RHEUMATISM, SCIATICA

Strong Testimony of Emigrant Commissioner the Hon. George Starr, as to the Power of Radway's Ready Relief in a Case of Solis Rheumatism.

Van Ness Place, New York.

Dr. Radway—With me your Ready Relief has worked wonders. For the last three years I have had frequent and severe attacks, sometimes extending from limbs to my neck, and at times to both lower limbs. During the time I have been afflicted I have tried some of the remedies recommended by wise men and have been to find relief, but all proved to be failures. I have tried various kinds of liniments, ointments, and applications of liniments to my limbs, but none of them have given me any relief. Last September, at the request of a friend, I was induced to try your remedy. I was then suffering severely with one of my old attacks. To my surprise and delight the first application gave me relief, and the second gave me complete relief. I have since then used your Ready Relief in all my attacks, and it has always given me complete relief. I have since then used your Ready Relief in all my attacks, and it has always given me complete relief. I have since then used your Ready Relief in all my attacks, and it has always given me complete relief.

Granny's Talk to Young Mothers

"Granny" Chamberlain "Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to contagious diseases. It has been proven that the majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.

Mothers should never allow a cold to run for twenty-four hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be kept in the home where there are children. You may say that you have no confidence in cough medicines, but that is because you have never tried

Chamberlain's Cough Remedy

This medicine is thoroughly reliable and has stood the test of nearly half a century. No, it will not hurt the children—there is nothing in it that would even injure the baby.

Yours for Health —Granny Chamberlain

MILLION OF MILITARY AGE IN CANADA.

Ottawa, March 1—Information as to the number of men of military age in Canada was furnished in the House today to J. A. Ethier.

Sir George Foster told the Two Mountains member that the census population of the Dominion was 7,206,643; male population 3,821,995; male population from 10 to 19 years inclusive, 707,155; male population from 20 to 29 years inclusive, 756,349; from 30 to 39 years inclusive, 568,214.

According to these statistics, said George Foster 62 per cent of the male population from 19 to 40 years would remain in the country after the recruiting of 500,000 men of that category.

PRES. MACKINNON OF PINE HILL HAS ENLISTED

Halifax, Feb. 29—Another college president has joined a battalion of the Nova Scotia Highlanders now being raised for overseas service. Clarence MacKinnon, president of Pine Hill Presbyterian College, offered for service in the 112 Battalion, and his offer was accepted. President MacKinnon is one of the best known educationists in this part of the Dominion and a man of large influence. He will at once start active recruiting work, which will mean the gaining of many men who perhaps could not otherwise be secured.

The battalion which President MacKinnon has joined is the same as that in which President Cutten of Acadia is a captain. Pine Hill College has already sent more than fifty per cent of its students to the front, and Professor H. A. Kent, one of its faculty, is also in uniform.

Most of Canada's intelligent young farmers and farm boys can, and do, think deeply into the questions of the day. They have clear ideas on many subjects which, in the ordinary conversation between themselves and their fellows, they express without fear or trembling, but if called upon to express the same ideas from the public platform, the ideas are gone and the only thing the young speaker can think about is how quickly he can get back to his seat. The art of public speaking is not the easiest thing in the world to master but practice will work wonders. Any young man who is a good farmer, who reads and thinks can make of himself a public speaker.

With a debt of \$13,410,980, the Province of Nova Scotia is compelled to use more than one-quarter of its income in paying interest. Last year the interest demand was \$510,672 of a total revenue of \$1,953,301. As the total expenditure was \$2,073,671, there was a deficit of 120,069. New Brunswick's financial position is better than that of Nova Scotia in that it requires only one-fifth of the annual income to pay the interest demands, but business men in both Provinces must regard with considerable apprehension the rapid increase of the debt which already makes such a fearful drain on the year's revenue.

Hon. James McDonald, a member of the Nova Scotia Government, without portfolio died at West Bay on Thursday, aged 67. He was elected to the Legislature in the general elections of 1897, 1901, 1906 and 1911 and entered the Government in 1907.

Miss Elaine Borden, daughter of Rev. B. C. Borden, D. D., of Mt. Allison, went to Sussex last week to take charge of the handicraft work in connection with the classes being held in the agricultural school there for the Women's Institute.
