Feasibility Studies  
Geological Surveying Services

### MINERAL PROCESSING

Metallurgical Engineering  
Process design and improvement  
Plant design

### SURFACE MINING

Mining Engineering

### UNDERGROUND MINING

Development  
Mining engineering services

## Company/Product

AGRA Industries Limited (AGRA) is one of Canada's largest engineering and environmental consulting firms, employing over 5,000 people in more than 140 offices in Canada, the United States, the Caribbean, Europe, Russia, South America, Africa, Asia, and Southeast Asia. Founded more than 30 years ago, AGRA has annual revenues of approximately \$600 million and is a publicly held company whose shares are traded on the Toronto and Montreal Stock Exchanges.

AGRA Earth and Environmental (AGRA E and E) is dedicated to being a recognized provider of superior environmental and engineering services aimed at enhancing its clients' competitive, financial, regulatory, and technical divisions. Among other areas, AGRA E and E provides advice in: environmental impact assessment and baseline studies; environmental audits of industrial, commercial, and institutional facilities and their operations; assessment and compliance monitoring of industrial emissions to air and water; and development and implementation of remediation, reclamation, and decommissioning plans for industrial facilities and affected environments.

AGRA is also committed both in Canada and overseas to long term protection of the environment through principles of sustainable development, habitat conservation, and hazard reduction strategies. Overseas, AGRA assists government officials and scientists in technology transfer, training programs, and in the effective strengthening of environmental infrastructure, monitoring, and enforcement requirements.
