

Sunday school, "we were fashioned by a wiser power than ourselves. There was no mistake made in putting us together. If our hands were placed where our feet are, and our feet where our hands are, how could we get along? It would be exceedingly awkward, children, exceedingly awkward. I stretch my hand out this way. I move my fingers like this. Now, what is this an evidence of, children?" There was no reply, and after waiting a moment the speaker answered the question himself. "It is an evidence of design. Don't forget that, children," he continued, impressively. "It is an evidence of design. Suppose, for instance, my eye, instead of having lids and lashes, had legs. Suppose my eyes had legs. How could I use them?" "You could use them in running your eye over the congregation, couldn't you?" replied a deeply interested little boy near the door.—*Chicago Tribune*.

FORTY-NINTH ANNUAL MEETING OF THE AMERICAN MEDICAL ASSOCIATION.

Denver has redeemed her pledges, and the meeting of this association just closing has been one of the most satisfactory in its history.
