(New York Tribune.) Henry Mayer, the artist, tells the story of a visit he made to a colored club on the west side some time ago with the object of securing some local color for his work. Mr. Mayer, accompanied by a newspaper friend, was politely received by the president of the club. He presented a letter of introduction, and the president said: "So you are a newspaper man and an artist! Well, I am very much interested in you gentlemen, particularly because of your vocations." "What is your vocation?" asked Mr. Mayer of the president. "Oh, I am in the advertising line." Mr. Mayer was very much pleased to see that the negro whom he addressed had apparently made considerable progress in the world. Two or three weeks after that he recognized the president of the club on the street. He was dressed in a red uniform and carried a large umbrella. On the umbrella was the advertisement of a dentist. The colored gentleman was engaged in distributing a dentist's cards.

TO GUARD AGAINST FIRE. Specially Made Gear Houses to Be Built at Sand Point.

The committee of the common council, consisting of Ald. Milledge and Baxter, and Director Gushing, having to do with the matter of gear houses in Nos. 3 and 4 sheds, met at Sand Point this forenoon.

An offer was received from G. S. Mayes for the building of the two houses according to prepared specifications. This offer amounted to between \$1,000 and \$1,100 for the two, and was accepted.

The gear houses are to be located in the ends of the freight sheds, between the big doors, that in No. 3 to be at the western end of the shed, and in No. 4 at the eastern end. In this way the two places will be near each other. They are to be of wood, shingled on the inside with galvanized iron and floored with brick laid in cement. The idea is to make them proof against fire from the inside. No time is specified in the agreement, but Mr. Mayes will begin work at once and the job will probably take about ten days. The gear houses are to be 37 ft by 18 ft, and will be rented to the stevedore who has charge of loading for each line of steamers.

John McGillivray, chief stevedore for the C. P. R. boats will bring his gear down to Sand Point on Thursday.

The reports of churches were of a usual character, except that the congregations were usually large, and the after services were very excellent.

Bro. Marr stated that he entered upon occupation of the new parsonage at Silver Falls last week.

A general convention on evangelistic meetings occupied the rest of the morning.

Dr. Wilson's paper will be the order of the day for next Monday morning.

Baptist. The Baptist ministers met this morning, Rev. C. Burnett in the chair. The scripture lesson was read, and prayer offered by Rev. Dr. Gates. Ministers present were: Revs. Dr. Gates, A. B. Cobos, T. Dykeman, B. N. Nobles, I. B. Colwell, C. Burnett and David Long. Encouraging reports were received from the churches. Rev. B. N. Nobles is holding special services. Mr. Coll was twenty-five years old, and was engaged in the dry goods business under the firm name of D. J. Delaney & Co., on Main street, acquiring the business of Mr. Delaney some three years ago. Mr. Coll had been troubled with a stomach ailment for some time, but none suspected that death was so near.

The first number of the Y. M. A. Journal was presented by its editor Frank Le Gere.

A man named John McShane was arrested this forenoon for being drunk on Brussels street.

FERRY REPAIRS. Western Extension Will Soon Be Ready for Service.

The two much talked of castings for the ferry steamer Western Extension have been made by Flemings and the boat will be ready for service in a week or so. The new condenser, weighing about 2,300 lbs., was delivered to the steamer today and was lowered into position. The hot well has also been cast, but is still at the foundry, where some plans remain to be done on it. This will be finished in the course of a day or two, and then the connections will be made. All other repairs to the boat have been completed.

It has not been decided yet whether the two boats will be put on the route or not. Some merchants who use the ferry consider this unnecessary, as they say the service instead of being improved by such a method is made worse.

POLICE COURT. Timothy Gorman never got drunk in St. John until Saturday afternoon and thought his past record should plead for him. He had been doing eccentric stunts on Water street between four and five o'clock and as it was early in the day his fine was let down to four dollars.

John Ryan was different. He had been sick and being of a rather delicate temperament, very few drinks were sufficient to floor him. He had no idea of what had happened after he took the drinks until he was arrested between nine and ten o'clock, but guessed that he had been wandering around the streets. Eight or two months.

A young man named Frank Pitts was arrested for wandering on Sunday night. He appeared to be defective both mentally and physically and could not or would not say a word. It was learned that he had escaped from a schooner lying at south wharf, and was this morning put on board.

David Higgins, drunk and obscene on Sheriff street, forfeited a deposit of sixteen dollars.

KNIFE FOR RIVAL

Jealous Lover With Knife Drawn Chases the Other Man Up Waterloo Street.

Last Saturday night residents in the vicinity of Hay Market Square witnessed a spectacle which caused them to hold their breath with fright. Between the hours of ten and eleven a man was seen running up Waterloo street closely followed by another man, who carried a wicked looking knife in his hand, and who from his determined look was evidently bent on mischief. At first it was thought that they were Italians, but it later came to light that they were jealous lovers, whose affections were centred on the same innocent maiden.

