## PILLS. FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

AYER'S

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. (This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with sure and perfectly safe in its operation. This has been prepared to meet that densify, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that aimost every purgative medicine is aerimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction of derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listensess, Irritability, Bilbus Headache, Bilbous Feyer, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Coativeness, Piles, Cohe, Dysentery, Humory, Scrottla and Scurvy, Colds with sorners of the body, Ucers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful curey in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains, in the Back, Stomach, and Side. They should 16 freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimu
