TONIGHT'S MEETING.

This evening at the Seaman's Mission citizens will have an opportunity to say what they are thinking about the attempt to force them to pay dividends on watered stock. If the New Brunswick Power Company gains its object, the people will be called on to provide dividends on \$5,000,000 in stocks and bonds, compared with the little over \$2,000,000 of the old St. John Railway Company. Nothing has been done to justify any increase. The plan is the same, the service no better. It is suggested that a capitalization of \$2,000,000 may have been much too high, and not at all justified by the actual expenditure made by the old company. It is the habit of public utility corporations to squeeze as much as possible out of the people they serve, and the watering of stock is an old device. The question the people are chiefly concerned in today is not whether the company should get higher rates hereafter, but whether it is not already getting far too much in proportion to the amount of real money invested in the plant. Since the company itself has raised the question of rates there should be no settlement until all the facts are brought out and the whole situation reviewed from the standpoint of a legitimate investment return for money spent and service rendered, the public which granted the franchise being in a sense a partner in the business. The meeting this evening will be open to the public, and there should be so large an attendance that there can be no mistaking the temper of the people whose rights have been so boldly challenged.

CHANGE OF POINT OF VIEW.

Commenting on a transaction which brought large but ill-gotten gains to certain persons, the remark was made by a citizen the other day that he was not interested, for if those persons had not got it some other would have. So long as there are people who thus cheerfully relieve themselves of responsibility the "hail" will continue. So long as that mental attitude which regards most people as grasping or dishonest prevails, there can be no real reform. Only when every man who is himself honest and public spirited denounces the grasping and the profiteer, and shows that he means it, will a general change be effected. The theory that human society cannot go on unless there are opportunities for great riches ought to be abandoned. It gives too much latitude to the clever and unscrupulous operator to prey upon the community. One of the speakers at the recent Rotary conference remarked that the emphasis which used to be placed on "How much have you got?" is now placed on "How are you going to get it?" If it was right we are approaching a better social state. Public sentiment must condemn the selfish and unscrupulous man, not as harshly, perhaps, as it condemns the openly dishonest man and law-breaker; but it must make him understand that he is in some degree a public enemy, who deserves to be visited with punishment, not so much for the offence of doing injury to his fellow citizens as for regarding them as his lawful prey, to be exploited for his benefit. The time has gone by when people should be content to praise or envy the cleverness of such an individual. The theory of individual liberty should not be pressed to the point where such liberty is a menace to community interests and welfare.

THE WOMAN'S PLACE.

Nova Scotia, which last year rejected woman suffrage, will this year grant it. New Brunswick can hardly do less, in view of the fact that the federal government is pledged to give women the franchise before the next federal elections. In England and the United States great progress has been made, and the movement will go on until women everywhere have the franchise on the same basis as men. When that has been accomplished there will come a great wave of social reform, and there will also be a marked change in industrial conditions. In an article on what is described as "woman's era in England," the Manchester Guardian indicates the line of action to be followed by the enfranchised women, and it gives suggestions that will be found valuable by the women of the various provinces of Canada, many of whom have not hitherto given the thought and attention they should give to the broader duties of citizenship. We quote: "There is now a clear prospect that the women of England, assured of their citizenship, will really set to work to develop constructive schemes that in scope and energy will outshine everything the suffrage societies have hitherto done. The organization of English-

TREAT 'EM GENTLY.

(N. A. J. in New York Herald.) Don't let your angry passions rise, And keep your temper tamed; Be gentle with all Prussian spies And make them feel ashamed.

If cunningly a spy destroys A powder magazine, Don't forget says will be boys, And keep your mind serene.

To kill a spy would be a sin; Such methods we deplore; We must remember we are in A gentlemanly war.

Let dogs delight to bark and bite, But we must have more sense, And always strive to be polite— And never give offence.

Give good for evil to the spy, Heap coals upon his head, And we'll be happy by and bye— And maybe we'll be dead.

LIGHTER VEIN.

His Brave Deed.

She—I must say that I am disappointed in you. There was a time when I thought you were a man of boundless courage.

He—That was when I proposed to you, of course.

Taken at His Word.

"So you've given up drinking, have you, Rastus?" said the grocer.

"Yes, sah," said the old fellow. "I ain't heeded a drop in 'fo' weeks."

"Well, you deserve credit for that," said the grocer.

"Yes, sah, dat's jes' what I think," said the old fellow.

"If you cut tras' me 'fo' some groceries."

A Stickler for Etiquette.

Shocked parent to her boy—Blowin' yer 'ot tea! You ain't got no manners! What d'yer think they invented saucers for?

The Dragging Tempo.

Protestant—That's just like those quidniggers. I hired him by the hour, and see how slowly he plays.

A Minister's Evidence

That Piles, or Hemorrhoids, Can Be Quickly Cured—A Justice of the Peace Cured Many Years Ago

There have come to us recently these two letters from prominent men who bear unquestionable testimony in regard to Dr. Chase's Ointment as a prompt and lasting cure for piles.

These men give their evidence freely because they know what it means to suffer from the tortures of piles and then be cured. They feel it a duty and a pleasure to let others know how they, too, may be cured.

Rev. Frank N. Bowes, Methodist Minister, Privville, Ont., writes: "In the winter of 1912 I was stationed in Cobalt. I went for a snowshoe tramp one day, and set for only a few minutes on a cold stump waiting for some comrades to catch up to me. From sitting on the damp stump I contracted piles, and suffered so severely that it caused me great pain to walk. A friend recommended Dr. Chase's Ointment, and I immediately purchased a small box, which very rapidly effected a cure. I always keep a box on hand and find it excellent for any kind of wound or sore."

Mr. W. B. Thorne, J. P., Alderside, Alta., writes: "I was twenty-eight years ago that I became acquainted with the merits of Dr. Chase's Ointment, and would not be without it on any account. It never fails to do its work. I was first induced to try it for piles. Less than one box cured me, and I have never been troubled since. That was twenty-eight years ago, so I think the cure is permanent. It is good for sore lips and hands, chafing and, in fact, all sorts of sores. You are at liberty to use this statement for the benefit of others."

You can put Dr. Chase's Ointment to the test in any cases of piles with the utmost assurance that you will obtain relief from suffering and ultimately lasting cure. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Look for the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the box you buy.
