pointed to the fact that an era of prosperity had set in. The Mann Co. make a specialty of spring-tooth machinery. They were the originators and patentees of the fits and only spring-tooth helper, attached to each of the Giant cultivators, which has been often imitated but never equalled by any other device. The company have been in business in Brockville for 20 years and have established a reputation for high-grade tillage and seeding machinery extending to all parts of the world. Our representative was shown invoices for two cars of machinery which were being shipped to Great Britain while he was there, and orders for at least twenty more carloads were being filled. In all countries where high grade machinery is required there is a demand for the "Giant" machines, and at the present time local and foreign trade has stimulated demand to such an extent as to fully tax the resources of the firm. All hands are kept constantly on the move in order to keep pace with the season's trade. Their advertisement appears in another column but we suggest that our friends should procure a copy of the firm's illustrated catalogue, which will be sent to any address free on application.

SEED PREMIUMS.

**Choice New Varieties of Field
and Garden Seeds Absolute-
ly Free to the Readers
of "Farming."**

We have made arrangements with Messrs. John S. Pearce & Co., of London, Ont., which enable us to offer the choicest new varieties of this season's seeds as premiums for new subscriptions. We are assured that these seeds are selected from the best stocks which it is possible to procure. Some of the varieties are not only choice but rare, and those who desire to obtain them should act promptly, as the supply of these is limited and will very soon become exhausted. Every reader of FARMING can easily obtain the requisite number of subscriptions if he will try. It will not only pay as an immediate and present means of obtaining something really valuable but enable those securing the seeds to make large profits from the product of them in the future. Strike while the iron is hot.

"The Pearce" Potato, grown from seeds imported from Texas, claimed to be the best cooking and the longest keeping variety grown in that state. It is oblong in shape, has a fine blush and white, mottled skin, with strong eyes even with the surface. Large and very smooth. Flesh very white, cooking up dry and mealy. Of such strong growth the bug does not work on them as it does on some of the more delicate growing varieties. Price, 50c. per lb.; \$2 per peck; \$6 per bush. One lb. free with one new

PURE MANILA, 650 FT. TO LB.
SPECIAL MANILLA,
TIGER, STANDARD.

Farmers! Don't be taken in. There is none "just as good." These twines will not bunch at the knotter, and a Binder will run all day without stoppage, thus saving time, annoyance and a "lot o' cussin'."

We pack our twine in bags of the size of ordinary grain bags, and we are not ashamed to put our name upon it. Don't take any other.
