

There Is No Mystery About Our Premium Plan!

We manufacture about 400 lines of our own and they are the goods that we are forcing the sale of. To sell these goods by the usual plan is to send out travellers and carry on expensive advertising, etc., which will cost over 40 per cent. We have discontinued all advertising except what applies to our store and are taking our travellers off the road and are instead giving the purchaser of goods from us 20 per cent. and making the other 20 per cent. ourselves. Is this not a good business proposition?

Boot and Shoe Department

Boys' School Boots

We have a line of boys' school boots that has added a great many customers to our store. It is a Box Calf Laced Boot, Blucher Cut, and we warrant every pair to be solid.

Size 8-10 . . . \$1.35 . . . Size 11-13 . . . \$1.75
Size 1-5 . . . \$2.00

20 P. C. COUPONS WITH EVERY PAIR.

The Asepto Plan

The Asepto plan of doing business is the only plan of its kind in Canada. It works itself out in this way: If you spend five cents you get a check worth one cent; if you spend twenty-five cents you get one worth five cents; if you spend \$1.00 you get one worth twenty cents; if your purchase amounts to \$5.00 you get one worth \$1.00, and so on. These goods we sell to you at the same price you would pay for them at any other store in the city. Instead of giving you a small cash discount, we give you a check worth twenty cents for every dollar you spend. We make profit on the goods you purchase and pay cash for, while the goods you purchase afterwards with our checks are given you at the wholesale price. To get you to make the first purchase costs us something while the second purchase with our checks you are bound to make from us. There is no selling expense attached to the latter.

Men's Waterproof Boots

MADE IN TAN OR BLACK LEATHERS.
High cut or ordinary length. Made of the very best Kangaroo skin. Hand sewed and guaranteed to keep out the water.

\$6.50

We have also a line of HIGH CUT BOOTS in Tan or Black, Waterproof at \$4.50

20 P. C. COUPONS WITH EVERY PAIR.

Our \$3.00 Shoes for Ladies

YALE WINS HER SECOND HOCKEY GAME

New Haven, Conn., Jan. 24.—Yale won her second hockey game at home today, defeating the Massachusetts Agricultural College seven, 3 to 0. The ice was poor and slowed the game up to a considerable extent. Howe and Cox featured for Yale, while Ackerman's work at goal for the visitors prevented much larger score.

ST. JOHN DEFEATS AMHERST

Amherst, N. S., Jan. 24.—A closely matched friendly game of curling was played here this afternoon between curlers of the St. Andrew's Club of St. John and the Amherst locals, which resulted in a defeat for Amherst by the small margin of two points. After the game the St. John curlers were banqueted at the Terrace Hotel, where a dainty dinner was served and speeches were made re the evenly matched games, etc. The St. John curlers leave for Sackville to play there tonight. ST. JOHN AMBULANCE ASSOCIATION MEETING

Lt. Gov. Tweedie is New Patron for Year - Work of Last Year Outlined in Interesting Reports.

At the annual meeting of the St. John Ambulance Association held yesterday afternoon His Honor Lt. Gov. Tweedie was chosen patron of the association. David Pottinger was elected president for the coming year and Dr. Rowley was elected to the office of secretary in place of W. H. Harrison, who was obliged to resign from the position owing to other demands on his time.

D. Pottinger presided at the meeting and in addition to the election of officers and reception of reports the work of the association for the coming year was discussed. The association hopes during the coming year to extend its sphere of usefulness to other parts of the province, by establishing centres in other cities with a view to establishing classes in first aid.

Mr. Pottinger in addressing the association explained the activity put forth to establish a centre of the St. John Ambulance Association in connection with the government railways to be known as the Intercolonial and Prince Edward Island Railways Centre of the association with headquarters at Moncton. Already the organization work has begun to assume very definite form and the results have been entirely satisfactory thus far.

During the year there has been a system of first aid in operation on the Intercolonial and P. E. I. Railways and those of the employees who have availed themselves of the opportunity have shown great interest. Ambulance rooms have been already fitted up at some points on the railways and others will be fitted out. It is the intention to have one at the union station here at noon as arrangements can be completed. At points along the line centres will be organized. In Moncton it is the intention, Mr. Pottinger stated to call a meeting of the people to discuss the organization of centres there in connection with the Intercolonial centre. Wherever these centres have been established by the railway the most gratifying results have been obtained the employees having responded to the spirit of the courses with zest.

Dr. Murray MacLaren in passing in review the work of the St. John Ambulance Association, expressed satisfaction with the amount accomplished. Those who had joined the classes had become enthused with the work and earnest in their studies. As to extending the work to other places in the province he felt that it should be extended to all the larger towns. The secretary, W. H. Harrison, submitted his report for the year in which he referred to the successful work carried on in the past twelve months. Organized in September, 1910, the New Brunswick branch of the St. John Ambulance Association has been most active for the first year of its existence.

