The United States has invested in Canada \$2,500,000,000, according to the Bankers' Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. Of the total sum invested, \$1,200,000,000 is in bonds, and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans. It is computed that more than 200 branch factories were opened in Canada by United States concerns in 1919, and a great number in 1920 and 1921, and that late in 1922 the number of these came to 700.

A collie dog is reported to have saved the life of a London West girl, while accompanying the child to a nearby store. On the way she stopped on the C. P. R. railroad tracks in the path of a westbound train. Realizing the child's peril, the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain safety.

The girl's mother tried to discourage the dog from going when the daughter started for the store, but he went, and was the means of saving the child's life, and died heroically as a result.

Why Ford Predominates

VALUE

From 1904 until 1923 the Ford Motor Company of Canada, Limited, manufactured 450,000 Ford cars and trucks of which 91% are still in use. More convincing proof of their inbuilt worth could hardly be given.

Selected materials, simple design, and accurate workmanship are factors in this long life. They explain the high utility and operating economy of the Ford when new. And they also give it the ruggedness to withstand the wear and tear of daily driving year after year.

This long life means slow depreciation, sustained value, satisfactory performance from your Ford while you continue to drive it, and a measurable resale value when you wish to dispose of it.

It means that the Ford gives you unusual value per dollar invested, not only this year but for a long term of years to follow—means that when you select the Ford you obtain approved security for the dollars you invest.
