The exports and imports of building brick since 1891 and 1880 respectively are shown in the two following tables. The exports have never been large, averaging for a number of years past about \$6,000 in value per annum, but falling in 1909 to a value of \$2,255. The annual imports for a number of years previous to 1903 averaged only about \$20,000 in value; during the past six years, however, the value of the imports has varied from \$100,000 to nearly \$200,000 per annum. During the calendar year 1909 the imports were 27,972,000 brick, valued at \$195,360; of which, 1,738,000 valued at \$21,680, an average of \$12.47 per M, were imported from Great Britain; and 26,234,000 valued at \$173,680, an average of \$6.62 per M, from the United States.
