Station

## Glenn & Co.,

WILLIAM ST.,  
import direct the finest Ceylon, Assam and China Tea, Black Gunpowder and Young Hyson, Best English Breakfast Tea, 35c. and 40c.  
A trial only required.

Mint's Liniment Cures Gargot in Cows

## Save Fuel

Did you ever examine your windows. You will likely find them loose. So much so, they will rattle with the least wind. Windows in this condition will let a lot of cold and wind through.

Stop all this and make your house comfortable by having the Chamberlain Metal Weather Strip attached. See window equipped at my office, opposite the Post Office.

## Thos. G. O'Rourke

## THE ARMENIAN MURDERS.

Police Are Confident that Gorgio Yangie Committed All Three.

London, Nov. 6.—The police have located the lodging place of Gorgio Yangie, the murderer of the two Armenians delegates to the revolutionary convention here, and who afterwards killed himself, and they are satisfied that he was identical with the murderer of Sagatel Sagouni. All the members of the Henschakian Society are in a state of great alarm. They are satisfied that their enemies, the Alarists, will appoint a successor to carry on the work of extermination of the Henschakist leaders.

## HE IS AN IMPERIALIST.

**SIR MICHAEL HICKS-BEACH ON THE FISCAL PLANS.**

Lord Goschen Writes Stating His Acceptance of Premier Balfour's Policy—Morning Post's Advice.

London, Nov. 6.—Sir Michael Hicks-Beach, in his speech at Manchester yesterday, in reply to Mr. Chamberlain, said the immense prosperity of the country from 1848 to 1872 was due in part to other causes than free trade. The trade of the country was enormously increased, the condition of the working classes enormously improved, and the wealth of the country grew. This growth was largely due to the development of steam and electricity, to great discoveries in science, and the production of gold. He asked if the preferential proposal was to be so beneficial even to the colonies as was represented, why were there rival interests in those great States? Canada was not composed wholly of farmers, and Canadian lumber would receive no advantage under the proposed tariff.

He said he was a wider Imperialist than Mr. Chamberlain, and he believed that the interests of 40,000,000 of people were more important than the mistaken policy of 11,000,000 colonialists. The duty he had imposed upon corn had, contrary to his opinion, increased the price of bread.

The Morning Post says: We strongly urge Sir Michael to study the reciprocal movement between the United States and Canada before making another speech.

The News is glad that Sir Michael Hicks-Beach, in his speech at Manchester yesterday, in reply to Mr. Chamberlain's attack, has shown that he cares for the 30,000,000 of Indians who are not white, but are still God's creatures.

Lord Goschen, who recently joined the Free Food League, has written to his constituents, stating his acceptance of Premier Balfour's policy, and his constituents have carried a resolution that the time has arrived for reconsidering the fiscal policy with a view to protecting the home market and the colonies without making life harder for the poorer home consumers.

## WINNIPEG'S DEATH ROLL.

Boy Beheaded on the Railway—Three Other Tragedies.

Winnipeg, Nov. 6.—Four tragic deaths were reported in the city. While on his way to school, little Willie Struthard, aged 13, was killed by a train in the C. P. R. yards. It is supposed he was crossing the yards to save going across the overhead bridge, and found a train in his way. He evidently crawled under the cars, because his body was found between the rails, and his head, which had been severed from his trunk, outside the rails.

James Little, a Stonewall farmer, while ill, took a dose of poison in mistake for medicine. He died from the effects.

A. H. Fulmore dropped dead at his boarding house. The deceased, who was 66 years of age, has a wife and family living near Minneapolis.

John Aspley, an aged employee of the Works Department of the city, was found dead in an old stable this morning. Death was caused by drink and exposure.

## THE NEW ELIJAH.

London Truth's Fling at Mr. Chamberlain.

London, Nov. 6.—Truth has raised laughter in London by dubbing Mr. Chamberlain Elijah III. It says more can be said in favor of Dowd's than of Joseph's pretensions. That Elijah III. is more successful than Elijah II. proves that Englishmen are more gullible than Americans.

## THE M'BRIDE CABINET.

British Columbia Ministry Now Complete.

Victoria, B.C., Nov. 6.—Premier McBride completed his Cabinet last evening after a long Executive meeting. Mr. McPhillips resigned the position of Attorney-General, being succeeded by Mr. Charles Wilson, who has been President of the Council. Mr. Wilson is succeeded in the latter office by Mr. F. J. Fulton of Yale. Both were sworn in late last afternoon. Mr. Wilson will go back for re-election, the bye-election being pulled off in two weeks. Mr. Fulton does not have to be returned. There will also be another shuffle of portfolios. Mr. McBride will leave the Department of Lands and Works, taking that of mines, and combining with it the Provincial Secretaryship, while Mr. Green goes to the Lands and Works.

## COULD NOT AGREE.

TANGLE IN ACCOUNTS OF AMES AND ATLAS LOAN.

Examination Adjourned—Accounts Will Try to Reconcile Statements—Some Mistakes in Book-keeping.