Through the efforts of the committee appointed for the purpose ambulance rooms were inaugurated in this city. The first of these, composed of ladies, had an enrollment of thirty, and was lectured to by Dr. T. E. Bishop. Thirteen of the members of the class took the examinations and passed with a high standard and received certificates. Courses were given to the policemen of the city, and Chief Clarke reported satisfactory results had been obtained. The secretary, W. H. Harrison, reported that a membership of thirty-two, and another for women attended, and about thirty were conducted, and great interest was displayed in the work. Four men and three women joined the classes during the year. Another class for the firemen was attended by about twenty five.

"In addition to the work done in our own city," the secretary said in concluding his report, "an effort is being made to organize the work of the association in other parts of the province, and to this end the secretary has communicated with prominent men in different parts of the province. Communication has also been had with Capt. R. J. Birdwhistle, and he intends shortly to visit some of the larger towns to organize branches of our association. Considerable correspondence has been carried on during the year with parties interested in the work, and with the head office at Ottawa."

The treasurer's report showed a balance in hand of \$1,000. The election of officers for the ensuing year was taken up and the following were chosen: Patron—Lieut-Gov. Tweedie, Chatham, N. B. President—D. Pottinger. Vice-President—Col. E. T. Sturdee. Hon. Treasurer—E. M. Shadboit. Secretary—W. H. Harrison.

The following will constitute the council: W. B. Snowball, Chatham; W. F. Ganong, St. Stephen; Fred Chesnut, Fredericton; Hon. J. D. Hazen, St. John; Rev. F. G. Scovill, St. John; Mayor Frink, J. T. A. Dibbles, Woodstock; Dr. Murray MacLaren, Wm. Dowdie, H. E. Gould, Sussex; Hon. R. J. Ritchie, F. B. Black, Sackville; J. D. Fraser, Jr., Plaster Rock; W. H. Harrison, Harold Stetson. W. H. Harrison, who fulfilled the duties of secretary for the year, announced to the members that he would be unable to continue the work for this year. An appreciation of his work was given by Mr. MacLaren, who referred to the activity of the retiring secretary, and the regret of the members at his resignation. Mr. Harrison was elected a member of the council.

A vote of thanks was moved by Dr. MacLaren to be tendered those who had given their services in lecturing to the classes and examining during the year. The following committee were named to constitute an organizing committee for the city this year: Col. Sturdee, W. H. Harrison, Dr. Rowley and Dr. MacLaren.

The Canadian branch of the St. John Ambulance Association will meet in session at Ottawa, March 6th. A business meeting will be held on the following day and in the evening a large public meeting will be called. Their Royal Highnesses the Duke and Duchess of Connaught and Princess Patricia will be in attendance, and a number of prominent members of the Grand Priory of the Order of the Hospital of St. John of Jerusalem will also be present. During the meeting the prize offered by Sir Thomas Shaughnessy in the C. P. R. First Aid competition will be presented. The local association will be represented by two members to be selected later.

CIVIL ENGINEERS HOLD THEIR 26TH ANNUAL MEETING

Montreal, Jan. 24.—The 26th annual convention of the Canadian Society of Civil Engineers opened here today with some two hundred members present from all parts of the Dominion. William Francis Tye was elected president by acclamation in succession to C. H. Rust, there being no nominations; but it is expected that there will be a hard struggle for the vicepresidency between H. H. Vaughan, assistant to the vice-president of the C. P. R., and L. A. Vallee, civil engineer to the Department of Public Works for the province of Quebec. The results will be known Friday.

A committee on bye laws was appointed this morning and their report is awaited with considerable interest as it is proposed to amend the bye laws so that in future the educational standing of the candidate for admission will be determined more satisfactorily than at present.

The report of the secretary showed that during the past year there were 2882 members as compared with 2739 the previous year. At luncheon Henry Holgate welcomed the delegates and C. H. Rust, city engineer, Toronto, the retiring president replied. This evening the delegates are visiting the engineering building at McGill and tomorrow will visit the C. P. R. Angus shops, the Dominion Bridge Works and the Canada Car and Foundry Company Works. In the evening the annual banquet will be held.

CAMPAIGN AGAINST WHITE PLAGUE TO BE INAUGURATED IN N.F.L.D.

St. John's, Nfld., Jan. 24.—A campaign against the white plague is to be inaugurated in Newfoundland under the direction of the government. Reid, president of the Reid-Newtonland Company has offered to erect and equip a sanitarium for the treatment of tuberculosis patients in this city at a cost of \$50,000 and his two brothers, Henry and Robert Reid, have agreed to spend a like sum for 16 cottage hospitals to be scattered in outlying districts. The government has accepted the offer.

