May.

In a few minutes I heard the words "my lordship," and I said I was so glad to see him and asked how he was. He said I am happy and contented as I hope you are. I am feeling well though and am glad to see you are better

and to the medicine - I want to tell you my little girl, if you are not very careful your condition is very serious. Your trouble is worry, your nerves are broken and depleted you need all the rest possible. You must rest and be contented. All this upset condition in the world has affected you. You have worried about it. You remember (will) Perkins to me, how ~~he~~ his wife was, how she worried. You have no organic trouble. It is nervousness that has upset you, don't overdo. Be content and to overdo. Mrs Wiedt said she had slept yesterday. - I said she must rest

I said I had been taking "Valerian" + asked what he thought of it he said "Father thinks it is wonderful" You are back again to your old self. He replied yes you have come back to your real self, for a while you were let down, dissatisfied - unsettled + now this effect - Shadow of the Valerian I said it is "Sun beam" I asked if he saw where it was he said yes, from ~~behind~~ Where Mother + I were sitting, as I pressed him for the name + asked if he remembered the place. He mentioned a name + I nodded assent + he said yes. We spoke about both + Mother being there together quite an at-times.

I said how you can explain + the nature of this more + scene with soul - Flesh + spirit you understand it, he said yes, and began + spoke very slowly + clearly + said
