DOMINION PARLIAMENT.

OTTAWA, April 26.

Sir John A. Macdonald laid on the table the correspondence with the Imperial Government respecting the Fening hards a specific Resident Commission Medical Sir G. E. Carder introduced a bill respecting the Canada Pacific Railway. The Covernment was bound by the terms of union with British Columbia to build this reso, Merchants, Montreaj, Senator Smith, Frank Smith & Co. Toronto; allway, and to commence it within, two

amin with perist commence it within, two years from the date of union, and complete it within ten years. They were also under obligations to commence the line simultaneously from each terminus. British Columbia on her part, agreed to give towards the railway twenty miles of land on each side of the line. Then there was another condition: that the line should not be built by Government, but by a subsidized company, and that it should be run by a company. The bill also provides that two companies might amalgamate for the purpose of building the railway. The Government, however, would require that any codipany undertaking toxuald, it should have a capital of tenjanilifion of dollars, with ten per cent of that amount paid into the hands of the Receiver General. The Bill would also provide that in ease the, Government could not agree with any company, the Government would be authorized to receive the offers of capitalists to build the railway. And to give them a charterunder Orders in Council based on the general railway Act. The Bill had therefore a threefold character. The Government would prefer that the railway should be in the hands of once company. Therefore the Government proposed to have at their disposal 50,600,000 acres of land, in order to be able to make an agreement with that company. The land was to be granted in alternate blocks of twenty miles in depth to the cappany. The Government would prefer that the cappany. The distance, as would be seen from the reports of the Exploratory Survey to be brought down from Lake Nipsissing. The distance, as would be seen from the reports of the Exploratory Survey to be brought down from Lake Nipsissing to the Pacific const was about 2,500 miles, or at the atmost, 2,700. He now came to the more grant. He would say that the principal burden which would fall on the country would be the land grant. The Government asked for the small and modest sum of \$30,000,000. (Hear, hear, and laughter.) By the sale of the land they espected a great part of this sum would be reinbur

Breakfast—Epps's Cocoa — Grateful and Comporting.—By a thorough knowledge of the natural laws which govern the operations of digestionand nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately favored beverage which may save us many heavy doctor bills.—Civil S.—icc Gazette. Made simply with beiling water or milk. Each packet is labelled "James Epps & Co., Homeopatt' "Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk.)
