TWO CURLING RINKS FOR GALT BONSPIEL

Two rinks of Waterloo Curlers kipped by W. Hoeg and Mr. J. A. Weir will take part in the big bonspiel in Galt commencing Monday. On Wednesday five rinks leave on their annual tour to Western Ontario cities and Detroit.

Miss A. Martin of Wallenstein is a welcome guest at the home of Mr. and Mrs. E. Frey, Young street for a few days.

Pte. Jack Pym who returned home from overseas a few weeks ago has left for London for a few days.

The "flu" has put in a reappearance in town and the past few days several cases have been reported. The cases however of a mild type and it is not expected there is any danger of another serious outbreak.

In Police Court yesterday afternoon adjournment was made in the recent robbery in town until January 13th.

Mr. J. Fotheringham of Guelp was a visitor in town yesterday on business.

Mr. Gus Kuntz of Hamilton is a welcome visitor in town renewing old acquaintances.

Miss Hilda Currie of New Hamburg was a visitor at the home of Mrs. J. Chas. Mueller yesterday.

A COLD SPELL

Waterloo is getting a taste of the cold snap which visited the West last early part of the week and last night the thermometer hovered around the zero mark. A strong southwest wind is blowing this morning and the weather is cold and raw. It is the real first touch of winter so far this season and the citizens in general have no kick coming as it is at least one whole month later than last year.

SEASON OPENED

The rink was opened last evening for the first time this season with a hockey game between a team from Kitchener and a team made up of locals. It was the first workout of the season and the home boys were victorious by a score of 3 goals to 2. The return game will be played in Kitchener next week.

The Weekly Market

There was not the same stir at the weekly market this morning the cold weather no doubt having much to do with the small attendance. When the doors opened at 8 o'clock there was only a handful of citizens on hand, but later on they came and much improvement was noticeable. As was to be expected there was no material change in the price of butter and eggs the former selling at 85 cents per lb and eggs at 60 cents per dozen. There was very little fowl offered chickens selling at 35 cents per lb and geese at 29 to 30 cents per lb. All lines of produce sold at the usual prices.

It's Easy Enough

To keep the liver right if you use Dr. Chase's Kidney-Liver Pills occasionally. The liver gets lazy at times and when it does digestion is interfered with and the kidneys fail to act. You soon know it when the liver is awakened by this treatment, for headache, biliousness and stomach trouble disappear and you feel fine. This is an easy prescription for health and happiness.

SLEEPLESS NIGHTS OVERCOME BY SAFE METHODS

Suggestions given whereby insomnia can be safely and quickly cured. Worry, overwork, overstudy and indigestion cause insomnia. Healthy, natural sleep can be produced by drugs.

First, the blood circulation must be improved. Collection of blood in the head must be removed. Irritation in the brain must be relieved.

It is because Ferruzone equalizes circulation, because it soothes the irritation, because it removes congestion that it does cure insomnia.

For building blood and nerve, for instilling force and life into overworked organs, for establishing strength and vitality, where can you find anything so efficient as Ferruzone?

Remember, sleep is just as important as food. You must sleep or break down, but if you'll use Ferruzone and thereby remove the conditions which now keep you from sleep, you'll get well quickly.

Ferruzone is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use. Absolutely safe is Ferruzone.

Take it for a month, take it for a year—no harm, but immeasurable good will result. To sleep well, feel well, feel well, to be free from depression, nervousness or the blues—use Ferruzone. It's a food tonic, a healer to the weak and wretched, a boon to the sleepless—sold in 50c boxes six for \$2.50 at all dealers or direct from The Catarrhose Co., Kingston, Ont.

Sad Death of Mrs. W. Frickey

The sad death took place this morning at 6 o'clock of Violet (McCarthy) beloved wife of Walter Frickey at the early age of 26 years 5 mo. and 10 days death following an illness of about ten days duration. To mourn her sad demise there are left the sorrowing husband, one daughter 3 years of age and a babe one week old and the sympathy of the entire community goes out to them in their hour of sorrow and affliction. The deceased father and 3 brothers and sisters residents of Toronto also survive.

The funeral will be held from their late residence, Spring Street, on Tuesday morning at 9 o'clock to the R.C. Cemetery for interment.

Dear Violet thou hast left us. All your labors now are done. You have fought the fight. The battle is over. And your crown of life is won.

Mr. and Mrs. Mackenzie, the Misses Nora, Alice and Billy Mackenzie were visitors at the home of Mrs. T.J. Mowat of Galt over the New Year.

Pays The Bill of Young Fiance And Weds Him in Jail

A LOCAL YOUNG LADY COMES TO HIS ASSISTANCE IN STRATFORD

Stratford Jan. 3.—Deputy County Jail was the scene of a wedding this week. Thereby hangs a tale of romance beginning with the arrest of an individual on Saturday last on the charge of not paying his board and being a vagrant.