Toronto, Nov. 6.—The impossibility of reconciling the statement of Mr. A. E. Ames in regard to the losses of the Atlas Loan with the figures prepared by Mr. W. H. Hunter for the liquidator led to an adjournment of the examination of Mr. Ames yesterday after two hours' wrangling between these two gentlemen as to the meaning of certain accounts. The examination will be continued on Tuesday next, and in the meantime accountants representing Mr. Ames and the liquidator will go over the accounts and endeavor to bring order out of confusion.

Mr. Hunter showed Mr. Ames the first balance sheet of profit and loss on American securities and pointed out that a line had been erased which showed a net loss of \$41,121.34.

Mr. Ames: "That is an ordinary error of a clerk in the course of preparation of the statement."

"And this net loss was turned into a profit of \$24,341.46 by interjecting a Twin City syndicate profit account of \$65,463.30."

"That was done by the insertion of a perfectly proper item, and it is a small lawyer that endeavors to bring out any other interpretation."

The Master desired that there should be no personalities.

Mr. Ames stated that it had been pointed out to the liquidator that the account had not been included owing to a lapse of memory on a part of the clerk. This was why it had not appeared in the account rendered to the liquidator.

A statement of August 25, 1903, was shown Mr. Ames, an item in which read, "August 1, 1901, to loan to A. E. Ames & Co. on 501 shares Twin City." "You have credited this account in error, reducing it from \$100,000 to \$87,000."

Mr. Ames endeavored to explain that this was a mistake, and desired to look at his books to refresh his memory. Mr. Hunter objected to this, but the Master decided that Mr. Ames was entitled to look at his books.

The latter then explained that they had received \$100,000 from the Atlas Loan and by a mistake of the bookkeeper it appeared to have been credited to the Atlas Loan, whereas \$67,000 should have gone to the Atlas and \$33,000 to the Ames & Co. as a loan under an agreement between the Atlas Loan and his firm, this being 67-100 of a payment of \$300,000 which, under the terms of their agreement with the Twin City syndicate, they had to make. Mr. Ames said that the bookkeeper's mistake was distinctly pointed out in the account.

In the statement handed in by Mr. Ames to the liquidator of the Atlas as showing the stocks handed in to Ames & Co. by the Atlas these items appeared October 1:

200 Shares Metropolitan Bank, \$40,000  
400 Shares Metropolitan Bank, 75 per cent. paid, 60,000  
400 Shares Metropolitan Bank, 50 per cent. paid, 40,000

"You have before said that the Atlas Loan had paid \$150,000 on its stock, Mr. Ames?"

"Yes, that is a mistake of \$10,000." Mr. Ames showed where the mistake had been made in the books, and said that it was a proof of the sincerity of the accounts. Had there been anything to conceal they would have been more careful of these small items.

Mr. Hunter questioned Mr. Ames about an item of 200 shares of Metropolitan Bank received from the Atlas Loan on October 24.

Mr. Ames replied that on December 1 an institution from which they had arranged a loan paid the instalment of \$100,000 on these 200 shares, and on December 24 the institution which had previously paid the third instalment paid the fourth instalment on the same number of shares, \$10,000.

"Yet you received a check from the Atlas Loan for \$50,000 as the third instalment on its shares?"

"Yes."

## MR. FIELDING AT MONCTON.

Conferences Regarding Intercolonial Railway Employees' Pay.

Moncton, N.B., Nov. 6.—The situation in regard to the proposed increase of pay to I. C. R. conductors and brakemen remains unchanged. Hon. W. S. Fielding, acting Minister of Railways, arrived here, and is to remain two or three days looking into railway matters generally. This morning the Minister was engaged with Hon. Mr. Emmerson and D. A. MacKinnon, M.P., Charlottetown, and in the afternoon he was engaged with General Manager Pottinger in the latter's office. Last evening the R. C. and B. of R. T. Committee had a conference with the Minister and General Manager. Committee members are very reticent as to what took place. In outside circles it is stated the men have been offered within a small amount of what they are asking. The committee are hopeful that they will get what they are asking for, but so far no definite answer has been given.

## FELL TO HIS DEATH.

William McKillop Found Dead on Sidewalk at Barrie.

Barrie, Nov. 6.—Wm. McKillop, a carpenter, whose home was in Vespra, a short distance out of town, was found lying dead on the sidewalk near the Simcoe Hotel, with his head badly crushed early yesterday. Last night he went to the hotel after 11 o'clock and was shown to a room in the third story. It is thought that during the night he looked out of the window, and, losing his balance, fell. He was 45 years of age and unmarried.

## NOW FOR HUDSON BAY.

ANOTHER DISPUTE WITH THE U.S. IS IN SIGHT.

London Times Has an Article Figuring Out What Americans May Claim This Time.

