system of street flushing. In addition to this, it has been difficult and almost impossible to procure the men and carts required, as private parties are paying 50 cents per hour, while the limit on the city is 40 cents.

Mr. Jones, however, expects to have his entire staff of men at work on Monday next, when there will be about 60 in the "white-wings" brigade. He is now having constructed the street sweepers, and on Wednesday night will begin the work of flushing the streets, and following this up with the brooms.

LEAPED TO DEATH.

First Suicide From New Williamsburg Bridge Recorded.

New York, May 5.—The first suicide from the new Williamsburg bridge was recorded early to-day, when an unknown woman leaped to death in the river, 135 feet below.

When she neared the centre of the bridge she stopped and for a moment stood looking down at the water below. Two policemen, driving her purpose, ran toward her, but she stepped from the roadway to the open ironwork, walked a few feet along the narrow girder, and then, with a scream, jumped.

WILL STAND ALOOF.

London, May 5.—Premier Balfour declines to commit the government to any official part in the proposed international cotton congress at Zurich, Switzerland. In a letter on the subject he points out that little assistance can be expected from other nations in the efforts to increase the supply of raw material.

ADDING TO FIGHTING SHIPS.

Britain is Building 12 Battleships and 17 Armored Cruisers.

London, May 5.—A parliamentary return issued this morning giving the number of warships built and building of the seven strongest navies in the world, credits Russia with the largest completed submarine boat. This is of 175 tons register and was launched in 1901. Russia is credited, however, with fourteen others in course of construction, but a foot note points out that it is uncertain whether all of these have actually been commenced.

The United States comes first in battleships building, with thirteen in course of construction; followed by Great Britain, with twelve. Great Britain is constructing 11 armored cruisers, against 11 for the United States, the third in order being France with nine armored cruisers building.

PAPER MAKERS STRIKE.

Merritt, May 5.—All the men of the Rindor Paper Mills went out on strike at noon yesterday.

CARVING OUT PROVINCES

Continued From Page 1.

of the state secrets of the west, the suddenness with which the dispute has been dropped by Manitoba and other sections. The provincial authorities unquestionably wanted that fertile section of the adjoining territories with its virile people and growing importance. But the truth was that neither the Dominion government officials, territorial statesmen, nor provincial authorities, cared to risk re-opening the school question, so dangerous to all political dynasties alike. Manitoba has but one system of schools—the territories have separate schools. If a compromise was taken off the territories it meant a rearrangement of the school systems, and the opening of the old political wounds, still too fresh in the minds of Canadian statesmen to be lightly discussed or carelessly resurrected. Those "in the know" do not hesitate to attribute to this sentiment the absence of all further intrigue in the direction of dismembering the territories.

Autonomy for the Territories.

It is commonly said in the territories that no public man would risk the resentment of the people of the section by advocating the surrendering of any of the 400,000 square miles comprising the territories. That is the general feeling of the section. That autonomy is desired and must come within a very brief period is the conviction of the west. While there is some dispute as to the economic value of making two provinces of the three territories, when autonomy comes there is no difference of opinion as to the utility of keeping this part of Canada away from Manitoba. Premier Haultain is committed to this policy. He points to Quebec, with 347,000 square miles and British Columbia with 383,000 square miles as reasons why the 400,000 square miles embraced in the territories are not to be regarded as a bar to their consolidation. Then, he declares, the territories are quite desirable that the two sections—farming and ranching—he kept under one provincial government. He asserts that this will promote diversified farming—the hope of the west. He did not think the west required a province composed of one big wheat field, single coal field or a great cattle range. In 1901 the population of the territories was 15,000 and now it is 250,000, while Premier Haultain declares as his estimate that within the next five years the population will reach 600,000. This would mean a marvelous growth, yet from the way the stream is pouring into the country the forecast does not seem to be too sanguine.

Further Reasons for Autonomy.

Another very strong argument for prompting the territories to urge that autonomy be granted is the desire for authority to construct and handle the transportation facilities of the country. That is a big issue, too, and the most thoughtful people of the district appear to think they cannot get these facilities as cheaply and as expeditiously united with Manitoba as if organized under one provincial government. This is another argument against splitting up the territories into two provinces, and it is one of the reasons that is being urged very effectively.

