#### THE HIBRALD.

FREDERICTON, JULY 15, 1893.

THE GREAT PHYSICIAN. The dispatches say that sir Charles Tupper is on his way out to Canada. Great care is also taken by the tory press to spread abroad the impression that he is It is always in response to a Macedonian cry of distress from his party at home that the knight of Cumberland comes over the sea. Sometimes it is on the eve of an election, and sometimes his coming must have injured her. precedes by a short time a change in the policy of the party or the constitution of the cabinet. What he is coming to do drowning, as published in the Evening this county who were saddened at the just now, of course, not being in the Missoulian of July 7th: secrets of the powers that be, we cannot minister to the party will depend not so much upon the conditions of the patient, as upon what a careful feeling of the pulse of the country indicates to be the general trend of public opinion. through parliament at a rate that would make the hair of an engine driver stand on end. The Grand Old Man is evidently determined not to have any humbugging about the passing of his pet measure. When he thinks there has been talking enough over any section, or when he thinks it best not to discuss it at all. he simply moves the chairman to apply the cloture, and it goes right through as a with them. matter of course. This method, which seems somewhat strange to those who do not understand its merits, is perhaps the only means by which the bill could be got through the committee of the whole stone. But while it will serve to pass the bill through the house of commons it will not work in the house of lords, nor is it by any means certain that it will satisfy the people, who will no doubt sooner or later be called upon to say whether home complicated and embarrassed by the in-

THE negro question is causing widespread uneasiness in the south. Every once in a while some brutal negro outrages a white woman, and thereupon the people of the locality proceed to burn, the stream some distance down, but, realshoot or hang the culprit. The justice that overtakes the offender is swift, but unfortunately there is sometimes suspicion that the victim of the avenging mob is not the guilty party. To those who know nothing of the negro question as it exists in the south these lynch law executions seem barbarous in the extreme. Those who are in position to know whereof they speak, however, say that this is the only effectual way to keep the negro in restraint. The natural process of the law, they say, has no terrors for him-It seems strange, nevertheless, that the evil in place of being extirpated by these summary executions seeems to be rather on the increase. The peculiar characteristics of the negro may have something to do with it.

THE question as to whether or not the World's Fair is to be opened on Sundays, which is causing so much controversy among those interested, seem's to be solving itself. The fair has been opened to the public for two or three Sundays, and working, after assistance. Going to his the attendance is so far short of what was house after ropes, Mr Wilkinson saw two expected that the management have about made up their minds that the majority of the accident occurred, and calling to them the people prefer to rest on the Sabbath he procured their assistance and they day. ### The Fairville Fire.

Fire has again scourged the village of Fairville, St. John Co., after a respite of only a year since the last conflagration there. The fire started at 4.30 Monday afternoon in a barn in the rear of the Currie hotel on the corner of Main street and the Milford road and the high southwest ward. Milford road, and the high southwest wind so rapidly fanned the flames that in less than three hours nearly four acres of ground had been burned over and more than forty houses completely destroyed, while several others had been badly damaged by fire and water.

Beginning at the Currie hotel, the fire burned almost every building in the section from Milford street along Main to Station, down Station to Franklin, along Franklin to Maiden lane, thence to Prospect street and back to Milford road, about fifty yards from the hotel

dences.

Besides these, there were about fifty dwelling houses burned. The fire covered eath, which is perhaps a true one. He same ground as that of a year ago, and many of the buildings burned were new within the last twelve months. It is hard to estimate the total loss. Some put it at \$75,000, others at \$125,000, and still others at \$150,000. The insurance was very small. Fairville has practically no fire protection, and the insurance rates are so high there that very many owners prefer to carry the risk themselves. This is the. third time Fairville has been visited by fire