Said charge was laid by the boarding house mistress to whom he is alleged to have owed money. He was, of course, provided with food lodging at the jail and was to have come up for trial in due season. In the meantime, however, his fiancee in Kitchener heard of his being held in duress via "the wire" and in true moving-picture style rushed to his rescue. She settled his bill and pleaded with the Magistrate for the release of her beloved. But before so doing she, thinking perhaps that it was "better to have loved amiss than never to have loved" procured the necessary license and persuaded a local clergyman to accompany her to the jail there to join the two until death (or the Canadian Senate) do part them.

Taking all the facts into consideration his Worship released the bridegroom and wished him and his wife luck in their voyage on the uncharted seas of matrimony. It is said that the bride was young and most respectful and pleasing to look upon. It is apparent that she had the courage of her convictions, so here's luck to her!

From Junior Clerk To Railway Vice-President

Mr. J.E. Dalrymple, Vice-President of Grand Trunk System.

Montreal, January 1st.—Mr. J.E. Dalrymple, Vice-President in Charge of Traffic, Grand Trunk System, today received the congratulations of his railway associates and of the leaders in the business world upon the occasion of his fiftieth birthday. The anniversary was a double one, as it marked also the completion of Mr. Dalrymple of thirty-five and a half years of service with the Grand Trunk.

Mr. Dalrymple's record in the railway service is a splendid one. He has worked his way upward in the company from a junior clerkship in an office of high executive responsibility, where he directs the traffic on the Grand Trunk and Grand Trunk Pacific Coast Steamship lines and subsidiaries of the System. These rail and water lines serve eighty-nine per cent. of Canada's urban population grouped in its forty principal cities.

In addition to holding these offices Mr. Dalrymple is a member of the board of directors of other large organizations, such as the Canada Steamship Lines, and is regarded as one of the most able officers in the transportation field on this continent. Born at Montreal, it was in the Treasurer's Office of the Grand Trunk in that city that he had his first railroad experience. Later, he occupied the positions of Secretary to the Freight Traffic Manager of the Chicago and Grand Trunk Railways, and Secretary to the General Manager of the Grand Trunk Railway System. After doing notable work as Division Freight Agent of

Cross, Feverish Child is Bilious or Constipated

Look Mother! See if tongue is coated, breath hot or stomach sour

"California Syrup of Figs" can't hurt tender stomach, liver, bowels

Every little child, after giving her children "California Syrup of Figs," that is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-aches, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child to-morrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

Waterloo's Mayor As Seen and Heard By an Outsider

Has Held Public Offices Ten Years Continuously.

A few days ago a member of the Record staff incidentally met Waterloo's mayor. Not being a resident of his good town there was no particular reason why the chief magistrate, Mr. W. H. Kutt should have attracted our attention to the fact that it was the Executive head of the neighboring municipality, as important as its bigger brother to the east, made the meeting a pleasing one for mayors, reeves, councillors and all the other intelligentsia of the municipal government administration always are interesting to the man of newspaperdom. So in this instance there was the usual interest in the mayor's presence.

On this occasion, however, there was a particular reason why the outsider's interest should become fixed on the mayor. The second year in his office has been in office for ten years continuously, first as councillor then as mayor, and when the press representative incidentally heard this he concluded that the record of Waterloo's Mayor was worth noting and recording.

The outsider learned that Mr. Kutt has been in office since 1909 in which year he was elected to the Town Council by a good majority. In 1910 he was re-elected and the ballot "showed his vote was the third highest on the list, upsetting all predictions. Since then he has been re-elected every year, and by increasing majorities. After four years as councillor he was elected to the deputy reeve-ship by a good majority. In 1914 he was re-elected and secured by acclamation. Then came the reeve-ship, to which he ascended on a substantial majority of electors' votes. He was returned for a second term as reeve by acclamation.

Then came the honor he rose to in the mayor's chair in 1918 by acclamation and again in 1919, for which he was returned on a popular vote of only a few days ago.

Besides holding the offices named Mayor Kutt was Warden of the County in 1917. The office came to him by the decision of the County Council and when it did a precedent was established by the breaking of the rotation system of allotting the honor among the municipalities in the County. This was the first time that the rotation system was broken since it was adopted years ago.

In addition to these, a seat on the Hospital Board was held by him for four years.

During his term as Councillor or Reeve he held the chairmanship of various committees, including the Light and Water Committee, the Light and Water Committee for seven years and the Relief Committee, as Mayor for one year.

This record, one can readily understand, is the longest for continuous service made by any man in municipal government in his own town, and in fact the Twin City. Looking back over the years Mayor Kutt may well feel satisfied with the record, especially in view of the fact that he never had a defeat in ten years.

"How did you do what you have done?" the engineer asked him as he just stuck to the ship and made up my mind to give the best service to the people. First elected in 1909, it is a matter of pleasure to me when I think of the fact that the people of Waterloo entrusted me with the year with the important duties and that I was returned every year for ten years without a defeat," he remarked.

