Manufacturers and Wholesale and Retail Dealers in Furniture

... them for pasturage, as it was heaved out by the frost in the spring.

WINTER WHEAT.—There was a large breadth of wheat sown last fall, and it promises to be a good crop. It is entirely free from the pest that usually assails it; but owing to the wet weather there is quite a large quantity of smut and some traces of rust. If the weather continues favourable, the average crop will be about 30 or 35 bushels per acre, while some land will give considerably over that figure. Your correspondent saw a very fine field belonging to Wm. Murdock, which will yield close on 45 bushels per acre if it does not lodge, which it is likely to do. Mr. Muir, opposite, will have a good yield. Wm. Mortimer has also a very fine field which will go about 35 to 40, and several others looking equally as well.

SPRING WHEAT.—This crop exceeds anything that has been seen in this section for years, and if the weather is favourable there will be a very heavy crop.

BARLEY.—There has not been much barley sown, but what there is appears to be a very heavy crop, tall and well headed.

Oats will be a very heavy crop this season, being close on the ground and rank.

Peas are also giving indications of a very heavy crop.

POTATOES.—This crop is looking very well, but how the fight will terminate between the farmer and the potato bug time alone will tell. The bug is very destructive, and the demand for Paris Green is consequently heavy.

TURNS promise well, and to all appearance will be a fine crop.

LARGE FARM.—Your correspondent visited the farm of Mr. Hugh Roberts, Reeve of Pilkington, last week. He farms 600 acres of very fine land, on which he has a fine stone house, commanding a good view of Elora. The barn is 75 x 109 feet, with fine stabling below. The crops look well. On the place are 40 acres of winter wheat, which will yield from 30 to 35 bushels per acre. It is of the Dehil and Treadwell varieties; spring wheat, of which he has about 60 acres will yield over 25 bushels per acre. Some of the meadow will cut 3 tons of hay to the acre. The turnips are the best I have seen.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of diabetic articles, at their works in the Egerton Road, London. See article in Cassell's Household Guide.

The Governments of Austria and Russia have agreed to open negotiations with the Sublime Porte, looking to the recognition of the independence of Roumania by Turkey.

FOWLE'S PILE AND HUMOR CURE.—This justly celebrated remedy has more evidence of real merit than any other preparation for Piles in existence; the best evidence in its favour is that "never fails to cure," which assertion thousands who have been cured will vouch for and confirm. It also cures scrofula, salt rheum and all diseases of the skin. (See special notice.)
