Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency-Because of this and the uniformly a satisfactory results obtained by its use we recommend it as Canada's perfect baking powder . PRODUCT

U. S. NAVY KNOWS A GOOD THING

CANADA

THE ACADIAN received this week from some unknown friend a copy of the Man-ila Daily Bulletin, published at Manila-P. I., from which we glean an item of news that will be of interest to many of its Wolfville readers. The young officer referred to below is a grandson of the referred to below is a grandson of the late Dr. D. F. Higgins, of honored memory, and was a visitor here last summer for a ahort time. His father, Prof. J. E. Higgins, is a former Wolfville boy and Acadia graduate who has won success and his mother is equally well known here, a daughter of the late X. Z. Chipman, of this allows here.

Midshipman Ronald DeW. Higgins, son of J. E. Higgins, professor in the Los Banos agricultural school, a student at naval academy at Annapolis, holds the unique position of having commanded

Usually a naval officer must be at least 35 years in the service but young Higgins held the post for one week during August at the time of the practice maneuvers.

The New York Sun in its September 1

sue has the following to say of Higgins: Midshipman Ronald DeW. Higgins has occupied a unique position for a midshipman, that of squadron comman-der, for the last week. he being the first midshipman to perform such function.

Thirty-five years is given as the least period in which Higgins or any of his classmates is likely to occupy such a

position again.

Rear Admiral Newton A. McCully,
who commanded the midshipmen's
practice squadron this year, put a midpractice squadron this year, put a mid-shipmen is shipman in the place of every officer of the squadron for the last week of the cruise, instructing the officers not to interfere until necessity demanded. The midshipmen performed their work excellently. It fell to the lot of Midshipman Higgins to mount the bridge of the flagship, the North Dakota, and send out the orders to the other ships of the squadron. He performed his duties with notable success.

COLONELINNIS GIVEN A BANQUET

Centville Board of Trade Pay Tribute to Man Selected by Government to Inform Indian Officers of Canada.

Col. Robert Innes, who has been appointed by the Federal government to go to India to interest demobilized officers in immigration to Canada, was tendered complimentary dinner at the Cornwallis Inn under the auspices of the Kentville Board of Trade. A. E., McMahon, president of the Board of Trade, was in the chair and opened the banquet with a toast to "The King." His Worship Mayor A. E. H. Chesley followed with the pleasing address of welcone to Colonel Innes, who has been so highly honored by being chosen for this important mission. He stated the government had made a wise choice, as Col. Innes is a worthy representative for the Maritime Provinces. wise choice, as Col. Innes is a worthy re-presentative for the Maritime Provinces and Canada: He also extended a welcome to other guests of the evening, Hon E. H. Armstrong, W. B. McCoy, Colonel A. Montgomery, manager of Furness Wi hy Co., G. Herbert Oyler, of J. and H. Good-win Ltd., Rev. G. P. Raymond and others. Colonel Innes responded to the wel-come in an interesting address. He claimed the choice of the government was

claimed the choice of the government was due to his knowlege of conditions here, enabling him to act from first-hand in-formation. Having himself been engaged in farming and fruit-growing he could speak from experience, and impress on the people to whom he goes, the splendid opportunities that await them in this great Canada of ours. It was the proudest moment of his life when he learned he had been selected for this mission. His very effort will be expended for his

dress on the problem of immigration and stated that the local government would undertake its duties as soon as the Federal policy was delivered. Everything possible would be done to assist the good

Rev. G. P. Raymond followed in a orceful address on immigration, its pro-

blems and benefitsGeorge E. Graham, general manager
of the Dominion Atlantic Railway, in
his address congratulated Col. Innes on
his appointment. His address was timely
and optimistic, emphasizing the wonderful opportunities for increased immigration and the need of a progressive policy.
He wished Col. Innes "Godspeed" on his
important mission.

Col. Montgomery followed in a fine address emphasizing the need of co-operation and faith in the resources of this great fruit growing country. Short speeches were also made by Dr. A. F. Miller, Rev. R. B. Layton and others, closing with timely remarks by President McMahon, breathing the spirit of optim'sm and a firm belief based on true knowledge of unlimited possibilities in farming and fruit growing in this province.

HOMEY PHILOSOPHY FOR 1923.

How often do we say to another, "Well, you are welcome to your opinion!" And how often do we mean it? Not once! Under the skin we are peeved at the other fellow's opinion. Yet what a humdrum world this would be if it were not that humans have different notions about

who is to marry Lady Joan Mulho a charming war widow.

BIRDS INCREASED IN CANADA

With few exceptions migratory ga fowl have increased to a marked degree in Canada during the last season accord ing to reports received by Commissioner
J. B. Harkin, of the Canadian National
Parks from migratory bird officers and
wardens all over the Dominion. In the
east owing to the heavy rainfall and late breeding season certain species did not hatch with as great success as in previous years, but the western province report increase in practically all species.

A remarkable feature of the census

being taken of the increase of bird life under the Migratory Birds Convention ducks. All over the Dominion there appear to be unprecedented numbers of these birds and in some sections of New Brunswick especially they are reported to have appeared in exceptional flocks on the rivers and inland retreats. Cormorants, gulls, terns, cranes, geese, brant and plovers have all show marked increases while in certain sec-tions Eider duck have returned to breed-ing grounds heretofore abandoned.

Nova Scotia also reports an increase in its waterfowl, although the heavy rains in certain sections caused the loss of many eggs and young. However, in other parts large broods were successfully reared, one duck being noticed with as many as twenty-four ducklings. A similar increase is reported from Princ Edward Island.

In Quebec the Eider ducks did not de so well, in many localities no broods being raised owing to the unreasonable

weather. However all other species of waterfowl hatched sucessfully.

In Ontario, as well as in the other eastern provinces, shorebirds are scarce Black ducks, millards, green-winged teals, mergansers, loons and wood ducks have peen seen in large numbers.

All through the west migratory birds

how an increase, with the waterfowl ading the way. In Manitoba mallards and black duck are abundant, while in Saskatchewan geese have been seen in large numbers Alberts's wild fowl is expected to report a good sease

MAIL YOUR CHRISTMAS PARCELS EARLY

people are mailing an unusual number of letters and parcels, too, at this season, and if they all pile up together the last few days, it is impossible to get everything handled and delivered on time, and somebody is bound to be disappoint-ed. Mail early, and see that your friends get your Christmas greeting before the day's festivities are over.

Eddys matches are used in every nook and corner of Canada --
