### WHEAT SITUATION IN SOUTH IS BAFFLING

(Continued from Page One).

Spring Wheat Takes Jump. The spring wheat, which was sown has been slow of growth. due to the cool atmosphere. It has picked up wonderfully during the past picked up worderfully during the past few days, however, having derived plenty of moisture from the snow storm of the later part of April and benefited by a considerably higher temperature. Spring wheat will be sown as late as the middle of May in the Leibbridge district. Hundregs of acres are being sown now on this season's breaking. It is said that on hundred and twenty steam plow outfits have been sold here within the past two months. With these turning the sod at an average of a least wenty acres a day some tangible evidence can be had of the amount of spring breaking there is being done. The horse is beginning to see the last. The first of the powing matches with a plowing days. Plowing matches with the first of the property of the first of the property of the first of the property of the celebration arrangements in various season's breaking.
