SOME THINK PEAK OF TROUBLE REACHED

In its summary of the iron, steel and machinery markets for the week ended Jan. 6, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

"The year 1921 starts off quiet in the machine tool, iron and steel markets. Dealers are not expecting a renewal of buying at once, but a number of them will go as far as saying that conditions are not getting any worse, and from this they reason that the peak of the trouble has been reached. Cancellations have been asked for in a number of instances, but the majority of these have not been granted."

One Canadian mill has started one of its bar mills in operation this week. This will roll largely for stock. Buffalo dealers are in here making a strong bid for bar iron material just now, and the Canadian mill is called upon to meet this competition. Sheets are selling in fairly large quantities, but the best business just now is being done in tubes.

The Corporation mills continue to roll steel at about 92 per cent. of their capacity, while many of the independents are idle. Pittsburgh reports have many guesses regarding the matter of wages, the carrying most weight being that wages might be cut right now by some of the independents were they not afraid that a reduction in wages would lead to a reduction in the part of the buyers for cheaper steel.

New York reports that machine tool makers are not buying yet in regard to their selling schedule for 1921. Makers probably realize that in the present temper of the market a reduction in price would not bring in any new business. Dealers in this district agree that this is the case, holding that when machine tools are wanted, they are bought almost regardless of any reduction in price.

The scrap metal trade continues in the slump. It has been there for many weeks now and little trade is being done. The largest yards persist in their attitude not to buy anything except enough to cover their contracts.

SHE REMEMBERED SERVANTS IN WILL

Dedham, Jan. 7.—The will of Mrs. Almina M. Simons, late of Wellfleet, allowed in the Norfolk probate court, disposed of \$255,000 in real estate and personal property.

Two old servants, Mary Callahan and Katie Connolly, are to receive \$100 for every year they have been in the Simons household. The former began in June, 1880, the latter in April, 1894.

The New England Peabody Home for Crippled Children is to receive \$500.

Thomas J. Kenny, trustee of the support of Joseph Wilder and his wife, Elizabeth, employed many years by the Simonses, also their funeral expenses.

The residue of the estate is in trust, one-half the income to be at the disposal of John Mason, a nephew, one-half at the disposal of his two children.

On the death of the children the principal is to maintain a home for aged women, yond 60 years of age, in Wellfleet.

The present homestead is to be maintained by the trustees for John Mason, if he desires, subsequently similarly for his children, and at their death to be utilized as the home for aged women.

Henry Menke, a coal miner in Kempton, Md., is believed to have set a record among coal diggers. For his labors during the month of November he received \$690.

TO RESUME WORK AT ANTIMONY MINE

Local stockholders in the North America Antimony Smelting Company, of Lake George, will be pleased to learn that at a meeting of the board of directors, plans were formulated for the resumption of operations at the mines.

Among those present were W. H. Irvine of Fredericton, president; D. Mullin, K.C., vice-president; W. P. Dixon, New York, treasurer; George S. Bedient, Danbury (Conn.) and J. W. Sanford, Irving, Brookline (Mass.). Mr. Bedient represents strong financial interests who have become identified with the company and seems much impressed with the proposition.

CROWS STEAL CATCH UNDER NOSES OF FISHERMEN

Winsted, Conn., Jan. 7.—Will it become necessary for men to carry firearms when they go fishing on Highland Lake, to protect themselves from a horde of crows? The large black birds, apparently half made from hunger, said an ice fisherman, hover over the ice fields and sweep down and steal fish lying on the ice.

Why They Applaud.

"You don't attach much importance to the applause an orator receives." "Not much," admitted Senator Sorghum. "There is bound to be applause. You can't expect an audience to sit still all evening and do absolutely nothing!"—Washington Star.
