SUMMER BAND CONCERTS

Continued from 1st Page.

St. Clair street, provided they keep a sufficient space clear for citizens for business purposes.

Ald. O'Brien said that he would like to ask Ald. Cowan when the Industrial committee had met. He was a member of the committee and hadn't been notified.

Ald. Cowan—I have called up Ald. O'Brien every time, and he was out of the city. I don't propose that the affairs of the city shall be run slack. If the committee don't show up I just write the report myself.

Ald. Taylor said that a water main was to be laid on Sixth street before the new pavement was put down. The Fire Chief advised a hydrant at the rear of the Hotel Garmer.

This matter was referred to the Property committee, with power.

Ald. McKenough in reply to a query of Ald. Fleming, said that the Board of Works intended to put a new top on the sidewalk on Grey street from Queen to Raleigh streets.

In reply to the query of Ald. Fleming, the chairman of the Industrial committee said that the only case covered by Ald. Fleming's query was the Dowsley Co. They were required to hire 40 men by the terms of their agreement. They were now employing 38 men and had advertisements in several papers for more, but couldn't get them.

The Mayor suggested that the city engineer make estimates of the value of the plants of the Bell Telephone Co., the G. N. W. and C. P. R. Telegraph companies, and attend the sittings of the court of revision on Wednesday.

This matter was referred to the Finance Committee.

The Mayor also suggested having band concerts on park, Chatham now had a band that was an ornament to the city and the pride of citizens. There was no more popular amusement than band concerts in the Park.

Ald. Taylor—There is no cheaper amusement.

The Mayor—We have a good band and a good place to hold concerts. The city used to make a grant of from three to six hundred dollars.

Ald. Taylor—The band would be satisfied with a grant of \$200, and I do not see where a grant could be better expended.

Ald. Mounteer—I interviewed Professor Philip and he said the band were satisfied to play for whatever the council thought was fair. He said there would be from 24 to 27 in the band and I thought the council should pay for the services rendered. I would move that the band be paid \$15 per concert, no concert money. I think that is very reasonable. The motion carried.

Ald. Mounteer moved that the Tecumseh park be lighted every evening, and that the property committee be instructed to have it done. Carried.

Ald. Taylor feared that that would be too much of a strain on the plant. Ald. Mounteer—If the council will stand every night the soldiers drill it will stand it for the use of the general public.

The chairman of the Industrial Committee said that the Chatham Loan Co. was not satisfied with the flag stone pavement in front of their building, as repaired by the city. They threatened a law suit. The matter was referred to the Board of Works. The council then adjourned to the park.

LOCAL STRIKE

Situation in Reference to the Longshoremen's Strike—Unchanged.

The longshoremen strike is still on. Although some have gone back to work at the old wage quite a number, headed by Frank Crosby, say they will not go back at 20 cents an hour. Crosby says that a union is going to be formed among them and papers for it have already been sent for.

Notwithstanding the strike Piggott & Sons and Blonde Bros. are getting their boats unloaded at the old prices with their own men. The "Fox B. Olson," while coming up the river Friday, had one of her booms broken by the strong wind.

The police were informed yesterday that something out of the way might be done and to have a representative of the force there, but nothing happened.

Regarding Men's Straw Hats

"It is not enough to run," says the French proverb "one must start in time."

The saying is emphatically true for dealers in straw hats. One great reason why this store is so prominent in all kinds of hat selling is that we start in time. Just as soon as the styles are fixed,—our buyer makes a trip to New York, solely for the selection of straw goods. Here he meets the American manufacturers and the representatives of the best English makers, and thus every straw hat for these three stores is bought "on the ground floor." Not one in the great collection is marked above the prices asked in big city department stores.

Do you realize the advantage this way of buying brings to our customers? We have first selection of correct and gentlemanly goods at the fountain heads of style—no dependence on the whims or personal preferences of the wholesaler—and when the goods get here you pay us for them, in most cases, just about what we should pay a wholesale dealer if we bought that way.

You'll wonder at the values. We have surprisingly nice straws, both sailor and fedora shapes as low as 25c. From that point qualities run up to a real Porto Rican palm—Panama shape—a usual \$5.00 hat, but marked \$4.00.

Particulars later; meantime the hats themselves are all waiting for you.

Report adopted.

Report—According to resolution of council I examined into the case of Mrs. Peaker as reported by her advocate, R. S. Dunlop, and beg to report as follows: She lives in Northwood subdivision, appears to be about thirty years old, has three children not very young, said she had enough to

eat, was in debt for rent as well as to Mr. Dunlop. Worked when work was to be had, looked strong and able, did not complain of sickness. The evil spirits of laziness and dishonesty not only lurked in her miserable abode, but they seemed to rule the woman with a rod of iron, therefore I recommend that no assistance be granted at present.

No fees attached to this report, all of which is respectfully submitted.

A. J. DOLSON.
