

**What is
THE HEALTH LEAGUE
of Canada?**

The Health League of Canada is a well-organized national institution which since 1922 has devoted its entire efforts to prevent disease and preserve health. The work of the Health League is a tremendous factor in reducing cost of hospitalization, loss of income and production. It is contributing handsomely to the betterment of social conditions in your community and across Canada. It is an organization worthy of the confidence, the commendation and financial support of every Canadian citizen who believes, as all must, that a healthy nation is a sturdy nation, a busy, prosperous and happy nation. With a war to win, health is even more important now than it was in time of peace. Your support is earnestly and urgently solicited.

We have a War to Win
HEALTH IS VITAL TO VICTORY
Help the
**HEALTH LEAGUE of CANADA to
FIGHT DISEASE**
and safeguard your personal and
community health.
