WHEN THE NEXT SESSION of the Domin. ion Parliament opens we would suggest to Dr. Sproule, Sovereign Grand Master of the Loyal Orange Association of British North America, and champion of civil and religious liberty, the advisability of calling the attention of the Government to a couple of cases of Presbyterian aggressiveness. Questions might be put in this way: "Will the Prime Minister cause to be laid on the table any correspondence which may exist in regard to an immoral paper published in the Ruthenian language, and circulated amongst the emigrants of that nationality in the North-West, said paper being bonused by the Presbyterian Mission Board. Also, what object had said Board in circulating "Bunyan's Pilgrims' Progress " amongst said people. AT A DISTRICT meeting of the Methodist body held at Exeter a few days ago a resolution was moved, seconded and carried unanimously, respectfully urging upon Hon. Chas. Murphy, Secretary of State, the necessity of cancelling, at the earliest possible moment, the charter which he granted to the Metropolitan Racing Association. This resolution makes it quite evident that our Methodist friends at this particular meeting are neither lawyers nor statesmen. In granting the charter referred to, Hon. Mr. Murphy was simply carrying out the law. To make sure of his ground he consulted the department of justice before taking action and was advised he had no other course. We are entirely in sympathy with our non-

Catholic neighbors in their efforts to put down the gambling and all manner of rascality which has become attached to the race track, but the reformation should be gone about in the proper manner. Is is not the administrator of itself. We should like to see our Methodist friends out north imbued

THE PEOPLE who supply ready printed sheets to country newspapers should exercise greater care in the selection of their matter. We noticed lately in one of these publications a statement that Tetzel, the great adversary of Luther, sold an indulgence to commit robbery to a young man, who thereupon robbed Tetzel himself by virtue of the indulgence he had purchased. Articles such as this leave a very false impression in the minds of non-Catholics in regard to the Catholic faith. The whole story is a fable, the invention of a hater of the Church. We are sorry to notice that some of our Catholic exchanges give their readers matter fresh from the type foundry. First class journals do not use plate matter. Quite frequently it is of a most objectionable character.

These fakirs make pretence of curing certain diseases about which a doctor of repute should alone be consulted. The pamphlet we have presently in mind comes to us from Toronto and is issued by an individual who claims he can cure consumption in all stages. Our advice is that when these productions are left at the house they be torn up at once and consigned to the rubbish heap or the stove. It is unfortunate the criminal authorities do

for the future of a certain class. Father which an old-fashioned printer would study, did time and space permit (and were it worth the doing) to extract from them their synthetical content of defined doctrine; such is not the present purpose. I aim but to take one point for discussion, a point which the venerable professor has several times himself emphasized. I find it in his most recent encyclical, published in the Sun on September 6th, entitled (the bendlings are undoubtedly the editor's) headlines are undoubtedly the editor's) "Materialism and Spiritualism." The concluding words of this document are

"What seems clear is that for our salvation we must trust not to faith, which too often means suppression of conscientious doubt, but to honest inquiry. If there is a God He surely is a

God of truth. Let me emphatically say once more that I have spoken as a learner, not as a teacher, joining a large body whose published position was the same. Now this has always been a favorite

protestation with Professor Smith. He has always (doubtless in entire sincerity) professed to be a seeker, an in-quirer for ultimate religious truth. He durier for always exprofesso disclaimed authority to teach. "How is this?" you will say, "an infallible Pope dis-claiming teaching authority? Where is his dogma?"

No one knows better than does Professor Smith the value and importance of words. His dogma is that there is and can be no dogma, his certainty is that there is and can be no certainty his faith is that there is and can be no faith. In these matters he is as the complete sceptic in philosophy who, when driven back to the innermost chamber of the citadel, says he is certain th: the cannot be certain of anything— which if you examine it, is about as bold

a dogma as anyone could wish. It is all a matter of arrangement of words. The Curran, Montreal, a notable figure in Canadian life has passed away. Erem on early are he was recognized as and leave the dogmatist in the dress and

"Owing to the long suspension of free inquiry by belief in the inspiration of the Bible and the Church texts, the most fundamental questions are at this late hour pressed upon us. We are abruptly called upon to prove the existence of Deity, its nature, the law of its government, and the survival of ul after death."

