LOCAL NEWS

POLICE COURT
One man charged with drunkenness was before the magistrate this morning and was fined the usual amount.

BAKERS WIN.
The Bakers defeated a baseball nine from the Canadian Express Company on Rockwood diamond last evening, 15 to 9. A feature of the game was a three base hit by William Blair. Roy and Richard Stachowicz performed for the winners, and Ryan for the losers.

FOR EXHIBITION
It was said at military headquarters this morning that some of the military wagons stored in the agricultural buildings at the exhibition grounds were being removed to Fort Howe to make room for preparations for the exhibition.

ST. PETER'S VS. MONCTON.
Local baseball fans will be interested to learn that an all-Moncton team will be here Saturday to play two games with St. Peter's, one in the afternoon at 2:45 and the other in the evening. The visiting players will be chosen from all of the teams in Moncton and have been practicing together in hopes of defeating the fast local team.

GAINS THIS WEEK.
For the first time in some months the St. John bank clearings this week were a gain over the previous year. For the week ended today they were \$3,028,101, last year, \$2,143,446; in 1919, \$3,101,289. Clearings in Halifax this week were less than in St. John. The figures are \$3,473,273; Moncton, \$1,000,744.

C. P. R. CHANGE.
Edward Bowie, divisional master mechanic of the C. P. R. with headquarters at Brownville Junction, has been transferred to Schreiber, Ontario, and will continue as divisional master mechanic there. J. C. Allen, who was divisional master mechanic at Schreiber, arrived in the city this morning to succeed Mr. Bowie. He will leave this evening for his new field of labor.

THE JUNIORS.
The Young Wolves defeated the Young Finches in a seven-inning game on the Brussels street diamond this morning, score 4 to 0. The batteries were: Winners, Kelly and Murray; losers, Burgess and Donaldson. The Young Wolves claim eleven games won and only one lost. The air was heavy with smoke tonight, as they have another game arranged.

TONGUES OF FLAME.
The forest fires produced one phenomenon yesterday afternoon on Grand Bay such as those who witnessed it from the deck of the steamer Ocoee will probably never see again. All voyagers on a sunny day have been delighted to gaze along the path of the sun upon the rippled surface of the river and see what appeared to be numerous flashing diamonds in constant motion. Yesterday afternoon the sun shone through a heavy veil of smoke, which had the effect of turning the reflection to flame; and what the observer seemed to see were thousands of tiny tongues of lambent flame, as if the whole surface of the river in the sun's path were on fire. The effect was wonderful beyond description. Soon, however, the smoke veiled deepened and the light became a dull brown. The air was heavy with smoke all along the Reach, and the view ahead greatly obscured.

TRY TO KEEP THE INDUSTRIAL LEAGUE ALIVE

Readjustment at Meeting Last Night—Much Depends on Better Support When the Hat Goes Round.

A meeting of the Industrial Baseball League was held last evening in the office of the Nashua-Pulp & Paper Co. and some of the problems of the league were thoroughly discussed. Representatives of all four teams were present. On account of difficulty in reaching the ball grounds because of the present street car troubles and Douglas Avenue paving, the McAvity team has decided to withdraw from the league and by a special arrangement has been given permission to amalgamate with T. S. Simms & Co. The Simms team is going strong this year and with the addition of four or five McAvity players should give a good account of themselves. All industrial teams are finding it hard this year to hold a team together on account of some of the mills and factories represented, being idle and it is with great difficulty that the league is being continued.

The present League Standing will be continued as follows:
Won Lost P.C.
Nashua P & P Co. 3 4 429
Stetson, Cutler & Co. 7 1 875
T. S. Simms & Co. 2 3 400
The following schedule was adopted:
July 14—Simms & Nashua.
July 15—Simms & S. C. & Co.
July 18—S. C. & Co. & Nashua.
July 20—S. C. & Co. & Simms.
July 22—Simms & Nashua.
July 25—S. C. & Co. & Nashua.
July 27—Simms & Nashua.
July 29—Simms & S. C. & Co.
Aug. 1—S. C. & Co. & Nashua.
Aug. 3—S. C. & Co. & Simms.
An endeavor will be made to play out this schedule but it was decided that if there was not a marked improvement in the collections during the next three games, the league would be discontinued. The treasurer reported last night that in ten games played to date the magnificent sum of \$20 had been collected from an average attendance of 200 spectators. It is pointed out that baseball can not be continued under these conditions when the expenses per game are at least \$6.00 including balls and scorers only and there are other expenses including bats and upkeep of grounds. Yet there are "fans" who abuse the management because extra balls are not forthcoming when perhaps three or four have been lost.

The largest collection this season is in the vicinity of \$4 while last year collections averaged \$10, and went as high as \$40, and it is only the balance carried forward from last year that has made playing to date possible. It is to be hoped that the league may continue as Nashua Park, where all games are played, was put in shape at considerable expense and is available only for industrial baseball.

