

PROVAN'S
(Improved Malleable and Steel)
HORSE FORK AND SLING
IS THE BEST MADE.

PROVAN'S PATENT
OSHAWA ONT

SIMPLE, STRONG, DURABLE
Many farmers who had other kinds have taken them down and bought mine after seeing it work.

My Machine Handles Sheaves as well as Hay and Peas—it is the Simplest and Best Stackers Manufactured.

Our machine has been in successful competition for seven seasons, and its superiority to all others is now placed beyond a doubt. It is the only Double-Acting and Self-Reversing Machine on the continent that has the following advantages: A loaded fork or sling can pass the stop block. Our Pulley Hoister instantly raises or lowers the pulleys from or to the peak, thus avoiding climbing or unteasing the rope from the whiffletree. The track used with this car is the best for the following reasons: It acts as a strengthening brace to the barn; never warps or is affected by a side draw. The car runs easily, and can be readily moved from one barn to another. For unloading at the gable we have much the strongest end-lift take up less room, and do not disfigure or weaken the building with posts or projecting beams.

GUARANTEE.
We guarantee every machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

SENDING TO FARMERS ON TRIAL
It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machine to be put up by them and used until their harvesting be half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.

J. W. PROVAN,
OSHAWA, ONTARIO,
Sole Manufacturer and Patentee.

While we do not recommend a Wood Track, we claim to have the latest improved and most reliable working Wood Track Car on the market. 330-a-o

GOOD CROPS OR POOR CROPS,
Which Shall it be for 1893?

BEST ON EARTH

W. A. FREEMAN, Esq., Niagara, Jan. 27th, 1893.
Dear Sir—Having given your "Bone and Potash" a fair trial with most satisfactory results, I have much pleasure in adding my testimony to its excellence as a fruit producing fertilizer. I have used it at the rate of 8 lbs. per tree in full bearing. I have placed in the hands of Mr. Gage my order for eight tons, an increase of two tons on order of last year. Respectfully,
(Signed) J. H. BENN.

W. A. FREEMAN, Esq., Niagara, Jan. 27th, 1893.
Dear Sir—Used your potato manure last year, and am well pleased with it. We used on one piece one sack with manure per acre, on another two sacks with manure, and a small piece without manure, but with fertilizer at the rate of three to four bags per acre. The manure plots had at the rate of twelve to twenty loads per acre. The largest yield was received from the plot where fertilizer alone was used. (Signed) A. C. HOWE.

PEDIGREED BARLEY FOR SALE.
I have 500 Bushels of Pedigreed Duckbill Barley for Sale.

The stock from which my grain was grown has been carefully selected each year for the last twenty years. It is a heavy yielder; should average from 45 to 60 bushels per acre on soil suitable for barley growing; have known even larger yields. The grains are large and plump, straw abundant, stiff and bright. No more apt to lodge than Fyfe wheat. It is an upright grower; will outyield six-rowed or any other variety of two-rowed barley on same land from 5 to 10 bushels per acre. Is far superior to any other variety of two-rowed or six-rowed barley in both straw and grain, also for feeding purposes. English experts have reported it an excellent malting variety.

Single Bushels, 80 cents per Bushel.
In Ten Bushel Lots, 70 cents per Bushel.
Twenty-five Bushels and over, 65 cents per Bushel.
Bags, 20 cents each.

All grain put free on board C. P. R. or G. T. R. Cash must accompany all orders.