As one of the lovers was strolling along Brussels street, not far from Hay Market Square, waiting, it is presumed, for the object of his leisure thoughts, he was somewhat startled, not to say intensely provoked, to see her alight from a street car in the company of another man. His ire rose when he saw the pair moving off in another direction, and he heard them chatting freely with all the intimacy of old time friends. At this he became uncontrollable, and confronting his rival demanded an explanation. The fair one screamed, without fainting, while as for the somewhat frightened rival, he simply took to his heels. The angry lover followed with knife in hand, but fortunately his rival was sufficiently fleet of foot to outdistance him. There is no knowing, however, what may develop.

DELEGATION DELAYED. (Special to Star.) MONTREAL, Nov. 16.—The St. John civic delegation was to have seen Mayor McNeill this morning, but this conference has been postponed until this afternoon.

Those few aldermen who are left in the city are not particularly enthusiastic over the success met with by the delegation to Montreal. They express the opinion that it is always the same way. Whenever the city wants to talk business with the C. F. E. something happens and fate seems to be against delegations. This is the third failure and only on one previous occasion was any important discussion held, when Mayor White alone saw Sir Thomas Shaughnessy.

RIVAL BOARDING HOUSE MEN. In the Union depot just before the arrival of the Atlantic express this morning, two Mill street boarding house keepers, who are inveterate rivals, engaged in a contest of words, to the apparent amusement of bystanders. These two boarding house keepers have long been rivals, and have gone so far as to carry on a campaign of public solicitation of business. They may be seen any day in the station house stepping up to passengers and asking them if they desire board. When the business of one wanes a little, the other accuses him of underhand methods and threatens to bring the matter to the attention of the police. This morning's altercation was only one of numerous incidents of the kind.

The stenographer who is to work in the mayor's office during the absence of Mayor White, assumed her position today. In a campaign of public solicitation of business, the pressure of civic communications is not great.

The letter carriers have been provided with new stamps and caps of a pattern different from the old ones. These new worn are like the American caps in shape, but differ in color, as these are blue and red, while the U. S. officials wear blue and grey.

The annual harvest supper and literary and musical entertainment at St. Mary's school house, next Thursday evening will, from all indications, be a very pleasant affair. In addition to an excellent supper an excellent programme of songs, readings and tableaux has been arranged.

The two buildings on the West Side, the old office building and No. 8 fire station, which are utilized this year as detention hospitals, are being put in readiness for the season's work. Electric lights, plumbing, and bunks are being put in and the total cost of this work will be in the vicinity of \$1,200.

WINDOW IN THE UMBRELLA. Frequent annoyance and inconvenience arises to persons carrying umbrellas, from the fact that when a strong wind is blowing the umbrellas are held in such a position as to shield off the rain, that when two persons approach each other from opposite directions there is grave danger of collision when the umbrellas often sustain damage, if some serious injury is not sustained by one or the other of the pedestrians.

To avoid such accidents it is necessary on the part of persons carrying umbrellas under these circumstances to repeatedly raise their weather shields so that they may be enabled to look under them and to look out for objects ahead.

Pedestrians picking their way through the rain are relieved of this bother and care by the use of the umbrella shown herewith, which is provided with a window, through which the pedestrian may pick his way in absolute freedom from accidents of this character.

The invention consists of a circular frame of metal sewed into the centre of one of the panels of the umbrella, and this holds a sheet of celluloid, or other transparent material, through which the pedestrian can have a constant view of the path in front of him.

INJUNCTION ASKED FOR

Hale & Murchie Try to Stop Sale of Timber by the Creditors of Tobique Mfg. Co.

Before Judge McLeod in the supreme court chambers this morning the matter of the winding up of the Tobique Mfg. Co., Ltd., came up for hearing. A petition was presented by George H. Murchie, of the firm of Hale & Murchie, praying for an injunction restraining the Eastern Trust Co. and the Royal Bank of Canada, two large debenture holders of the Tobique Mfg. Co., from selling at a sacrifice price large quantities of timber held by them as security. The petition set out that on the third of December last a decree was passed by the Eastern Trust Co. and the Royal Bank of Canada, empowering them to sell the timber and that they have colluded together to dispose of the timber at a price that will operate detrimentally to the other creditors of the Tobique Mfg. Co. The petition further sets out that the timber is of a value more than sufficient to satisfy the claims of the Eastern Trust Co. and the Royal Bank of Canada.

The Tobique Mfg. Co. has been in liquidation for some time and its winding up has involved much litigation among creditors. The hearing in the case was resumed at 2.30 o'clock this afternoon. Attorney General Pugsley and W. C. H. Grimmer appeared for the petitioner, and George Allen, K. C., McLeod, Vince, K. C., and Mr. Winslow, contra.

In the case of Harding vs. Bustin, argument was heard this morning in respect of an order, made by Judge McLeod some time ago, for the inspection of documents in the defendant's possession. The case was over until Thursday. G. H. V. Belyea appeared for the plaintiff and A. A. Wilson, K. C., for the defendant.
