BRANT SANATORIUM
ANNUAL MEETING HELD

The annual meeting of the trustees of the Brant Sanatorium was held in the office of K. V. Bunnell and Company yesterday afternoon, when reports of the work accomplished in the past 12 months were read, and officers were elected for the ensuing year. Mr. Chris. Cook was elected President, Mr. E. L. Cockshutt Vice-President, and Miss F. E. Smith secretary-treasurer. An executive committee consisting of Warden E. B. Rose, Messrs. H. T. Watt, E. L. Gould, W. J. Sweatman, Dr. Lovett, with Dr. Nichol as an alternative, and the president and vice-president as members ex-officio.

The financial statements for the year ending Dec. 31, 1916, were presented by the secretary. It is of special note that the cost per patient per day was \$1.46 as against \$1.37 in 1915, and the board considered this very reasonable, in consideration of the greatly increased cost of living. The institution closed the year with a cash balance of \$102.39 over all expenditure, which shows very careful and economical management. The present Superintendent, Miss K. Bowen, is doing excellent work. Doctors Nichol and Lovett, who are members of the Sanatorium board, made a visit of investigation recently at the Sanatorium, and went over the whole institution, at the request of the board. They interviewed some of the patients, and not a single complaint was made. All seemed perfectly satisfied with the nursing staff and the meals.

The Brant Sanatorium is now able to afford excellent facilities for patients, and the board urgently recommend that it be put to greater use by citizens of Brantford and Brant County. There is chance for a great work to be done here in the fight against tuberculosis, if patients are only sent soon enough, then there is a chance for their recovery. The primary intention of the Sanatorium is for incipient patients, and there is an excellent hospital here, with a good nursing staff, where patients who have just contracted the disease may go, with a splendid chance of recovery, and close enough to home for their friends to visit them.

There are at present 18 patients in the institution. The financial statement is as follows:

EXTENSION OF
BOILER HOUSESpecial Session of Water
Commissioners Held to
Consider Question

A special meeting of the Water Commissioners was held at the City Hall Tuesday afternoon, being summoned for the purpose of considering the advisability of extending the boiler house to accommodate the extra boiler requested by the Underwriters' Association in their report submitted after their inspection of the works. Tenders were also received for the new boiler, and authority given for other minor changes.

Several communications were read and the following tenders received for the new smoke stack: Goldie McCulloch and Co., Galt, \$612.00 F.O.B. Galt; Jno. Inglis and Sons, London, \$478.00 F.O.B. Brantford; Waterloo Engine Works Co., \$475.00 F.O.B. Brantford.

The tender of the Waterloo Engine Works, being the lowest, was decided that it be accepted. It was also moved by C. A. Watrous, and seconded by Mayor Dowling, that W. C. Tilley, Architect, be asked to prepare specifications for the new addition to the Boiler House to take the new boiler, also to make provision for another boiler in the future with workshop in the rear, and the Secretary on receipt of same to ask the local contractors to tender for the work.

BOY'S CLUB OF ST.
JOHN'S CHURCHPleasing Entertainment
Given Last Night; Two
Debates Held

Tuesday evening was one of importance in the history of the Boys' Club of St. John's Church. They put on an entertainment for the public, a full house was in attendance, and a decided success was assured from the start. The following took part in the programme: A. Mallard, F. Wildé, W. Thomas, H. Hingley, E. Davis and several others in a dialogue.

There were two debates also. The first, Resolved that this war is of benefit. Affirmative, E. Suddaby, W. Thomas, R. Ballantyne. Negative, Geo. Pifer, C. Eyre, E. Davis. The negative side won.

Nuptial Notes

A very quiet wedding took place on Thursday, February 15th, at the First Baptist Parsonage, when the Rev. Llewellyn Brown united in marriage, Miss Maud Cooley, and Mr. Stuart Morrison, both well known and popular residents of this city. The bride and groom left immediately for Toronto and other points east on their honeymoon, and on their return will probably reside here.

TRADES AND LABOR
ON THE QUESTION
OF POOL ROOMSMatter Discussed at Meeting of T. & L. Council
Last Night; Mosaic
Law Recalled

Last night's session of the local Trades and Labor Council developed nothing of particular interest, demanding immediate action. Some discussion took place as to the action of the city council in regard to the pool room question, and the street railway employees' commission controversy received some attention. Otherwise regular routine matters received the attention of the delegates present.

Coal Situation. The excessive price being charged in a few cases by local coal dealers was discussed by Delegate Brown, who reported that he knew on perfectly good authority that one dealer had charged at the rate of \$21.00 a ton, the purchaser buying one hundred pounds for which he was required to pay \$1.05. Delegate Statery stated that a ridiculous charge for soft coal was recently made in one case, and presented a bill that had been received by a friend of his for \$7.75 for a half ton. President Noble doubted if anything could be done to remedy the situation, but Secretary Brown enlightened him in this respect, declaring most emphatically that if sufficient evidence could be produced that by the measures of the recent Order-in-Council the government would take action against the offenders. It was finally decided to lay the matter before the High Cost of Living committee at their meeting on Friday night.

Street Railway Question. A member of the Street railwaymen's union was present and again brought up the matter of their request of the commissioners for high wages. He stated that the Toronto Street Railway, that was experiencing a dearth of help, was willing to give employment to the entire Brantford staff at twenty six cents an hour.

Pool Room Licenses. The recent action of the city council in regard to the pool room licenses was considered, the general consensus of opinion being that the Trades and Labor council should remain neutral on the subject as the matter was possibly conflicting ideas among the members. Delegate Brown inquired if any such delegation composed of ministers and church representatives had ever waited on the city or county council in an endeavour to have the playing of golf on Sundays stopped. He recounted an instance that had occurred some time ago in the vicinity of his home, where some young men had been in the habit of playing baseball on the Sabbath day, and after some complaints had been made to Chief of Police Slemm, he had stopped the practice. He thought that there should be no discrimination between rich and poor.

