CDIA FDI Note FDI s	: Trade in services figurestatistics exclude icelar	\$17.6 billion ares only includes Norway and CDIA excludes Liech	15.8 and Switzerland.

The European Free Trade Association countries of Iceland, Liechtenstein, Norway and Switzerland are developed, modern economies that offer state-of-the-art technology as well as significant potential markets for Canadian firms. The EFTA region is the world's 16th largest trader in merchandise goods, and its members have some of the highest GDPs per capita in the world, ranking among the top 10 countries.⁹ For more information on the EFTA free trade agreement, please see Chapter 4, "Regional and Bilateral Free Trade Agreements and Other Initiatives."

These statistics exclude Liechtenstein.
