depend on the cow's work, her condition, and what else she is receiving. In the average case three to five pounds of meal per day will suffice. At the present time it is often a case of taking what meal may be available and mixtures are almost out of the question. Oil cake meal seems about as good value as anything and less of it will do. It is a good milk producer, and is a splendid feed for sustaining and increasing body weight. If other feeds can be combined with it so much the better, but one pound of it per day even alone on short grass will go a long way in feeding the cows over a bad time.

Care of the Weanling Lamb

For best results lambs should be weaned at between four and five months. It has been found that under conditions prevailing during the hot dry months of mid-summer the

ewes will drop off considerably in their milk flow. The lambs receive comparatively little nourishment and it is better for both ewe and lamb for them to be separated. When the lambs are removed from the ewes they will miss little the small amount of milk they should receive and will soon learn to depend upon pasture. They should receive the very best pasture available. Nothing fits in better than a patch of rape sown at the proper time so as to be ready for pasture when the lambs are weaned. Care should be exercised in turning the lambs on the fresh rape to avoid bloating and probable death. If no rape is available fresh clover will give satisfactory results. In addition to pasture a feed of bran once a day will push the lambs along to a good finish. At no time should it be necessary to feed over one-half pound of grain per day to each lamb while on pasture.

Lethbridge Exhibition

Amalgamated Fair and Stampede a Big Success

THE Southern Alberta Amalgamated Fair and Stampede, held at Lethbridge, during the third week of July, was on the whole a good livestock show, and as far as entertainment of the visitors went, it was a decided success. The proceedings were somewhat marred by the unfavorable weather, but Southern Alberta badly needed the rain, and if it was a little cold and wet, nobody grumbled. The idea of holding an amalgamated fair, covering three or four towns in Southern Alberta, which previously boasted a yearly fair each, and an indifferent one at that, is a good one, and might well be copied by many districts in the three prairie provinces, where small fairs are held in each little town.

If five or six of these small towns got together, and put on one good fair at some central location, it would be more educational, more enjoyable, and less expensive all round.

The show of livestock was on the whole very good; there being quite a few exhibitors from the Edmonton show held the previous week, who came on to Lethbridge; while there was a creditable turnout of local stockmen.

CLYDESDALES

W. D. McEwan, Airdrie, Tom Rawlinson, Innisfail, R. E. Lea, Gaidale, John McCoskey, Maycroft, A. E. Dupen, Lethbridge, McKay & Russell, Calgary, J. W. Durno, Calgary, and one or two others had entries forward in this breed. The money was pretty well divided. McLennan won first place, with brood mare, yearling filly, foal, and yearling stallion. McKay & Russell won the championship in stallions, on "Bazon Bozelle," imported by Vanstone & Rogers, North Battleford, and one of the best Clydesdales in the south country today. Reserve went to Durno, who also secured the female reserve championship, McCoskey winning the championship.

SHIRES

Shires, Tom Rawlinson, Innisfail, Ray Knight, Raymond, and J. McCoskey, Maycroft, were the chief exhibitors. Rawlinson had the majority of the first places, and also the open and reserve male and female championships.

PERCHERONS

Geo. Lane & Co., Calgary, W. B. Thorne, Airdrie, Arnsstead Bros., Stavely, were the exhibitors. Lane & Co. had matters pretty well their own way. They secured both championships, and all the special prizes donated by the Canadian Percheron Association, and the Percheron Society of America. Thorne won the open stallion class, and the dry mare class, while Arnsstead secured the best ribbons in the brood mare and foal classes.

BELGIAN and SUFFOLK PUNCH

Ray Knight, Raymond, secured all the

prize money in the first named breed, and A. W. Pritchard, Woodford, in the latter.

SHORTHORNS

R. W. Gardner, Lethbridge, and R. S. Paxson, Gaidale, were the only exhibitors in Shorthorns, Paxson having fully the best of matters. This herd is improving right along and is worth good still competition.

HEREFORDS and ABERDEEN ANGUS

J. McI. Davidson, of Gaidale, was out with a good string of Herefords, his only competitor being F. S. Leffingwell, of Warner. Davidson won all the first prizes and championships. He has been adding some good blood to his herd lately, notably males from the Kentland, Indiana, herd of Warren T. Murray.