London, Nov. 6.—The Times prints a two-column article, headed "Hudson Bay, an Ocean Route." It says that in the face of the Alaskan boundary dispute it will not be too extravagant a pretension on the part of the United States to hold that Canada can only assert her jurisdiction over a three-mile limit from the coast. It believes that the bay will offset the Atlantic outlets possessed by the Americans, and relieve Canada of her present almost absolute dependence upon the United States for the transportation of grain, paper, mineral, timber and fur wealth. It says that Low, who commands the Canadian expedition to Hudson Bay, enjoys an enviable reputation among the scientists of the world.

## RECOGNITION BY U. S. I.

Request from Panama May be Complied With.

Washington, Nov. 6.—The Associated Press is informed that the President probably will make a statement to-day regarding the provisional government of the Republic of Panama, of the establishment of which the United States Government was officially informed to-day. In view of the latest advice from Colon to the effect that the junta has succeeded in gaining control of the situation, it is currently expected that this announcement will recognize the newly-established Government, but it was impossible to secure official information on this point. The Associated Press is enabled to state that the United States Government will conduct affairs with a firm hand in the execution of the treaty of 1846. Orders have been sent to the various naval commanders in the Caribbean that the isthmus is to be policed, the transit kept open, and also that bloodshed must be prevented at any cost. This is further than the United States ever has gone heretofore, and indicates that the establishment of the new Government at Panama will have the ultimate recognition of the United States. Advocates of the construction of the Panama Canal say this assures the execution of that project.

## MAY BE MURDER.

Woman Pours Sulphuric Acid on Her Husband.

Belleville, Nov. 5.—The report comes from Deseronto that a Belleville woman, who had for some time been living there unhappily with her husband, poured a quantity of sulphuric acid upon him while he was in bed. The injuries inflicted were so serious that his recovery is doubtful.

## JOINS IN THE FIGHT.

International Will Assist the Toronto Moulders.

Toronto, Nov. 6.—At last night's meeting of the Iron Moulders' Union the Secretary read a letter stating that the International Iron Moulders' Union of America have decided to fight the injunction pending between the local union and the Gurney and Canada Foundry Companies. It was also stated that Thos. Atkinson and Edward Elliott, two iron moulders, have been served with notices to the effect that on November 12 a motion will be made at Osgoode Hall for their commitment to jail for breach of the injunction obtained by the Canada Foundry Company. The charge is that they attempted to induce Frank Hodapp, George Fisher, Alexander Coventry and James Wallace, four Scotch iron moulders, to break their contract with the company.

## Smallpox in New Brunswick.

St. John, N.B., Nov. 5.—Smallpox has broken out in Madawaska county, New Brunswick, on the border of Maine. There are eight cases in the town of St. Leonard's, and six are reported from the surrounding country. Premier Tweedie, who is here attending a meeting of the Provincial Government, received a despatch from Dr. E. B. Fisher, Macleodville, Secretary of the Provincial Board of Health, this afternoon, informing him of the outbreak of smallpox in Madawaska county. The Premier wired that all precautions be taken to prevent the spread of the disease.

## WABASH SHOPS

Maple City Making a Strong Bid for Their Location at this Point

Committee of Citizens and Industrial Committee in Communication With General Manager

Ald. Pigott and the members of the civic industrial committee, who have been energetically working with a view to the location of the shops of the Wabash Railway in Chatham, met a committee of citizens last evening and submitted a proposition to President Ramsey, of the road.

The proposition was outlined by Major Schofield and Ald. Pigott at once forwarded it to headquarters. The chairman of the industrial committee has been working on the matter for some time. Last week General Manager A. E. Robins and Superintendent L. J. Ferrior, of the Wabash, visited the Maple City and looked over the proposed sites. The buildings would cover fifteen acres of ground, would cost \$100,000, exclusive of machinery, and 250 men would be employed from the start. These shops would, no doubt, develop into construction shops as well, which would mean further extensions. The company have now 45 locomotives on this division and expect ten more right away.

The choice of the site lies among Chatham, St. Thomas and Aylmer, and earnest efforts are being made by our representatives to win the big prize for the Maple City.

## THE CHORLEY ELECTION.

Lord Balcarras Re-elected—He is Not a Chamberlain Supporter.

London, Nov. 6.—The Standard says of the Chorley election that the return of Lord Balcarras, one of the recently-appointed junior Lords of the Treasury, is not a triumph for the preferential policy. The re-elected Minister has explicitly disclaimed any belief in representation and has announced that he is not a supporter of Mr. Chamberlain.

## PARIS BOY KILLED.

Little Albert Holworthy Run Over by a Train.

Paris, Ont., Nov. 6.—Albert, the ten-year-old son of Mrs. Holworthy of Paris Station, met with an accident on his way from school yesterday which resulted fatally at 9 o'clock. As the little fellow, with three other schoolmates, came to the railway crossing on River street a freight train was moving along slowly, which they attempted to board. The other three succeeded in getting on the train for a ride to the station, but Albert slipped and fell under the wheels, which passed over his legs, severing them completely near the hips. The little fellow was carried to Dr. Duntton's surgery, but nothing could be done to save him.

Life outweighs all things if love lies within it.

## Feathers....