Then, too, Premier Haultain is on record as asserting that the territories have a better law than Manitoba. He is a class of citizens to whom the laws are better suited. This is regarded as a very strong argument in favor of the big agricultural province. The laws have been framed, he declares, with regard to the conditions existing in the territories. He said that they had been formed with the gradual growth of the territory, which was not true of those of Manitoba. Mr. Haultain especially instanced the municipal system of Manitoba, copied from the laws of the province, but not suited to men and measures in the new. He said there were a few municipalities established in the territories, but he looked upon them rather as exceptions than as indicating the real policy of the country. It is declared at Regina that if Manitoba required thirty years of provincial existence to reach her present stage of development, the territories should catch up and pass her with only ten or twelve years.

What the People of the Territories are a People used to self-government, and with whom there will be no experimenting. This is one of the arguments used to fortify the demand for autonomy.

Federal Government Reluctant.

Another element declares that the government at Ottawa does not wish to give the territories self-government until they have reached the stage of development which would justify the transfer of the territories to the Dominion government, but not that of the territories. Each year they have been making in at the rate of 25,000 to 30,000, but the revenue of the territories does not increase in accordance with the population. This is one of the big sources of complaint. The per capita allowance of 80 cents to a certain point is objected to by the west. It is the feeling that the revenue of the territories is not in accordance with the population. The per capita allowance of 80 cents to a certain point is objected to by the west. The Crown of Womanhood Is Motherhood.

every part of the country, assisted by the constant praise given it by women everywhere.

MOTHER OF THE FAMILY.

The anxious mother of the family often carries the whole burden of responsibility as far as the home medication of common ailments of the girls or boys is concerned. The cost of the doctor's visit is very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free of correspondence is held strictly confidential.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription have not only fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask is a fair and reasonable trial of their means of cure.

"You may use my name in recommending Dr. Pierce's valuable medicine, Dr. Pierce's Favorite Prescription," writes Mrs. Jno. Henderson, of Bobcaygeon, Victoria Co., Ontario. At the time I commenced to use your medicine I was very debilitated, in fact, scarcely able to move about. After I had taken four bottles, felt like another person.

"There is a Mrs. William P. of Bobcaygeon, who has also found your medicine very valuable for female trouble, having taken it a few months before confinement.

"Words cannot tell what I suffered for thirteen years with uterine trouble and dragging-down pains through my hips and back," writes Mrs. John Dickson, of Grenfell, Assiniboia Dist., N. W. Ter. "I cannot describe the misery it was to be on my feet long at a time. I could not sleep nor eat. Often I wished to die. Then I saw Dr. Pierce's medicines advertised and thought I would try them. Had not taken one bottle till I was feeling well. After I had taken five bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' I was like a new woman. Could eat and sleep and do all my own work. I would not have been able to do so without the weakness to give Dr. Pierce's Favorite Prescription a fair trial, for I know the benefit she will receive."

WHAT MARRIED WOMEN

D. SHANAHAN DEAD.

Brantford, May 5.—Daniel Shanahan is dead, after a long illness. The deceased was born in County Clare, Ireland, and came to Brantford in 1852. He was a Roman Catholic, and a staunch reformer. His wife preceded him ten years. He leaves six children.

Bubonic at Johannesburg.

Johannesburg, May 5.—The bubonic plague has reappeared in the heart of the town. Two cases have been detected in the market, which has been ordered closed.

Shot Dead by Police.

Sheridan, Tex., May 5.—John Stevenson, proprietor of the "Frisco Club" of this city, and M. E. White, an employee, were killed in a shooting affray yesterday with a deputy sheriff and two policemen.

Jersey City, N. J., May 5.—Frank Higgins on a charge of breaking and entering.

Mrs. Flynn keeps a boarding house in Jersey City. She was arrested yesterday morning at 6 o'clock Mrs. Flynn was aroused from her slumbers by a crash of glass. With a small pistol she went down to the doctor's apartment when she almost fell over an urchin crouched in a corner. Grabbing him by the collar, she shook him, crying, "What are you doing here? Get out of my house. Two cases have been detected in the market, which has been ordered closed."

WOLF COMES OF GOOD PARENTS AND A GOOD HOME.

When young Wolf appeared before the judge this morning the judge asked him if he had not been in court before. With a smile the youth replied that he had been there six times and expects to call again; as he was only 8 years old and could not be sent to a reform school until he was 10 he would continue stealing and playing pranks until his two years' term was up. He was held to appear before the grand jury.