S. C. Pritchard, Camrose, and R. E. Lea, Gaidale, came together in the Angus classes, but Pritchard was stronger all through.

RED POLLS

Thurbon Bros., Freshfield, were the only exhibitors in this breed.

DAIRY CATTLE

Joseph H. Laycock, Okotoks, Geo. Bevington, Winterburn, and Lloyd & Irvine, Lethbridge, showed the black and white breed. Laycock and Bevington put up some good competition, but the former secured the majority of the first prizes and both male and female senior championships. Bevington secured the junior championship in bulls. Laycock & McDonald, Calgary, were the only exhibitors in Ayrshires, Joseph Harper & Sons, Westlock, Alta., in Jerseys, and A. J. Joyal, Hazlemore, Sask., in Brown Swiss.

SHEEP and SWINE

Sheep were a good exhibit, only it was fortunate there was only one exhibitor in all the breeds with the exception of the Oxford.

W. J. Hoover & Sons, Bittern Lake, Alta., had a strong showing of Shropshires and Southdowns. A. C. Stewart, Lethbridge, showed Lincolns; H. S. Currie, Castor, Dorset Horns; R. C. Harvey, Lethbridge, Romney Marsh; and the Canada Land and Irrigation Co., Medicine Hat, Suffolks. Currie had all the firsts in Oxford, with the exception of the class for ewe, I shears or over, with lamb, which was won by The Western Stock Ranches, Calgary. E. R. Hunt, Lethbridge, had a nice exhibit of Angora Goats.

Swine—in the Berkshire classes, the Canada Land & Irrigation Co., Medicine Hat, and Wm. Gilbert, Stony Plains, had both forward some high-class stock, and divided the money between themselves. The York & Tamworth classes all fell to Gilbert. The Jersey Jerseys to O and G. C. Miller, Strathmore, the Hampshires to W. J. Hoover & Sons, Bittern Lake, the Fungs, Chinas to A. J. Joyal, Hazlemore, Sask., and the Millers, Strathmore, while the Wagon classes went to Gilbert.

Alex. Galbraith, Edmonton, judged the Clydesdales and Shires, J. I. Edmunds, of the University of Illinois, the Percherons and Suffolk Punch, J. Chas. Yule, of Calgary, the beef and dairy cattle, and J. McLaugh, Edmonton, the sheep and swine.

"The essential characteristic of Shorthorns is beef, but a beef breed that can show a herd with more than 40 cows with milk records ranging from 10,000 to 13,232 lbs. is worthy of careful consideration."—B. O. Cowan.

DOMINION SHORTHORN BREEDERS' ASS'N

SHORTHORN CATTLE

WE PAY THE FREIGHT FROM FACTORY TO FARMER AT FACTORY PRICES

HEAVY GAUGE RUST PROOF

2 x 2 x 8 ft., \$23.50 3 x 2 x 8 ft., \$38.25 5 x 2 ft., \$23.50

We also manufacture Sheep Dipping Tanks, Feed Cookers, Steel Cisterns, Etc. An Unconditional Guarantee with Every Tank. Send for Catalogue.

FREELAND STEEL TANK COMPANY, Halbrite, Sask.

WOOL, HIDES AND SENECA ROOT

Wanted immediately in large or small quantities. Very highest prices paid. Ship without delay to—

R. S. ROBINSON

157 RUPERT AVENUE and 150-Y PACIFIC AVENUE E. WINNIPEG, MAN.

PEERLESS PERFECTION

For Those Broad Acres

Put up a fence that will last a life time—a fence that won't rot or break down—that will hold a 20 lb. stone—let your cow's nose through—that will stand a fence that will keep rough usage to a minimum—weather and to guarantee.

PEERLESS PERFECTION is made of heavy Open Mesh Steel Wire with all the necessary twisted out and all the strength and toughness left in. Heavily galvanized. Every intersection is thickly coated with the Peperon lock. The wire has a true long life, and the fence stays up for years and years. It is a well worth a trial. Send for the Peperon Catalogue and you will see why.
