Rapid Progress Being Made in Wilkesbarre District.

WHAT MR. JOHN MARKLE SAYS

Some Miners Were Asked to Sign Contracts and Refused-Non-Unionists Beaten.

Wilkesbarre, Pa., Oct. 22. - Midnight. - Rapid progress is being made by all the coal companies in the anthracite region toward a general resumption of coal mining. The suspension officially ends at 7 o'clock tomorrow morning, but the quantity of coal that will be mined this week will not be great. It is not believed 25 | the Countess of Minto. per cent of the normal production will be reached until some time next week. There are a number of mines that will not be in condition for operation for several months, and there are others that will not be ready for men under two or three weeks. The day was devoted to a general inspection at most collieries to see what is needed in the way of repair-ing before the men can cut coal. Thousands of men of every class made application for work today. Under the decision of the convention those indirectly employed in cutting and handling coal cannot return to work until tomerrow, but workmen who are needed to make repairs and otherwise place the workings in condition for operation were reinstated today wher-

One of the developments of the day was the great number of men who have been employed throughout the strike who left their places today and returned to their homes. Hundreds were paid off by the several coal companies in this valley, and the same is true of The British Party Loses a Seat in the other regions. Among these were who will return to the offices of the coal companies; men who were employed in other occupations and were thrown out of work on account of the strike; men who were strikers but went back to work in other parts of the region where they were not known and will now return to their own localities and try to get work in their old places, and some coal and tal of Somaliland, British East Africa),

# TORIES WOULD WELCOME TARTE

Ottawa Citizen Invites Him Into the Fold.

# STATEMENT BY EX-MINISTER

He Denies That His Resignation Was Demanded by Sir Wilfrid Laurier.

Ottawa, Oct. 22.-The Ottawa Citizen Manager Mothias was fatally injured, this morning invites Mr. Tarte to join and Miss Louise Smith, a teacher, is the Conservative ranks. It argues that his retirement will be injurious to the Liberal party and declares: "Whether Wednesday morning and said farewell he resorts to the slower and less satisto them. Afterwards he took an official factory method of instituting a third adieu of the Governor-General and party or the more effective and decisive action of allying himself with Driver Who Shot His Employer Acthe Conservatives, with whose views he is practically in accord, the result

will be the same." MR. TARTE'S LATEST. In an interview, published in the Ottawa Citizen, Mr. Tarte says:

"The Prime Minister states in his etter that on Sunday he intimated to me that I would have to give up my portfolio. Sir Wilfrid is, unintentionally, no doubt, in error, as to that. He did me the honor to call upon me Sunday, and we discussed the position. I frankly admit that he found fault with my utterances. I explained to him-not for the purpose of having him to retain me as his colleague, but for the sake of argument and truththat I had spoken in his presence exactly as I had done since he left, and this statement of mine he did not deny. In point of fact, it cannot be disputed. However, after having talked matters over, I told him that he might take my resignation that very moment. He answered me that he was not in the habit of coming to hasty conclusions. I have the greatest respect for Sir Wilfrid Laurier. He and I have always been good personal friends. Well, I manded \$60, which he claimed to be agreed to wait, as requested by him, due him as back pay. Harz refused to although I told him that I did not see any possibility of agreement. On Mon-day morning I collect that there was any credit for Coughlin. A day morning I called upon him at his dispute followed and Coughlin shot office, after I had been telephoned by and killed the older man. him to do so. There I repeated to Sir Wilfrid what I had said the day beon the way to Toronto I made up my tacked by Harz, who seized the spoke mind it was no use leaving things in of a wagon wheel which he kept in the abeyance. Mr. Tarte declines to admit he has made a constitutional mistake, and says: "I cannot admit that I have said in the absence of the Prime Minister what I have not said repeatedly in his presence, but I fully recognize that, as he says, the Government had not come to a definite conclusion as to their future policy. GOOD FOR LIBERAL PARTY Mr. Tarte's Retirement Will Strengthen Its Standing

Montreal, Oct. 23. - Ex-Mayor Prefontaine, M. P., who has been mentioned as a probable successor of Mr. Tarte in the cabinet, was asked whether the resignation of that gentleman would disorganize the Liberal party. He replied, "On the contrary. I unhesitatingly say that the removal of Mr. Tarte will make for the strengthening of the party, and especially in this province, where I verily believe Mr. Tarte has not a single partisan. You may remember the time that Mr. Tarte was taken into the cabinet. Well, I have been all my life upon the best terms with the financial and industrial interests of this country, as a public man should be, who desired the prosperity of the country. When the Liberals were returned to power in 1896 these interests, or the representatives of these interests, expressed to me this feeling: 'We respect Sir Wil frid Laurier: we believe him honest, but there are certain elements in the cabinet which we distrust.' And this distrust has never ceased."

HAS NO FOLLOWING. "It was thought that Mr. Tarte had great power in Quebec? "An utter fallacy. He has no following whatever. Why is the Government so strong in Quebec? of the personality of the Premier. It is not too strong an expression to say that Sir Wilfrid Laurier is actually be loved by the mass of the people in this

province. "Mr. Tarte talks of a high wall against the Americans. Well, that is stupid, for there are things which we must get from the Americans. I believe, in this country, in a moderate degree of protection, and I believe we will never increase our industries if we do not offer a little help at the start. And I may say that when I appeared in Maissoneuve I frankly told the peo-ple—the people of an industrial suburb that I was in favor of protection to a moderate degree. And I may tell you more—that I had the authority of the Premier for saying so. Nay, more-I had his promise that if there was any doubt on that score he would come to the division himself and say so. But, then, that does not mean that the revision which took place was not satlisfactory and should not be lived up to
