

Blood Poisoning

Mrs. Mary E. O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy five years ago, and soon thereafter she broke out on her head, arms, tongue and throat. Her husband came out. Her husband spent hundreds of dollars without any benefit. She weighed but 75 pounds, and saw no prospect of help.

Hood's Sarsaparilla
and now a well woman. I weigh 125 pounds, eat well and do the work for a large family. My case seems a wonderful recovery and physicians look at me in astonishment, as almost like one raised from the dead.

HOOD'S PILLS should be in every family medicine chest. Once used, always preferred.

The Alerts to Blossom Out in New Suits.

The Detroit Six Days' Walking Match a Failure.

Suggestions for the London Relay Bicycle Race.

PEDESTRIANISM.

A FIZZLE.
DETROIT, April 8.—The walking match ended last night, with the scores as follows: Dick, 440-8; Messier, 425-1; Smith, 415-2; Stevens, 413-6. If the rules are lived up to, Dick and Messier take all the money, but Smith and Stevens were probably paid to stay in to the finish. The proceeds above the rent and music are said to have been \$1473, so the walkers will not get enough to see them out of town. Many of the employees will have a hard time getting salaries, and some other expenses will not be paid unless the manager goes further into his own pocket.

BASEBALL.

THE ALERTS IN NEW ARRAY.
The patrons of the Alerts will find their favorite nine clothed in a manner becoming their youth and beauty this season. The old red and black uniforms, which were anything but handsome, will be discarded for natty suits of blue, relieved by a dash of white here and there. The club's name will be worked in the latter color across the jerseys. In cold weather white sweaters will be worn. To meet the expense the club has printed books of tickets, which they are selling at a reasonable rate. This is a good chance for their friends to give them practical encouragement.

CRICKET.
The Alerts are negotiating with a Detroit professional team for a game here on Dominion Day (July 2).

REORGANIZATION OF THE PARKHILL CLUB.
A meeting was held in the Mechanics' Institute room, Parkhill, the other evening for the purpose of organizing a cricket club. The following officers were elected: Honorary president, Mr. L. Rogers; honorary vice-president, Dr. Caw; president, E. M. Bigg; secretary-treasurer, C. M. Wedd; captain, E. Bishop.

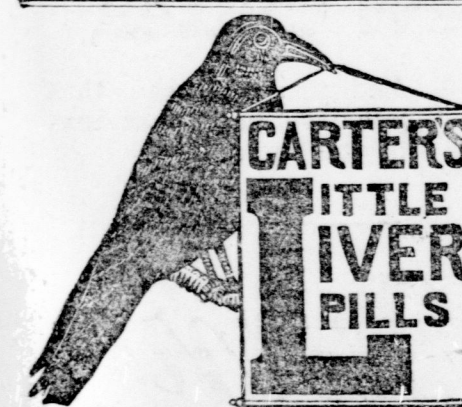

THE LONDON RELAY RACE.
Dr. W. N. Robertson, president of the Stratford Bicycle Club, suggests that at London in the bicycle relay race, one staff of riders could take the southern route, going by way of Woodstock and Stratford, while another staff could go by the northern route, taking in St. Marys and Stratford, thence to Hamilton or on to Toronto. This would enliven the competition between the two sets of riders, and be a veritable race from London to Hamilton.

BOWLING.
CANADA'S CHAMPIONS BEATEN.
NEW YORK, April 8.—The international bowling match between the Victoria Rifles, champions of Canada, and the Americans, of Newark, N. J., champions of the American Amateur Bowling Union, at Brooklyn last night resulted in a victory for the Americans by a score of 3,533 to 3,182. Four games were played, the first two under American rules, with a team of five men, and two under Canadian rules, with six men. The Americans won all four games, as follows: First, 810 to 656; second, 831 to 751; third, 924 to 862; fourth, 968 to 913. A banquet followed.

Other stakes and purses will be announced as the usual time.

A \$5,000 PURSE FOR PACERS.
BUFFALO, N. Y., April 8.—Secretary Hawley, of Buffalo Driving Park, announces an addition to the programme of the grand circuit meeting to be held in this city. It will be a sensation of \$5,000 for pacers in the 2:09. The purse will close May 1, when the first payment, \$50, will be due and horses must be named.

CHICAGO, April 8.—Mary Ellen Lease, of Kansas, who arrived in this city yesterday, said: "I am in Chicago to organize a Masonic order for women. I have decided that the Masonic order has been of such wonderful benefit to men—so wonderfully uplifting and educational—that it is certainly a pity to deprive women of its benefits. I do not propose to organize anything antagonistic to the present Masonic order, but the organization will be made in such a manner that they will cooperate with us and approve of it."

