**SAFE LOCK SHINGLE**

**Safe Lock Metal Shingles**

Their construction will insure you as they inter-lock each other on all four sides, and make it impossible for men or rats to get up through the locks. If you examine them you will not use any other kind. They cost a little more than wood shingles but are more durable, look better and are perfectly fire and lightning proof.

The test shows above construction as clearly as it is possible for a small illustration to do so. We will mail you if you wish a sample shingle that will show it better.

We also make Siding, Ceiling, Corbels, Finials, Etc.