"The first mechanic to be chosen for the high office of Waterloo's Mayoralty I have tried to fulfill the expectations of the citizens and to show that the workingman has come into his own and done so with success. When I began in municipal life ten years ago, and since then, had many knoekouts. But this did not discourage me. The more I was knocked the gamer I became and I feel that sticking to the game has been proven justified. During my term of office as at all other times I have upheld only what I feel is just and what make for the progress and growth of our town," he said.

The glitter in his Worship's eye and the compure are he replied to the question howed that the Mayor is a man who has not sacrificed his time in vain.

He recalls having passed through many a "scrap," but is resigned to the conviction abathia occupancy of the various offices of public trust and particularly the mayor's chair compare favorably with that of any predecessor.

The mayor always has been a booster of Waterloo and delights to help it industrially. "To try to assist in promoting the town's growth industrially," has been a pleasure for me. "For that reason industrial by-laws have received my support in the campaign to carry them."

Looking back over the work in the past ten years, while there were no radical changes in civic government yet there were the average number and these of a character to which the present incumbent, the mayor's chair points with delight, as of course that if he in not all cases was not the prime mover yet was an interested co-operator in what he believed to be for the public good.

Among these changes are the amendment to the by-law, as the result of which the twenty-five per cent. of the cost of permanent pavements was removed from the general taxes to the shoulder of the rate-payers on the respective streets.

Mayor Kutt also lays claim to improving the auditing and accounting system of the town.

"Suppose you were born in Water-

SOME PEOPLE YOU KNOW

It is our aim to make this column interesting. If you are going to visit Waterloo, call on our visiting drop in a line or phone 385 or 396.

Mr. Fred Vogt of Mishawaka, Ind., who spent a week with relatives in Elmira, called on a number of his friends here on Friday morning.

Mr. and Mrs. Will Pasky, of Buffalo, who were holiday visitors with Mrs. Berner, South Albert Street, returned home to-day.

Mr. R. Moser was a visitor at Guelp yesterday.

Mr. Philip of Daahwood is a visitor in town to-day.

Mr. and Mrs. F.C. Joyce and family returned to Buffalo today after spending a week with relatives in the city.

Mr. Theodore Loos has returned from a visit to relatives and friends in Ayrton and Hanover.

Rev. Father Fischer yesterday left on an extended trip to St. Petersburg, Fla., where he will spend the next few months for the benefit of his health.

Government Increases Price of Fish

GIVES DEALER EXTRA HALF CENT PROFIT. TORONTO, Jan. 3.—The unprecedented weather in the north country, where the big lakes are still open, has made it impossible for the fishermen to carry on winter operations, and as a result the Ontario fisheries is faced with the necessity of meeting the current demand, entirely out of its reserve of frozen stock. To-day the department received orders for over 12 tons of trout, whitefish and ciscoes, or over six per cent. of the total reserves.

The fish now being sent out to Government dealers will be sold at a higher price than that ruling during the summer. Following a conference with Hon. Finlay McDiarmid, minister of public works, Mr. Squire to-day stated that Government trout and whitefish would be retailed to the public for the winter at 18 cents a pound, the dealers receiving the fish at 14 cents instead of 11 cents.

Under the arrangement in effect during the summer, dealers were allowed to charge an extra two cents per pound for delivery, but it is doubtful whether they will be permitted to do so during the winter, when the cost of handling the fish is lower. The dealers are being given an extra half cent per pound profit and this, it is considered, makes their margin an ample one.

"We are not insisting on dealers that they must not charge more than 18 cents a pound," said Mr. Squire.

Many of the lamp standards on London and Waterloo bridges are made from cannon captured by British troops in the Napoleonic wars. London is the "rate center" of the world. It has been estimated that there are as many rats in the British metropolis as human beings.

Birds and cats are subject to influenza and are a waste quite through and through.

"While I was not born in Waterloo but near Bamberg, I have lived here practically all my lifetime, and am a Waterlooite through and through," he remarked.

The Mayor was finished but in reply to a further question he made the statement that he has held the position of a foreign in furniture factories for twenty-five years, a long period for a comparatively young man such as he is. It was in old Hoffmann-Wegenast factory, where now is the Canada Furniture Company, Waterloo, that he learned the trade. After being there nine years he was employed in the piano factory in Kitchener for three years. Subsequently he was with Messrs. Schaefer and Killel the predecessors of the Canada Furniture Company in Waterloo. For many years he has been with the Canada Furniture Manufacturing Co., and about two years ago he was transferred to the factory in Kitchener.

"Are you not a lover of and a worker for the Waterloo Musical Society? Or in other words, the band?"

"Yes, it has always been a pleasure to help the band. And more recently the boys' band. When the boys' band was organized, several years ago I was among those citizens who took delight in getting the organization under way and collect the necessary money and today I am glad to note that it is a success." Mr. Kutt has been a member of the Executive of the Waterloo Musical Society for ten years.

MAGIC BAKING POWDER

The use of the ordinary kinds of baking powder is not attractive to the woman that regards purity and nutrition as important factors in home baking. Women are coming more and more to realize that Magic Baking Powder is the perfect baking powder and that foods containing it have increased nutritious value.
