LIVE STOCK MARKET

The run of cattle out at the Unio with the ordinary Tuesday receipts. The market was quiet, but steady, with yesterday's figures with the exception that there were no high-class loads on sale, and the big figures of that day were not touched. In the neighborhood of 300 cattles were left over from Monday's selling, and these, added to the fresh arrivals, made up quito a fairly representative run.

Stockers and feeders continue in good demand and fair supply, and it looks as tho steady prices will be maintained. Once the farmers get thru with the record crop they are now trying under great drawbacks to safely garner in and get a chance to look around, a strong demand for good young stockers and feeders of a good breeder character is likely to develop.
