she is a woman among men before her hour.

A brilliant woman of the world, who recently saild from America, remarked with regret. "I saw young girls only among your very rich and exclusive old families. They alone dress their girl-children simply and properly, as the aristocrats of Europe still dress theirs. Your American girl of moderate circumstances imitates in dress the music hall singer who flaunts her intrigues and her extreme costumes on the same stage. Tell this girl that she should not dress in this outrageous fashion, and she says you might as well be dead as behind the times. She is not even of the times but ahead of them—poor, ignorant, absurd little creature!"

There is something very sweet and appealing about the slim, indefinite figure of a girl, even in the awkward age, with the hint of slowly developing lines. But deck it out in the trappings of the wanton, in the garish semi-precious stones of the harem, yes, the powder and rouge spash of the beauty parlor, and the poor, distorted little creature becomes a curicature of tender budding sexhood over which her own parents may well weep in shame.

What is the Girl Reading?

What is the Gfri Reading?

What are your daughters reading? Ask the librarians who, if they be thinking women, would gladly censor the books; they must distribute to young girls.

Recollect how you used to laugh when you found your sisters crying over the "Elsie Books," "St. Elmo," "The Wide Wide World," "Dora Thorn," and "East Lynne"? You wouldn't laugh today if you would come home unexpectedly some afternoon and find your seventeen-year-old daughter reading wide-eyed, certain books. Doubtless you woulds snatch the book from her hand and set a match to it; but the five cent circulating library at the corner drug-store will supply another copy, or her chum will lend her one.

During the last theatrical season, a splendid and artistic production of "Little Women" has been touring the country. A woman friend of mine who laid the foundations of her literary taste in Louisa Alcott's books happened to stop in a small Pennsylvania city during the run of "Little Women," She dropped in to the Saturday matinee and found the theatre crowded with women—women of her own generation, grandmothers, mothers and aunts, laughing and crying with Meg, Jo, Beth and Amy. The grandchildren, children and nieces of these women were sitting dry eyed and bored. At a rival theatre, a cheap dramatization of "The Common Law" was being played. That house was crowded with young girls. The modern girl cannot understand that exquisite spirit which permeates "Little Women," but they respond to the sex thrill of plays like "The Common Law."

Girl Sent Home

belle Bartlett, of Stellarton, (N. S.) was taken away from her sweetheart, Henry Emile, who could not speak a word of English, and was detained in the city to be sent back to her mother. The two had through tickets to Winnipeg and intended going to Montana, but their plans were interrupted and I. C. R. Policeman Collins separated the pair.