Merely pausing for a moment to note the abyse of ignorance disclosed on the part of the professor as regards medieval thought, observe the tremend-ously dogmatic character of this innocent uterance of the "inquirer" after religious truth. With a majestic sweep of the pen he dismisses the ages gone before as void of thought and puts before us the world " at this late hour"

envisaging for the first time the great problem of the universe. Listen to this, " Further complication has been made by the Athanasian creed, threatening

with everlasting perdition those who can not believe what it is impossible to con-ceive, including the procession of one of two co-eternal beings from the other." (The italicization is ours.) You shall not believe what you cannot

onceive! [It is clear that when the professor says "conceive" he really means "imagine."] Here is the rock on which Herbert Spencer's argument went to smash. Has Professor Goldwin Smith never suspected the great dis-tinction between "thinking" and "imagining"? How shall one then "imagining"? How shall one then ever believe in God? "Peradventure thou wilt comprehend

the steps of God and wilt find out the Almighty perfectly? He is higher than heaven and what wilt thou do? He is deeper than hell and how wilt thou know?" Thus Sophar the Naam thite to Job.

The hands are such dear hands: They are so full; they turn at our demands So often; they reach out With trifles scarcely thought about

So many times; they do So many things for me, for you-If their fond wills mistake, We may well bend, not break.

They are such fond, frail lips That speak to us. Pray if love strips Them to discretion many times,

Or if they speak too slow or quick, such crimes We may past by; for we may see Days not far off when those small words

may be Held not as slow, or quick, or out of place, but dear,

Because the lips are no more here.

They are such dear familiar feet that go Along the path with ours—feet fast or slow, And trying to keep pace—if they mistake

Or tread upon some flower that we would

take Upon our breasts, or bruise some reed, Or crush some hope until it bleed, We may be mute,

We may be mute, Not turning quies ly to impute Grave-fault; for they and we Have such a little way to go—can be Together such a little while along the way, We will be patient while we may.

So many little faults we find, We see them! For not blind To love, we see them but if you and I, Perhaps remember them some by and by

They will not be Faults then—grave faults—to you and

But just odd ways-mistakes, or even Remembrances to bless.

Days change so many thing-yes, hours, We see so differently in suns and showers. Mistaken words to-night

May be so cherished by to-morrow's light; We may be patient for we know There's such a little way to see and go.

# CATHOLIC NOTES

The Catholics of the diocese of Cambrai, France, have re-opened 340 schools to take the place of the 443 primary schools closed by the Religious Congregations' law.

The Oberammergau Passion Plays will be given next year from May 11 to September 25. The burgomaster has issued a notice reminding the men that they must now let their hair grow.

Mgr. Moriscione, the oldest bishop in the world, has just died at Squillace, Catanzaro. He was born on the 22nd of October, 1811, and become Bishop of Gravina and Mon epeloso in 1855. In 1858 he was transferred to Squillace.

The monumental new Cathedral of St. Louis, Mo., which is rapidly rising may be America's highest art representative. Its scheme of Mosaic decorations and other embellishments may cost, it is said, \$10,000.000.

In order not to conflict with the Eucharistic Congress that will meet in Montreal next year, it has been decided to postpone the proposed Pan-American Missionary Congress, at Boston, until 1911.

The clergy will welcome a new decree of the Holy Father empowering them to dispense from driment ecclesiastical im-pediments and thus validly marry per-sons who are in danger of dying before a formal dispensation could be obtained from the Bisho<sub>l</sub> of the diocese.

Mayhap he wears long hair and a faraway look as becometh : man who finds it difficult to carry all he knows in one small head. The Standard Oil Professor tells us that were the Whites and Indians to intermarry they would produce a strain of manhood hard to equal. In the early days in Canada there were thousands of such marriages which gave us what is known as the "half-breeds." Amongst these same half-breeds, we doubt not, would be found many very good people, but it were ridiculous to say that the manhood of the half-breed is hard to equal. There are professors in Chicago University who have gone to seed. Their intellectuality carried them up in an aeroplane, but they have, as Dickens would say, "flopped."
