ple's Society.

The home of Mr. A. J. Elliott was the

when at 6:30 o'clock Mr. Jas. Tanner, of
St. Thomas, and Miss Annie Elliott were
made man and wife, the ceremony being
performed by the Rev. J. W. J. Andrew.

The groom was a respected resident of
Aylmer for a number of years, and the
bride, who has lived here all her life, is
exceedingly popular with a large circle of
friends. They will be followed to their
home in St. Thomas by the best wishes of

Cleveland frames are entirely cleaned from
spelter by a new sand blast, which is the
only way to preserve the original strength of
tubing. The usual way is to immerse them
in an acid solution strong enough to eat the
spelter, and which more or less eats the
tubing both in and out, which necessarily
weakens the frames.

Farmers should watch the "Farmers
Want Column" in THE EXPRESS all the
time, but especially at this season of the
year, when it will be found the cheapest,
easiest and most effective way of securing
or disposing of any reasonable article or
animal.

Mr. Stephen Pettit, of St. Thomas, for-
merly of this place, was badly shaken up on
Thursday morning last, by the giving way
of a scaffold on which he was working,
throwing him to the ground, a distance of
twenty feet. His head was badly cut, and
he was unconscious for some time. No
bones were broken, however.

As no move has been made towards a
celebration of the 21st of May in Aylmer
this year, there will probably be none held
here. Most of the business men to whom
we have spoken on the subject, seem to be
of the opinion that it is just as well to let
it drop for one year at least, and it will
be likely to be more appreciated another year.

On Monday morning last, just east of
Yarmouth Centre, an iron on the tongue of
the stage going to St. Thomas, gave way.
There were eight persons in the stage, and
they had a narrow escape. The rig was
overturned in the ditch, but all escaped
with slight bruises. The horses ran into
the yard of Mr. Jacob Ostrander, after
becoming released from the rig, which was
quite badly damaged.

Mr. Cornforth, who has carried on a suc-
cessful business in St. Thomas for a number
of years, has purchased the stock of Mr. P.
A. Brooking, and will shortly remove his
family to Aylmer, and become a permanent
citizen. He intends to increase the stock
and add several new lines. He will also
engage an artist, and push the photograph
business. Mr. Cornforth will make a good
citizen, and we extend to him and his
family a hearty welcome to the best town
in Ontario.

During the fire at the residence of Mr. A.
J. Sanders last Thursday morning, someone
stole his watch and chain. A meager case
of stealing could hardly be conceived, and
if the thief is ever detected, as he certainly
will be if he tries to dispose of the watch
within a good many miles of Aylmer, he
should be sent to the full extent of the law.
The watch was a silver one, and had Mr.
Sanders initials on the back of it. A. J. S.
The party who has it, if he is wise, will see
that it is returned at once.

For a medium price nothing equals a
Yale bicycle. E. L. Brown, agent.

The special attention of farmers is called
to the fact that the Agricultural Society
offer the following prizes for sugar beets at
the fall exhibition: 1st prize \$5.00, 2nd
\$4.00, 3rd \$3.00, 4th \$2.00, 5th \$1.00.
Conditions: A written statement
must accompany each exhibit show-
ing name of beet, when planted, kind
of soil, how prepared, when arrived at
maturity, and any other point in the
cultivation of importance. All beets ex-
hibited to become the property of the
Association for the purpose of having them
tested. These prizes are large enough to
encourage anyone to cultivate a quantity
of this root, and there is no better root
grown for feeding cattle.

You can save money by buying your
seeds at J. E. Richards'.

The box social at the home of Mrs. W.
L. Brown on Thursday evening last was a
huge success. The boxes were beautifully
decorated and sold as high as \$1.50 each.
Several fellows are reported to have lost
their best girl in the bidding, some other
fellow going above their pile. One nearly
fainted when, after going to the limit of his
cash on hand, he saw another heartless
wretch go him 5 cents better, and he had
to sit back and see his fair young friend
pass over to another for the evening.
Another had sand enough to go on bidding
when he knew he had not the available
cash to put up. He is said to have pawned
his watch to get the needed balance from a
friend. There was plenty of fun, however,
and all had a good time.

Conspicuous among the horses shown at
the fair here was Almedium, the celebrated
sire of early speed. Mr. Scott has decided
to put this horse on a short route, and will
send him to Aylmer once a week during
the season. Almedium ought to be a
great acquisition to breeders of good horses
in this section.

The Botanical Association met on Friday
evening last. Mrs. Backus gave a well
prepared paper on "The Relation of Botany

of St. Thomas, will give a paper on "The
Life History of a Fern." Members are
requested to bring their text books.

gratulations to Miss Alice Martin on the
brilliant termination of a most successful
course of study at Queen's University,

is certainly very creditable to her as well
as gratifying to her friends. It is also an
honor to the Aylmer Collegiate Institute,
which has turned out so many brilliant
scholars.

Ride the easy-running "Genetron."

On Thursday last, shortly after dinner
fire was discovered in the straw stack at
the barns of Mr. S. Hemmingway, 9th
concession, and although Mr. Hemmingway
was in the barn at the time, and with
others present did all in their power to stop
it, his large and handsome drive barn,
together with the other barns and sheds,
were soon a mass of flames. So fierce did
it burn, and so rapid was its progress, that
nothing but a few bushels of grain could be
saved. The loss will be a heavy one,
amounting to several thousand dollars, with
only \$700 insurance. There was in the
neighborhood of 1000 bushels of grain
destroyed. A new threshing machine be-
longing to Mr. Richard Davidson, was
stored in the barn, and was destroyed, no
insurance.

Do not make any mistake and commence
trout fishing on the 1st of May, as that
day is included in the close season, and the
2nd day of May is the first day on which
trout fishing is legal. There is nothing
like being manly in sport as well as in
business.

Mr. A. W. Pierce has shipped in 90 tons
of baled hay during the past few weeks,
and has 12 tons on the road now. The
apparent scarcity and high price of hay in
this section was the cause of it, and if it
turns out that the farmers have lots of
hay left on their hands over summer,
it will be their own fault.

Messrs. Hutchinson & Thomson put an
ad. in the "Farmers' Want Column" of
THE EXPRESS last week of a team of work
horses for sale, and before 10 o'clock on
the morning of issue the team was sold
and on their way to Belmont. Four other
men who called before noon had to be
turned away. There is no better or
cheaper way to dispose of anything saleable
than through THE EXPRESS.

Dr. and Mrs. Smith leave on Monday
next for New York as announced last

pick up all the latest and best ideas to be
gathered in the metropolis of America in
the way of advances in his chosen pro-
fession.

Many admirers in this section of that
well known sire, Lapidist Billy, will see
something that will please them if they
look up the ad. of Mr. Alvin Parker on
another page of this paper. Al. now has
two fine horses that he has just reason to
be proud of, viz., Lapidist Billy and
Albert III, the latter being the equal of his
sire and grand sire in every way, which is
all that need be said to those who know
the old horses.

Leman Hawley, the 14-year-old son of
Mr. and Mrs. W. Z. Hawley, of Mount
Salem, has been missing from his home
since Sunday, the 16th inst., and although
Mr. Hawley has driven all over the
country, no trace of him can be found. He
left on his bicycle on Sunday afternoon
without saying a word to anyone of his
intentions, and was seen about a mile west
of his home, since which all trace has been
lost. He is of fair complexion, blue eyes,
and was dressed in dark blue coat and
striped pants. His wheel was a Crescent.
No reason can be imagined for his strange
conduct, as there was no trouble of any
kind at home, and he gave no intimation
of his intentions. Any information regard-
ing him will be gladly received by his parents.
