Representative of British Merchants Sees Dominion Become Great Manufacturing Nation

#### REPLACE GERMAN MARKETS

Thinks Deminion Government, Manu facturers and Shipping Companies Should Enter Into Plan of Develop-

(Montreal Gazette.) Replacing the German markets with British and Canadian ones needs only take the necessary measures to accomplish it, according to the view of P. G. Donald, who arrived yesterday on the Lake Manitoba on a mission to the government and the manufacturing interests of this country to see if a scheme of co-operation on Empire lines cannot be developed by which Canadians will un-dertake to supply Great Britain with the enormous amount of manufacturing material which she has been accustomed to receive from Germany. Great Britain has in the past depended on Germany for this material, and now that Germany is invested by sea, and her trade completely demoralized by land, the syndicate of merchants which Mr. Donald directly represents believes that the was secured by making it in enormous quantities. In Germany they were enabled to develop this business chiefly by reason of government assistance, and afterwards they did not need it. In the United States, by dumping their products in the college of the same name. Doctor Ryan plans in the near future to return to St. John to re-establish himself in local practice.

WHERE MILLIONS

USE THE WANT

AD. WAY

The British army in France is described as "fit in every sense of the word, and its transportation intact." The fighting along the line of the German advance has been incessant and desperate. One officer said:—"The more you kill of them the more there are of them, but if we ever get them in the open, it's Good-night."

Belgium is organized purely for defense. Her army is 200,000 strong. The River Meuse, the largest tributary of the Rhine, is as wide and deep as the Thames. It flows through the centre of Liege, a city of some 500,000 inhabitants, surrounded by a ring of twelve forts, powerfully armed.

The Meuse divides Belgium into two parts. To the north is the fertile flat country, with its great and populous

A Boy Scout as, of course, you know, is supposed to do one good deed each day.

"What good deed did you perform today?" once asked a lady of a Liverpool Scout.

"O." said the young hero, "mother had only enough castor oil for one dose, so I let my sister take it!"

gold-headed umbrella.

The evening was pleasantly spent in games and dancing, and all agreed that the bride and groom of fifty years were still as young in heart on the day of their wedding. Mrs. Andrews was formerly Miss Emery, daughter of the late James Emery, of Moss Glen, and was married to Mr. Andrews by the late Rev. William Scovil. Mr. Andrews was a former ship builder in St. John, and is

The desire to own a Diamond is simply a call of nature. It is the most beautiful of all gems—a pure, unsullied, radiant beauty— and desire for the beautiful is a natural, human instinction.

But the appeal of the Diamond is stronger than simple love of the beautiful. The gem represents true intrinsic worth. It is a really valuable possession. Diamonds secured gold for many European travellers in the last few weeks when noth-ing else would.

The desire to own things of some desire—one that should

The Diamond combines beauty and value in an extremely practical form. It is an exquisite ornament and a prolitable investment — especially prolitable right now, for the Diamond prices are mounting daily now, but the Diamonds at Sharpe's are on sale at prices established before conditions responsible for the sudden rise