Delegate Moran recalled to mind the circumstances surrounding the origin of the law in this respect, claiming that it was first to be found in the Mosaic law, and that the particular words were, "six days shalt thou labor and do all thy work, and the seventh shalt thou rest." He further claimed the provision thus been made to insure one day of rest from toil from the seven for the Jews, who were being oppressed by their Egyptian taskmasters. He said that the law did not state that no work was to be done, but that none was to be performed for the Egyptians. The day was not set aside especially to praise the Lord, for that could be done at any time, he concluded.

Another delegate declared that it was futile for anyone to expect that ministers would protest against the playing of golf on Sundays, as the church was a capitalist institution. "You have never yet found capitalists in any undertaking which they did not control, and when they control a thing, they practically own it." The pastors of churches, he thought, did not realize the conditions with which workmen had to contend.

Communications. A communication was received from the Industrial Banner, offering the services of Miss Laura Hughes, to speak at a public meeting to be held here some time in the near future. The consideration of the advisability of securing this speaker was left over for a week.

In regard to a resolution passed some time ago, calling for a national government, copies of which were sent to the government and to the other labor organizations throughout the country for endorsement, "You have never yet found capitalists in any undertaking which they did not control, and when they control a thing, they practically own it." The pastors of churches, he thought, did not realize the conditions with which workmen had to contend.

THE REX

Distinctive indeed is the offering of Manager Moule to the patrons of the Rex Theatre for Wednesday and Thursday of this week. A great social problem is contained in "Idle Wives" featuring Mary McLaren, Phillip Smalley and Lois Weber. To those who have anticipated the showing of this feature, since the announcement of its unexpected arrival had been made, was granted complete satisfaction, the play fully coming up to their expectations. The fourth episode of "Liberty" was shown and grows more interesting as the plot proceeds. A light comedy rounds out an all-round good bill. M and D

BOWLING

A surprise was pulled off on the Y. M. C. A. alleys last night when the oncoming Expositor team was brought to a halt by the Pratt and Letchworth bowlers taking two out of three games played. Both teams put up a fair brand of bowling, the latter team showing great improvement over their recent performances. Bill Lister and Coleman Crowley were the pick, each having 492.

Light Six Roadster

Convenience in design and construction characterizes the roadster model of the McLaughlin light six. The body has an exceptional wide seat, is spacious and comfortable, has very harmonious and artistic lines and is carried on a 112-inch wheel base chassis.

The buyer of a roadster wants individuality, power, speed and flexibility to the fullest extent. This car, with its valve-in-head motor, developing 41 H. P. at 2500 R.P.M., offers fully 100 per cent of all these qualities.

The comparative light weight of the car, with its rapid accelerating, high speed motor, makes the roadster exceedingly easy to handle. The big four-inch oversize tires, extra long flexible springs and correct-length wheel base give to this car uncommonly fine riding qualities.

The body sets low on the frame and the sides are high, giving that depth and warmth and protection that so few moderately priced roadsters possess. The luggage compartment in the rear is exceptionally roomy, the dimensions being 44 inches long, 44 inches wide, with an average depth of 14 inches.

Player Over
to

Advertising and Public
the Newspaper

(St. Louis Sporting News) While we are not one of those who believe that the threats of going to seriously affect this season, still there was a disturbing note in the announcement of one of the associations the other day.

It would not be long until it would cut down its daily sporting news despatches, fact that on one night it carry one single sporting wire. The average newspaper, absorbed for the moment with Germany, overlooked the absence of live sports on the sport page. Sporting editors did not seem to them to be thinking. Supplying continues and the editors, pressed for space, capped by the high cost should "boil down" the news to a few paragraphs.

It would not be long until it would notice it then, no doubt he would accommodate him the new condition and turn attention to other news. It would be the great sorrow of club owner, of course, declining interest in the lack of publicity would. And the ball player would complain—not so much because Mr. Player was his daily boost, upon which and which he loves no less. And in time he would something else.

The two great factors that mine the salary of the major ball player are ability and money. He must have the goods. He must be extensively exploited. He must himself seldom want that he needs witlessures of himself in various newspapers in order to money, yet the fact is with newspaper help he would be for a great deal less. It does follow that if a player star he gets star space. Mar star is made to look like a print. Many a real star passed over. Just refresh memory a bit and you will truth of this.

Scruples Are More Than Pre-season dope tends every player considerably is written about him then the season itself helps mine his monetary return ball club. Newspapers are able to characterize the players' real boost the newspapers paid less to baseball salaries would so high. We do not say, press overdoes them, suggest that baseball writers tremendous and often unap influence in the player's situation, though the player himself not feel that way.

He usually argues that would be broke without that in pay he is entitled to can get, or something to the Newspapers in catering to demands of the hungry fans forced to make the player exalted being and it does him long to acquire that himself. Writings and pictures him look a wizard and so ball club has to come across not to offend public opinion presented in paragraphs and it will be generally admitted of the success of baseball due to the close and fatherly not altogether unselfish, the press pays to the game seldom hear a word that popularity of the individual player is due directly to the enee he gets from the same. Baseball clubs do not always rule, take it for granted to earn all the fine puffs though they would be dis just the same if their game constantly and extravagantly ed.

Yet frequently the ball indicate that they depend baseball writers for great Ball players usually feel a thing nice printed about the whole truth, nothing but and that the tributes they no more than they deserve seldom indicate that they any extent on writers, not We are not criticizing of the ball club in the attitude. We are musing on an phase of human nature. club looks for all the pub
