

# INDUSTRIAL CANADA BICYCLE OFFER

**Here's a Chance for any Young Man or Young Woman  
to Get a High Grade Wheel for Nothing.**

**W**ITH this number INDUSTRIAL CANADA will have been before the public for only two months. The reception accorded our first issue from one end of Canada to the other has been so spontaneous and so hearty that our most sanguine expectations have been more than realized. We have received letters of congratulation from many readers and from many places. The press of the country from the Atlantic to the Pacific have said many good things about it, and commend our efforts, and along with all these come cheerful and prompt remittances for a year's subscription.

## **ITS IMMENSE WORTH.**

These evidences of appreciation, and of the immense worth of the journal to Canada and to Canadians, prompt us to greater efforts. Last month we issued five thousand copies. This month that number has been increased. We want to make our list ten thousand within a few months, and before we are a year old to raise it if possible to twenty five thousand.

## **IT IS NOT SECTIONAL.**

INDUSTRIAL CANADA is the only journal of its kind in the Dominion. It is not sectional; it covers every province and every territory. It is the only journal devoted to the dissemination of information concerning not only the settled portions but the explored and unsettled districts—the resources and development of the country, and the upbuilding of its industries.

## **PATRIOTIC CANADIANS.**

We are convinced that to secure 10,000 subscribers promptly it will merely be necessary to bring INDUSTRIAL CANADA to the attention of that number of live, wide-awake, patriotic Canadians—and there are tens of thousands of them in this country if they would only wake up to the fact that they are Canadian, that this country belongs to Canadians, and that it is the grandest and best country under the sun.

## **A REMARKABLE OFFER.**

It should be enough to show a copy of INDUSTRIAL CANADA, point out its aims and objects, and mention the annual subscription price, one dollar, in order to secure a subscriber. Realizing this we have determined to make a remarkable offer with a view to enable any young man or young woman who is willing to put in a few days persistent effort, to assist us in securing a list in every community in Canada.

## **A HIGH GRADE WHEEL.**

We offer to any one sending us the names of one hundred and fifty yearly subscribers to INDUSTRIAL CANADA, accompanied by one dollar for each subscription, a high-grade lady's or gentleman's GREYHOUND BICYCLE, manufactured by the well-known Canadian manufacturers, the Central Machine Works, Toronto. The Greyhound wheels are designed and made by as accomplished bicycle experts as there are in Canada. They are the highest of high grades, and are never sold under one hundred dollars.

## **A LIST OF ONE HUNDRED AND FIFTY.**

One hundred and fifty subscribers seems like a good many, and it would be if you were taking orders for a two-dollar or three dollar publication, or for one where every third or fourth person you called upon was already a subscriber, but with INDUSTRIAL CANADA at one dollar, containing timely and well written reading matter and illustrations every month, a list of one hundred and fifty names is indeed small, and should be secured in a short time.

## **BY THE FIRST OF APRIL.**

Any popular young lady or young man who will begin at once will soon find their friends assisting them, and by the first of April or before the opening of the wheeling season, can have a wheel of her or his own for nothing, outside of the brief effort required to get up the list. Two six months subscriptions at 50 cents will count as one yearly. Bear in mind the wheel we will supply you will be high grade and up to date.

## **DON'T SAY YOU CAN'T.**

As we mean business and make you a great big offer, we want immediate responses from each person who decides to go to work. Don't say you can't do it, but make up your mind that after all it will require but a determined effort and but a few days labor. Sample copies for canvassing and instructions will be supplied on application. Address INDUSTRIAL CANADA, Toronto, and write us at once.

If through any circumstance any canvasser should fail to secure the required list of 150 subscribers, we will give a Bicycle for 125 subscriptions and \$15.00 cash; 100 subscriptions and \$30.00 cash; 75 subscriptions and \$45.00 cash, or 50 subscriptions and \$60 cash. If you prefer to canvass for INDUSTRIAL CANADA for a Cash Commission, write us for terms.
