

## SEED-TIME,

as it refers to **Ayer's Sarsaparilla**, dates from the taking of the first bottle of this wonderful medicine, by the first individual who sought its healing powers. Since that time, over 50 years ago, the value of **Ayer's Sarsaparilla** has become known throughout the world, and the best expression of public sentiment in its favor as a blood-purifier, was found in the permission granted for its exhibition at the **World's Fair**. All other Sarsaparillas were classed as patent medicines, or nostrums, and thrown out. Take nothing that is claimed as a substitute. Insist on having