PRELATES GATHER TO GREET CARDINAL GIBBONS IN NEW YORK

New York, N. Y., Jan. 24.—Cardinal Gibbons of Baltimore, the ranking Roman Catholic prelate in America, Archbishop Prendergast, of Philadelphia, and 25 bishops from sees in this country and Canada arrived here tonight to greet Cardinal Farley for the first time since his elevation to membership in the sacred college. Cardinal Gibbons was the guest of night of Cardinal Farley. Tomorrow he and the visiting bishops will participate in a great ecclesiastical celebration in St. Patrick's cathedral.

HOPES TO PRECLUDE DANGER OF TYPHOID

Ottawa, Jan. 24.—In the Senate Sir Richard Scott introduced a bill for an act to check the spreading of typhoid fever. He said that the method adopted in the bill he proposed was to compel the destroying of excretion from all typhoid fever patients by some disinfectant under the supervision of medical or health authorities. It was well established that typhoid spread through the pollution of water and if the provision of his bill were enforced it would make it impossible to pollute water with colon bacilli.

He would be unable to continue the work for this year. An appreciation of his work was given by Mr. MacLaren, who referred to the activity of the retiring secretary, and the regret of the members at his resignation. Mr. Harrison was elected a member of the council.

A vote of thanks was moved by Dr. MacLaren to be tendered those who had given their services in lecturing to the classes and examining during the year. The following committee were named to constitute an organizing committee for the city this year: Col. Sturdee, W. H. Harrison, Dr. Rowley and Dr. MacLaren.

The Canadian branch of the St. John Ambulance Association will meet in session at Ottawa, March 6th. A business meeting will be held on the following day and in the evening a large public meeting will be called. Their Royal Highnesses the Duke and Duchess of Connaught and Princess Patricia will be in attendance, and a number of prominent members of the Grand Priory of the Order of the Hospital of St. John of Jerusalem will also be present. During the meeting the prize offered by Sir Thomas Shaughnessy in the C. P. R. First Aid competition will be presented. The local association will be represented by two members to be selected later.

VALUABLE PONY IS VICTIM OF RABIES

Hempstead, N. Y., Jan. 24.—Champion of the string of imported polo ponies of John B. Phipps of the Meadowbrook Polo Club, was destroyed today because of an attack of rabies. The pony was valued at \$1,000 and was imported from England for the polo match between

MEMORIAL HOSPITAL IN BATHURST IS A MODERN INSTITUTION

Special to The Standard. Bathurst, Jan. 24.—An event of unusual importance and interest took place here today when the James Hammet Dunn Memorial Hospital was officially opened at four o'clock this afternoon by Lieut-Gov. Tweedie in the presence of about two hundred persons. Addresses were given by the Lieutenant Governor, Rev. Father O'Leary, Rev. Mr. Rice, Rev. Mr. Matthews and others.

In declaring the hospital officially open Lieut-Gov. Tweedie congratulated the people on their acquisition of such an up-to-date and commodious institution, and expressed his hopes for the success of the hospital. Owing to the pressing need for the institution, the hospital received its first patients last week. A child born in the hospital during the week was introduced to His Honor, who presented the youngster with a substantial memento which in later years the opening of the hospital may be remembered.

Among those in attendance at the opening was Mrs. John Ferguson, who although past the four score mark in years, has been most interested in the erection of the institution, and who made an address during the afternoon. The hospital originated and was made possible through the generosity of James Hammet Dunn, a native of Bathurst, but now of England, who contributed a great share of the funds and whose efforts were seconded by T. D. Adams and other citizens of the town.

The new institution is in every detail modern, commodious and fully equipped, and will be a valuable acquisition to Bathurst. Miss Locke is the first matron of the hospital, and will be assisted by Miss Bird as head nurse. Patients were received for the first time last week and there are at present three patients. The hospital meets a long felt need, and general satisfaction is being expressed with the appearance and construction of the building.

WOODSTOCK IN FOR APPLE CULTURE

Continued from page one. Profitable Orchards. By means of these demonstration orchards it could now be shown what could be done in apple growing in New Brunswick. The Sunbury orchard showed net profits on the yield amounting to \$57.69 an acre, or a return of 14 per cent. The York county orchard showed net profits of \$89 an acre, or a return of 60 per cent. on the money invested. The average cost of running a bearing orchard would not exceed \$40 an acre.

Premier Fleming following Mr. Turney, met with a grand reception. He first alluded to the pleasure it gave him to address his constituents. He complimented Mr. Turney on his address. He thought that the province did good work in connection with the three demonstration orchards during the last two years. Mr. Turney received communications from people outside the province who wished to go extensively into apple growing in New Brunswick. One party wished to get possession of at least 1,000 acres in this province to be used in apple growing.

