Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. if you please, before we part; what earthly connection has all this with the case of the rice-stealing on the wharf, that you showed up so cleverly?"

"Why, you see, that involves some Chinese family connections that you European gentlemen do not often take note of—but which we always particularly inquire into. The wharf-cooler's wife lives next door to the basket-maker's where I stay, and we heard the whole story from her. In her anxiety to exonerate her husband she let out the word, 'Those rice-coolers have longer socks on their shoulders than they have on their feet' and it led me to suspect the little bamboo trick, of which I had once heard in Hong Kong."

"But why didn't he expose them himself?"

"Gentlemen, his life would not have been worth a Mexican dollar if he had. They were thirty men against one. Times were hard and they were desperate for food—that is all."

"I think, after this, we will weigh the coolies as well as the rice," remarked the Inspector. "Zh. Mr. Wang?"

"Yes, and bring your own scales so that they can't tamper with them beforehand!"
