ENGLISH CANNON FOR FRANCE.-The London cor-

respondent of the Waterford Citizen says :- " Every-

one who does not wish to perform the eccentric lo-

gical process of arguing himself unknown, will admit

his admiration of the artistic knot which Beau Brum-

mell used to evolve on his necktie. You remember the account of that distinguished person's toilette,

where, after his physiognomy had been embellished

to the pitch of perfection, one of the ministering

valets produced a magazine of the kerchief of the

last mode, and all the intellectual ingenuity and

manipulative delicacy of the Adonis of Pall Mall were employed in a series of experiments, until that

famous wreath, which drove so many dandies to des-

pair, was laborated. In the chambers of my friend,

the admirable Orichton, I happened to take up the

other day a perfect rendering of that much more justly famous than the Gordian knot. It was ex-

ecuted in the by no means plastic or indeed appro-

printe material of cast iron. " That, said my

finest iron in the universe. The knot is the test to

which it is subjected, in order to test its density,

temper, and cobesiveness The specimen in your hand is of the quality used in casting the new artil-

lery. The particular artillery in question, some of

which I saw cast from the same iron, was an order for 400 heavy guns from the Emperor Napoleon.

From the Emperor Napoleon ! I said incredulously

Pray, does his Majesty cast his cannon in Stafford.

shire?' 'Certainly!' responded my admirable friend.
'All hands were at work at the foundries, when I

visited them a week ago, casting as I told you, 400 heavy guns for H. I. M.? 'For China,' said I, 'doubt-

'Very probably' I continued. But did you remark,

or did the enterprising and deservedly prosperous

cannon-founders of Low-moor inform you, whether

there is any peculiar difference between the cele-

brated Cannon Nupoleon and its English rival, the Armstrong Gun?' 'I asked the question, of course,' my friend pensively responded, but strange to say I could not get any information on the point, about which knowing your weakness for artillary I would be a superior of the course.

lery, I was of course particular.' (I bowed Beau Brummell's best bow.) 'But the fact is, you see, that

the guns are only cast or wrought in the rough at

Low-moor. They are then shipped to the imperial

arsonals at Cherbourg or Brest. They are there

rifled and otherwise finished in that style with which

the Austrian reserves became so unpleasantly acquainted at Solferino. His Majesty thus secures for his guus the finest iron in the world; and, with

the aid of his own foundries, a stock sufficient even

for the exigencies of the war with-China! But the

iron bore is drilled into the Cannon Napoleon in the

secret uteliers of the French artillery department, which Marshal Neil, I suppose, still superintends. Do you comprehend, said he. 'I rather think I do,

anid I. 'It will take a sword of keener temper than

Damascus ever wrought to cut that Gordian knot.

NOT WELL DONE, BUT BARR .- An artist showing

his picture to a customer, received the following sharp retort, "Well, I don't think much of this,"

said the customer, holding up the picture before

"Don't think much of it! Why that's a very rare

W. DORAN, Principal.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitinted, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUTTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or Envirences, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Dis-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITAL-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them

their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costicaness, Heartburn, Headache avising from disordeved Stomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Boveds, Flatuleucy, Loss of Apparitie, Jaundice, and other kindred complaints, orising from a low state of the body or onstruction of its functions.

Ayer's Cherry Pectoral.

FOR THE RAPID CULK OF

Coughs, Colds, Influenza, Hourseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publiely known, who have been restered from alari and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this have gained friends by every trial conferred benefits on munity nave made and open discarded, in has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to PREPARED BY
