draft agreement with the Professors.—
Carried.

The President asks Mr. Waters to take
the chair.

Mr. Jeffrey stated when the first draft was
made he sent it to Mr. Shuttleworth with
instructions that as to any future reference
to this agreement he had better correspond
with Mr. Clarke, the President of the Col-
lege, as Mr. Clarke knew more of the
running of the institution than he did. The
papers produced are copies.

Mr. Hall states that while this matter is
in dispute and until it can be settled he does
not think it would be wise to show the
official correspondence between the solicitors
and the official members of the College.

Mr. Sanders states that he learns now
for the first time that there is any amount of
correspondence and he thinks any inclination
to suppress any of it is wrong and that he
thinks the fullest information possible is due
to those members of the board who know
nothing about what has been done.

Mr. Jeffrey explains that the official cor-
respondence had been rendered private by
being transferred to Mr. Clarke, so that
really there is no official correspondence.

Mr. Clarke states that there is an im-
mense amount of correspondence between
the professors and themselves. When the

Committee was appointed to draft an agree-
ment between the professors and the college,
he had urged on the chairman, and written
to him on several occasions from the 15th
August until the first draft was prepared,
and had sent suggestions to him which he
believes were presented to the other mem-
bers of the committee also, except one. He
had been informed by the Chairman of the
Committee that these were placed in the
hands of the solicitor the result being the
first draft of the agreement.

He understands that the chairman of the
committee submitted to the professors of the
College and the administrator for their con-
sideration in the latter part of September
the draft agreement, the result of which was
a letter from the Principal of the school and
also one from Prof. Avison which letters are
here.

Mr. Clarke read Prof. Shuttleworth's letter
dated 12th October, 1889, and the letter
from Dr. Avison dated 8th October, and
stated that he sent copies of these letters to
the chairman of the committee, and the
chairman of the joint committee drew up the
basis of the contract which is published in
the last Journal. He (Mr. Clarke) also sent
a copy of the letters just read to the Vice-
president of the College and to Mr. Slavin
and the chairman of the Committee on Edu-