MATTER OF THE ONE-MAN CARS

Letter from W. F. Hatheway Read at Council Meeting Today.

Many Tenders for Newman Brook Arch—Claim for Damages Against City by Automobile Owner—Status of Public Tax is Questioned and Investigation will be Made.

Objection to the operation of the one-man cars which are now being used by the New Brunswick Power Co., was expressed in a letter to the city council from W. F. Hatheway, one of the members of the board of conciliation which investigated the dispute between the power company and its employees about three weeks ago. The letter was read at a committee meeting of the council today.

Commissioner Thornton, of the safety department, announced that he was having an examination of one of the cars in operation made this morning.

The mayor presented a letter from Percy J. Steel, regarding a previous complaint that water flowed across his property at the corner of Main and Elm streets.

Commissioner Frink said the trouble could be remedied by the installation of a couple of catch basins.

Commissioner Jones promised to investigate the matter.

Tenders for the erection of a concrete arch over Newman Brook were opened and referred to Commissioner Jones and the city engineer for report. They were as follows (price a cubic yard):

T. A. Linton and Peter Saabo	\$14.90
Jas. E. Kane	23.50
J. H. Burley	23.50
Geo. M. Lawson	22.00
B. Mooney & Sons	24.80
N. J. Lahood & Co.	24.45
John Food & Sons	12.50
F. L. Boone and J. S. McDonald	22.00

The One-Man Car.
A letter from W. F. Hatheway was read protesting against the operation of the one-man car now in use in the city. He referred to the report of the conciliation board which recommended that before the cars were operated they be fitted with automatic brakes.

Commissioner Thornton reported that he was investigating the matter and had arranged for an inspection this afternoon with the city engineer and city electrician.

A request from the Canada Nail Co. to allow the charge for lease to remain at \$300, instead of the increased amount of \$700 was further considered.

Commissioner Bullock asked to have the matter laid over until he could look into the details of the transaction.

The whole matter was referred to Mr. Bullock's report.

R. A. Davidson wrote placing a claim for damages done to a car belonging to Martin McDonald of Penfield by running into a rut in Douglas avenue, breaking an axle, radius rod and windshield.

The claim was for \$45. It was referred to Commissioner Frink.

C. A. Emery, secretary of the board of assessors, recommended the granting of contract to A. Milne Fraser for the making of stencils for the women's franchise list. He tendered for \$275, the lowest. The matter was referred to the mayor for report.

Commissioner Thornton said that some of the vehicles being used as taxis in the city were not safe for public travel. He said that now that the number was getting large something should be done in the matter.

Commissioner Frink said at one time the horse drawn vehicles were periodically drawn up in Canterbury street and the carriages examined by the mayor and the horses by a veterinarian. This custom had gone into disuse.

The mayor said he and the commissioner of safety would look into the matter. He said no more licenses would be issued until some means of inspection was arranged.

Regarding the licensed taxis, Commissioner Thornton recommended the reservation of a portion of the north side of King Square for public cars only.

The mayor, in whose jurisdiction this matter comes, said he would do what was necessary.

Commissioner Jones referred to people building where there were no sewerage facilities and moved that the building inspector be requested to issue a permit where there were no underground facilities for sewerage, before first referring the matter to the city council. Carried.

**NEW MANAGER
OF LOCAL OFFICE**
Capt. Victor Benson Coming to McDougall & Cowan Here.

Montreal, July 14—Captain Victor Benson will leave Montreal at the end of the month to assume the management of McDougall and Cowan's, St. John office. Captain Benson joined the McDougall and Cowan staff in 1908 and, except for the duration of the war, has been with that firm ever since.

The foregoing despatch from Montreal was confirmed at the local office of McDougall and Cowan this morning, but instead of coming at the last of the month Captain Benson will leave Montreal on July 17 and take charge immediately on his arrival here. He saw service at the front with the first brigade, Canadian Field Artillery. He came here in the capacity of manager succeeding S. Allan Thomas who leaves McDougall and Cowan's to enter the business in association with Donald W. Armstrong and T. M. Bell.

SEE THE MODEL KITCHEN NOW SHOWING IN OUR WINDOW

If grandma only had the modern kitchen equipment her granddaughter has today she'd truly think life well worth living.

What with kitchen cabinets and washing machines, gas stoves and vacuum cleaners—wouldn't seem almost too good to be true.

See the modern appliances now in our window. The EUREKA VACUUM CLEANER, the most powerful built; the A. B. C. WASHER (which by the way is in operation in window) treating the soiled clothes to warm clean suds; and the time, labor and step-saving KITCHEN CABINET—all are there for your inspection.

You'll enjoy seeing the outfit, and you're only too welcome to step in for any information we can give you.
