No Cooking-Ready to East

Eat this crisp, wholesome malted whole-wheat food in the morning before you begin your day's work. It is appetizing, nourishing and easy to digest because the starch of the cooked wheat has been converted, by pure malt extract, into maltose, or malt sugar. Maltose is so nutritious and strengthening and so easy to digest that physicians everywhere recommend it. Malta-Vita is rich in maltose. It starts the day off just right, giving the tingle of new life to sluggish blood and filling the body and mind with energy. There is nothing else quite so good to eat as Malta-Vita with milk, cream or fresh fruit.

DEATH OF MISS TUCKETT

A Brilliant Graduate of the University of Toronto Passes Away.

St. Marys, April 4.-Lamentably sad was the untimely death of Miss E. Carroll Tuckett, B.A., one of the most brilliant of the recent graduates of the University of Toronto. During the absence of her parents, who had gone to Jamaica for the winter, and were in imminent peril from the terrific earthquake at Kingston, their daughter was taken ill with cerebro-spinal meningitis, and passed away before they were able to reach home. Miss Tuckett's lege she sustained an injury in a street car accident, from which she probably never recovered, which, however, brought her the good fortune of two trips across the Atlantic, and into contact with much, especially in London and Paris, that could year. not but be fruitful of the best results to one of her ardent temperament, with its keen relish of all that pertained to the course of study in which she was engaged, and which she pursued with such success as to win first place in the list of honors in the Romance departmentment of modern languages at graduation in 1904.

Col. Hughes Approves of Ross Rifle and Military Expenditure.

Ottawa, April 3 .- During the evening

session of the House today the militie estimates were under discussion. Col. Hughes, replying to Dr. Sproule, held that Canada was getting off lightly with an expenditure of two-thirds of a dollar when the United States spent \$5 per head for military purposes. Sir Frederick Borden announced that 40,000 men would be drilled this

Dr. Reid observed that the Minister of Militia might not be in Canada when these estimates were being expended. Sir Frederick Borden replied that to relieve the honorable member's mind he would say that so far as he knew he would likely be in the country. He had not been offered the high commissionership, and only knew what he saw in the papers. The high commissionership was not vacant, and he hoped Lord Strathcona would long continue to fill the position.
