The Toronto Mission Union.

HE results which have attended the labors of the brethren engaged in the Mission is clear proof that the work is of the Lord. He has sealed every department of its work with His approval, and the evidences are, that still greater blessing is in store for the workers. Daily the conviction is growing that ere long steps must be taken for widening its sphere of usefulness, and also for adding to the facilities for carrying on its operations.

Large numbers of earnest Christian workers are gathering round the Mission, and God's word is being carefully and prayerfully studied for personal benefit and for practical use. The house to house visitation so faithfully carried on by the Missionary, the Bible Woman and the Lady visitors is accomplishing much for the Master in the arousing of many careless people and leading them to attend the services, and to give heed to the word spoken.

We trust that all who love the Lord Jesus Christ will give this work a place in their thoughts and prayers.

Visitors.

REV. DR. BROOKES, of St. Louis, recently visited the city, and took part in the services at the Mission Hall. His experience in Gospel work enabled him to make several suggestions which will prove helpful in future arrangements.

Henry Varley, of London, England, held several meetings in Toronto, and his words were blessed to some.
