NEW ORLEANS BABY TRAIN.

The New Orleans correspondent of the New York Tribune states that a scene, unique in its character, was witnessed at the railway station at New Orleans yesterday. As the result of an announcement in the papers, fully 200 women, the majority of them well dressed and apparently well off, assembled to meet a train conveying 50 New York orphan children to the south for adoption. As soon as the train arrived the women began an eager inspection of the children, with the result that foster-parents were speedily found for 25 of them. The remaining 25 were subsequently sent on to Kansas City, where it is hoped the whole of them will be adopted.

JOHNSON MAKES SPEECH ON FLIGHT

San Francisco, June 4.—The crowd enjoyed Jack Johnson's speech following his boxing exhibition at Dreamland last night. Though he was frequently interrupted by cat calls from the gallery the majority of those present deemed the treatment and the boxer's talk was liberally applauded.

"For the benefit of the gentlemen present," he began in his most impressive style, "I will indulge in a few remarks regarding the heavyweight battle which will take place in San Francisco on the fourth of July."

Here he paused, waiting patiently for the cheering in the gallery to subside. "And," he resumed, "for the benefit of the well educated gentlemen in the gallery I do hope that when the people from all parts of the world come here, they will see."

"A funeral," floated down a voice from upstairs. "Will see two men well trained," continued Johnson, apparently unruffled, "both in the best condition and a fight in which the best man wins."

The close of his speech brought cheers from all parts of the house. As he was the case in all of his sparing work during his training, Johnson showed to advantage in his bouts last night in his defensive tactics. When he took on Marty Curtis he assumed the aggressive. Experts regarded his work as fast.

The Minister of Public Works

To the Editor of Time-Star:
Sir,—The continued abuse by the lesser lights of the Conservative opposition of the Hon. Mr. Poirer is a good example of much as no good man ever reaches a prominent position without a constant howl from those of lesser merit. We content in fairness to him who holds the most responsible and arduous office in the gift of parliament that in the eyes of the public he is the most strenuous of all the different ministers' positions, and therefore the most deserving of the public's respect.

WOMAN NOT GUILTY; DOCTOR'S TRIAL NOW

St. Louis, June 4.—Mrs. Dora Elizabeth Doxey was found not guilty last night by the jury which heard the evidence against her on a charge of murdering William J. Erder with arsenic.

In 1895 she was married to Robert L. Downing of Joy, Ill. Dr. Loren B. Doxey was the family physician and attended her for many years. She was married to Doxey in Burlington, Ia., in August 1906 after Downing had divorced her.

Mrs. Doxey came to St. Louis in April 1909 at the time she was alleged to have married Erder, who died on July 10, 1909. Miss Kate Erder, a sister, caused her arrest in Columbus, Nebraska on November 14 on the charge of poisoning Erder. Grand jury indictments were returned December 17, charging Dr. Doxey and Mrs. Doxey with murder in the first degree. Mrs. Doxey denied giving Erder arsenic and said she was not married to him. She alleged that Dr. Doxey made her a morphine eater, thus accounting for her conduct.

The charges against Dr. Loren B. Doxey, who was charged jointly with his wife with the murder of Erder, will come up for trial within the next two weeks.

HILL NOT WORRIED BY SITUATION

New York, June 4.—The week's stock market was dominated by the government's injunction proceedings against the western trunk line rate increases. The fact that speculative buying of stock for a month had been based on the expected rate increases, aggravated the effect of the incident. Prices fell sharply to the lowest level of the year. The rapidity of decline invited to some new demand and rebounding prices, but the later break was of even greater violence.

New York, June 4.—James J. Hill's optimism is undiminished even in the face of the government's action to restrain railroad rates from advancing freight rates and the Wall Street situation.

"The business of the United States is too big for a little matter like this to disturb," was his response to a question regarding the railroad situation. "The present uneasiness in Wall Street is more a matter of nerves than of substance," he continued.

"There is no cause for alarm on the part of anybody. I don't think it is going to be much of a show. The only thing to worry the railroads just now is how to handle the enormous volume of business at the present time, far greater than extensions or better equipment, is increasing the facilities for handling the vast volume of business offered."

"So far as cancelling orders for new equipment is concerned, we are not cancelling any orders and do not place much reliance in reports that other roads are cancelling their orders."

"We have issued no orders to lay off men or to curtail our expense."