A Better Outlook.

NEW YORK, April 8.—Yesterday's bank statement was a proper and thoroughly intelligible index to the week's financial movement. It was in all respects encouraging. The loan increase of \$6,627,900—the largest in many months—means what indeed was evident before, that securities lately purchased in quantity have been guarded by capital, and very largely taken out of the market. Specie and legal tender holdings of the clearing house institutions have decreased \$1,114,000, which suggests at any rate a decided check to the eastward flow of idle money. Reports from the trade centers, however, are favorable only negatively if at all.

THE PEOPLE'S FORUM.

A Cyclist's Protest.

To the Editor of the ADVERTISER: Does your council wish to prevent bicycle men from visiting your city? If they do, they are going about it the right way, and wheelmen will avoid London as an unhealthy place, and your clubs might as well quit the idea of making a success of a 24th of May meet, or of ever getting the C. W. A. meet, and all on account of one unfortunate wheelman coming to grief. It is all right to protect pedestrians and drivers, but at least give the bicycle rider a fair show, I am, Sir, OX HILLMAN.

WORK AND WAGES.

Probable Close of the Hamilton Iron Workers' Strike—Other Labor Matters.

MONTREAL, April 8.—The Montreal carpenters have been victorious in their agitation for the nine-hour day. Nearly all the employers have signified their willingness to accede to the request of the union, 20 cents an hour and nine hours to constitute a day's work. It was reported at a recent meeting that out of 102 shops 70 were willing to adopt the new scale from May 1 next; 32 are yet undecided. It is the manly and open manner in which the carpenters' union has conducted the agitation that they are now engaged in that has won for them the sympathy of all classes. The union has a membership in Montreal of 1,500, and is daily increasing.

CONNELLSVILLE, Pa., April 7.—John McCloy, the fugitive labor agitator, charged with complicity in the murder of Jos. H. Paddock, was arrested here last evening.

It is reported that a complaint has been made to the commissioner of immigration.

BERING SEA.

The British Bill Creates Adverse Criticism.

After All, However, the Difference is Merely One of Form.

WASHINGTON, D. C., April 8.—The second reading in the House of Commons of the Bering Sea Bill, which exempts from forfeiture Canadian vessels which had already sailed caused astonishment in the State Department circle.

The exception in the bill, it is contended violates the agreement, and it is said the United States has already asked an explanation.

The matter came to the front in the Senate yesterday, when Mr. Hoar had read the dispatch from London giving the substance of the British regulations which relieve from responsibility any sailor who can prove his departure from port before the scheduled provisions were proposed. Mr. Hoar asked Mr. Morgan for information, saying that if this was true the situation was dangerous, and the United States regulations would require remodeling.

Mr. Morgan replied that he knew nothing definite.

MERELY A MATTER OF FORM.

LONDON, April 8.—In an interview on the Bering Sea question last evening Baron De Courcel, who presided over the tribunal of arbitration, said the difference between the English and American bills was merely one of form. He felt convinced that both Great Britain and the United States would persist in their intention of giving full effect to the award of the arbitrators.

Ambassador Bayard said to-day: "The fact is that the United States has passed a bill in accordance with the spirit of the arbitrators, whereas the English bill may be subject to amendment. The first idea was that the two bills were as similar as possible, but some of the Canadians doubtless are displeased."

SOMETHING DROPPED!

Nearly Twelve Acres of Scranton City Settled Several Feet.

SCRANTON, Pa., April 8.—Nearly twelve acres of a closely-built section of this city settled several feet last night by reason of an enormous cavern of the abandoned workings of the Leggett Creek mine. Many doors crushed together so tightly that it was impossible to open them, and the new school building, recently erected at a cost of \$40,000, is in imminent danger of destruction.

The House of the Good Shepherd, erected at a cost of \$60,000, is also in the vicinity of the cavern, and will be affected if the crash becomes more serious.

Opium Smugglers Nipped.

BUFFALO, April 8.—Chas. Kennedy, Ed. Patterson and George Henderson, opium smugglers, were arrested last night while delivering to a Chinese supply house about 400 pounds of opium which was wrapped up in Vancouver, B. C., newspapers. The duty would be nearly \$5,000.

All three prisoners were well supplied with money. Patterson belongs to Victoria, Ont. Henderson resides in Windsor, Ont., and is said to have operated very extensively between that port and Detroit. Detectives have secured an additional package of smuggled opium and are looking for more.
