

A CLEAN WATCH
means good time to you for years to come. True economy in a time-piece lies in cleanliness. The delicate parts doing indescribable work will soon wear themselves to ruin, destroy their high finish and perfect fit when running in accumulating dirt and rancid oil. It will cost you nothing to let us examine it.

The beginning of "Paisley Flour"
The SURE raising powder
was when Brown & Polson discovered that the addition of a proportion of their Corn Flour to the ordinary flour when making scones, buns, pastry and cakes, made a great improvement in added lightness, fineness and digestibility.
To the Corn Flour were added raising ingredients of the highest purity, resulting in the production of a new raising powder, which by its ease in use and improved results has marked an advance in home baking.
Paisley Flour—the sure raising powder—is sold in 4, 14 and 28 cent tins ready to mix, part to 3 parts of ordinary flour. The 28 cent tin will raise 7 lbs. flour.
