PRICES IRREGULAR
IN WALL ST. TODAY

Large Volume of Week-end
Profit-Taking Develops,
However.

New York, Nov. 15.—Stock prices moved irregularly higher at the opening of today's market despite a rather large volume of week-end profit taking. The American International Corporation and American International Corporation and American International Corporation advanced fractionally to new high levels for the year. American Water Works advanced 1/4 point and International Harvester 1/8, the latter touching a new top. United States Steel, American Can and Baldwin opened unchanged and Allied Chemical dropped a point.

Montreal, Nov. 15.—Price changes were of little interest at the opening of the local stock exchange today, an advance of five points to 140 by Ogilvie Flour being the only feature. This issue appeared, however, in small lots. The most attractive stock was Montreal Power, which declined three-quarters to 12 1/4. Brazilian and Consolidated Smelters were both equally active and were unchanged at 6 1/2 and 47 respectively. Canada Cottons was the strong spot of the early trading, opening up 1 1/2 at 107 1/2, and then advancing still more to 107 3/4. There were no other transactions worth mentioning.

Cable Transfers.
Montreal, Nov. 15.—Cable transfers, 4 1/2.

NEW YORK MARKET.

Stocks to 12 noon	Open	High	Low	Close
Atchafalca	111	111 1/2	111	111 1/2