The advantage this province has over Ontario and British Columbia was that our climate gave the apples color and texture, which those provinces did not give. We had the right kind of climate. On the old farm where he (Mr. Fleming) was born near Woodstock, an orchard was planted some 30 years ago. This orchard is bearing the best of fruit up to the present time without any care whatever. He was satisfied that the people here would establish the demonstration orchard, as St. John and Moncton had decided to do. There were no better fruit lands in the province than in Carleton county.

Imperial Reunion Plan. He referred to the reunion of families' campaign in which Boards of Trade in St. John, Fredericton and Woodstock are taking a leading part. Immigration was a big question. We should endeavor to bring the immigrants here to take up our land that is not producing nearly what it should be. It was not necessary to have them go into the virgin forest and take up land. That land should be preserved for its forest wealth. It must be remembered that it is necessary for 15,000 families to leave rural England every year, and we are striving to get out share of that body of immigrants, who are the class of people we need to take up our vacant farms.

Donald Munro, M. P., said that the government did well in securing Mr. Turney. The success of the demonstration orchards was a stimulus to other farmers. The display of fruit at the show in St. John from this county was most creditable. He referred to orcharding in the early days as carried on by the late Francis Sharp and his father, also deceased, who were joint workers in fruit raising. They used the right methods, but in recent years the same interest had not been taken in apple growing. For a few years past interest had been increasing and he had received many requests from farmers in this county for literature on the subject prepared by the government. He complimented Premier Fleming for the energetic way in which he was keeping to the front and assured him that the great majority of the province would stand by the premier and his government when they went to the country for re-election.

The chairman thanked Mr. Fleming, Donald Munro and Mr. Turney for their able addresses and assured them that Woodstock would have the largest and, he hoped, the best demonstration orchard in the province.

teams of the United States and England last summer. Two weeks ago rables developed in the Phipps polo stables after a cur dog had bit the Gay Boy, a \$4,000 pony and also a \$5,000 brood mare. Both these animals died within a few days.

The Weak, Lame, Aching Back Comes From The Kidneys.

These who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo. On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble. They go right to the seat of the trouble, heal the delicate membranes of the kidneys and make their action regular and natural.

Mrs. Joseph Throop, Upper Point de Bute, N.B., writes:—"I cannot speak too well of Doan's Kidney Pills. For two years I was so tired life was a burden, and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is to be tired, and my lame back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Millar Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

START NEWSPAPER FOR MENDICANTS

Paris, Jan. 24.—Perhaps the most curious newspaper printed in the world has begun a semi-annual publication here. It is called the Mendicants' Journal and is intended for restricted circulation among the beggar class. The government, however, may take steps to suppress it. The newspaper offers to supply lists of centres where begging may be pursued most profitably, with names of persons who may be approached. Particular facilities for obtaining costumes suitable for cold-weather beggary are hinted at. Also a beggar well recommended may obtain at a bureau of information of the paper a list of important weddings, baptisms, burials, and givers of social functions, together with servants who may be "worked."

Dates on which royal or other official visitors are expected in Paris will also be supplied in advance on payment of a fee, this to be graduated according to the standing of the beggar in his trade and the position he must consent to occupy, as well as the importance of the coming guest.

Prepare For Lumbago!

If You Have "Nerviline" Handy One Rubbing Will Cure the Pain.

THOUSANDS USE "NERVILINE"

The "strike" of lumbago is like a bolt of lightning—you never know when it is coming or where it is going to strike. Probably the one certain thing about lumbago is the fact that it can be cured by Nerviline—the only liniment that penetrates deeply enough to reach the congested chords and muscles. "Years ago I strained my back and suffered considerably with weakness over the spine," writes Daniel F. Millan, a well-known farmer, residing near Kingsville. "Then lumbago attacked the weak spot, and for days at a time I would have to lie up in bed, unable to move or turn. Liniments, poultices and hot applications failed to bring the desired relief, and I was in despair of ever getting really well again. I at last decided to try 'Nerviline.' I got five bottles from the drug store and had it rubbed on three times a day. The stiffness and pain left my back quickly, and by continuing Nerviline I was completely cured of Lumbago."

This is similar testimony to that of nearly five thousand Canadians who have written unstinted words of praise to the manufacturers of Nerviline. For the cure of lumbago, sciatica, neuralgia and rheumatism there is no liniment with one-fifth the pain-relieving power of Nerviline. Refuse any substitute. Large 25c. bottles of Nerviline, or five for \$1.00, at all dealers, or The Carthornton Co., Kingston, Ont.

GRITZ GRITZ GRITZ
